Speaking Truth to Canadians about Their Public Service Donald J. Savoie, 2024-09-10 The federal public service plays a vital role in Canada's development by helping to shape public policies and deliver programs and services to Canadians Speaking Truth to Canadians about Their Public Service provides a comprehensive review of the challenges confronting the public service how the relationship between politicians and career officials has evolved in recent years and what motivates public servants Donald Savoie calls on Canadians and their politicians to consider what they want from their federal public service Answering this question requires a fresh look at the government's traditional accountability requirements how policies are shaped and how government programs and services are delivered It also requires a review of ambitious modernization and reform measures launched over the past forty years to make the public service more accommodating to political direction and to improve program delivery Dividing federal public servants into two groups poets those who write policy and plumbers those who deliver programs and services the book establishes who has the upper hand

This division sheds new light on the theories that seek to explain the attitudes and behaviours of career government officials. Amid increasingly strong signs that the public service is in need of a reset, *Speaking Truth to Canadians about Their Public Service* concludes with practical recommendations to assist Canadians and their politicians in defining what they want their public service to be. **The Evolving Physiology of Government** O. P. Dwivedi, Tim A. Mau, Byron M. Sheldrick, 2009-06-20

Canadian public administration has provided a rich ground for examining the changing nature of the state. Currents of political change have rippled through the administration of the public sector, often producing significant alterations in our understanding of how best to organize and administer public services. This volume brings together some of the leading Canadian and international scholars of public administration to reflect on these changes and their significance. Providing a historical perspective on public administration in Canada, the volume examines the shift from a traditional model of administration to newer forms such as new public management and governance, and explores current debates and the place of Canadian public administration within a broader comparative perspective. Published in English. Governing from the Centre Donald J. Savoie, 1999-01-01

Agencies and policies instituted to streamline Ottawa's planning process instead concentrate power in the hands of the Prime Minister, more powerful in Canadian politics than the U.S. President in America. Riveting, startling, and indispensable reading. Governing with the Charter James B. Kelly, 2011-11-01

Since the introduction of the Canadian Charter of Rights and Freedoms in 1982, the question of judicial power and its relationship to parliamentary democracy has been an important one in Canadian politics. Some critics, suspicious of what they perceive as the activism of unelected and unaccountable judges, view the increased power of the Supreme Court as a direct challenge to parliament. But has parliamentary democracy been weakened by judicial responses to the Charter? In *Governing with the Charter*, James Kelly clearly demonstrates that our current democratic deficit is not the result of the Supreme Court's judicial activism. On the contrary, an activist framers' intent surrounds the Charter, and the Supreme Court has simply and appropriately responded to this new constitutional environment. While the Supreme Court is admittedly a political actor, it is not the sole interpreter of the Charter; as the court, the cabinet, and bureaucracy all respond to the document, which has ensured the proper functioning of constitutional supremacy in Canada. Kelly analyzes the parliamentary hearings on the Charter and also draws from interviews with public servants, senators, and members of parliament actively involved in appraising legislation to ensure that it is consistent with the Charter. He concludes that the principal institutional outcome of the Charter has been a marginalization of Parliament, and that this is due to the Prime Minister's decision on how to govern with the Charter. A significant contribution to law and society studies, *Governing with the Charter* will be widely read by political scientists, legal scholars, parliamentarians, public servants, and students of the machinery of government.
