## **The Life Of The Law Anthropological Projects:**

The Life of the Law Laura Nader, 2002-02-28 Nader traces the evolution of the plaintiff's role in the United States in the second half of the twentieth century and convincingly argues that the atrophy of the plaintiff's power during this period undermines democracy     *The Future of African Customary Law* Jeanmarie Fenrich, Paolo Galizzi, Tracy E.

Higgins, 2011-07-18 Customary laws and traditional institutions in Africa constitute comprehensive legal systems that regulate the entire spectrum of activities from birth to death Once the sole source of law customary rules now exist in the context of pluralist legal systems with competing bodies of domestic constitutional law statutory law common law and international human rights treaties This book promotes discussion and understanding of customary law and explores its continued relevance in sub Saharan Africa The volume considers the characteristics of customary law and efforts to ascertain and codify customary law and how this body of law differs in content form and status from legislation and common law It also addresses a number of substantive areas of customary law including the role and power of traditional authorities customary criminal law customary land tenure property rights and intestate succession and the relationship between customary law human rights and gender equality     Imagining Landscapes Monica Janowski, Tim Ingold, 2016-05-13 The landscapes of

human habitation are not just perceived they are also imagined What part then does imagining landscapes play in their perception The contributors to this volume drawn from a range of disciplines argue that landscapes are imagined in a sense more fundamental than their symbolic representation in words images and other media Less a means of conjuring up images of what is out there than a way of living creatively in the world imagination is immanent in perception itself revealing the generative potential of a world that is not so much ready made as continually on the brink of formation Describing the ways landscapes are perpetually shaped by the engagements and practices of their inhabitants this innovative volume develops a processual approach to both perception and imagination But it also brings out the ways in which these processes animated by the hopes and dreams of inhabitants increasingly come into conflict with the strategies of external actors empowered to impose their own ready made designs upon the world With a focus on the temporal and kinaesthetic dynamics of imagining *Imagining Landscapes* foregrounds both time and movement in understanding how past present and future are brought together in the creative world shaping endeavours of both inhabitants and scholars The book will appeal to anthropologists sociologists and archaeologists as well as to geographers historians and philosophers with interests in landscape and environment heritage and culture creativity perception and imagination     **Fictions of Justice** Kamari Maxine

Clarke, 2009-05-25 This book explores how notions of justice are negotiated through everyday micropractices and grassroots contestations of those practices     **Legal Anthropology** James M. Donovan, 2007-12-28 *Legal Anthropology An Introduction* offers an initial overview of the challenging debates surrounding the cross cultural analysis of legal systems Equal parts review and criticism James M Donovan outlines the historical landmarks in the development of the discipline identifying both

strengths and weaknesses of each stage and contribution Legal Anthropology suggests that future progress can be made by looking at the perceived fairness of social regulation rather than sanction or dispute resolution as the distinguishing feature of law

**Lawyering an Uncertain Cause** Michele Statz, 2021-04-30 Each year a number of youth who migrate alone and clandestinely from China to the United States are apprehended placed in removal proceedings and designated as unaccompanied minors These young migrants represent only a fraction of all unaccompanied minors in the US yet they are in many ways depicted as a preeminent professional and moral cause by immigration advocates In and beyond the legal realm the figure of the vulnerable Chinese child powerfully legitimates legal claims and attorneys efforts At the same time the transnational ambitions and obligations of Chinese youth implicitly unsettle this figure The maneuvers of these youth not only belie attorneys reliance on racialized discourses of childhood and the Chinese family but they also reveal more broad uncertainties around legal frameworks institutional practices health and labor rights and cause lawyering itself Based on three years of fieldwork across the United States Lawyering an Uncertain Cause is a novel study of the complex and often contradictory rights responsibilities and expectations that motivate global youth and the American attorneys who work on their behalf

economic and political contexts By examining the different ways in which legal norms instruments and discourses are being used to challenge or reinforce gendered forms of exclusion contributing authors generate new knowledge about the dynamics at play between the contemporary contexts of legal pluralities and the struggles for gender justice Any consideration of this relationship must be located within a broader historically informed analysis of regimes of governance
