The Making Of Scotland Nation Culture And Social Change:

The Making of Scotland, 1989 *The Sociology of Nationalism* David McCrone, 2002-05-03 In recent years nationalism has emerged as a dominant issue of our time This is a balanced account of the key points of a subject which is too often obscured by polemic The Oxford Handbook of Scottish Politics Michael Keating, 2020 The Handbook of Scottish Politics provides a detailed overview of politics in Scotland looking at areas such as elections and electoral behaviour public policy political parties and Scotland's relationship with the EU and the wider world The contributors to this volume are some of the leading experts on politics in Scotland Studying British Cultures Susan Bassnett, 2021-04-29 Studying British Cultures is a lively and provocative volume of essays which offers the ideal introduction to a contentious area The contributors who have been instrumental in establishing the discipline of British Cultural Studies explore a wide range of critical debates on cultural identity and explode the myth that Britain is made up of a homogenous people The first half of the book traces examines the theory and methodology of studying British cultures in disciplines variously known as British Studies Cultural Studies or British Cultural Studies The second half of the book turns to key topics in those fields looking in turn at developments in Scottish Welsh and Irish Studies and the roles of Shakespeare and West Indian literature in the study of British cultures In vivid and often entertaining essays the authors demonstrate that culture is a plurality of discourses not a fixed unitary concept **Sport and Tourism** James Higham, Tom Hinch, 2010-05-04 Sport and Tourism Globalization Mobility and Identity marks a new era in sport tourism texts Written by global experts whose previous collaborations have been integral to the development of the field the book applies key social science concepts and issues relevant to the academic study of sport and tourism This is a ground breaking text which critically explores the wider manifestations of sport related tourism and mobility Addresses key themes such as globalization mobility and identity Explores the unique interrelationship that exists in a sport tourism context between activity people and place Includes case studies written by a range of leading scholars from around the world Set to be the an essential text for any student or academic in the field this book cements and advances previous studies by building upon existing literature while extending the field by exploring avenues of study that are yet to be comprehensively addressed The latest collaboration by internationally renowned authors applies new theoretical perspectives for the advancement of sport tourism **Beyond Pug's Tour**, 2022-06-08 At a time when the world Europe especially is once more threatened by murderous conflicts between groups of people claiming ethnic and national identity as a basis for sovereignty over specific territories it is timely to consider the part that literature has played and is playing in the creation of ethnic and national stereotypes What role do such stereotypes have in literature How are they created From what materials are they constructed What purpose do ethnic and national stereotypes serve Can it ever be a useful one Are they avoidable Can we live without them What can be done about the deleterious effects they may be thought to produce Stereotyping is worldwide is there a tribe race and nation in existence which escapes being stereotyped by its neighbours In

what sense are these stereotypes accurate How are these stereotypes reflected in and reinforced by literature Should and can literature do anything about them In *Beyond Pugs Tour National and Ethnic Stereotyping in Theory and Literary Practice* literary scholars as well as academics engaged in sociological and psychological research consider these and other questions by examining the work of specific authors and the circumstances in which stereotyping plays such a crucial part

Moving the Goalposts Martin Polley, 2002-09-11 Martin Polley provides a survey of sport in Britain since 1945 and examines sport's place in British culture He discusses issues of class gender race commerce and politics as well as analysing contemporary sport

The Public Value of the Social Sciences John D. Brewer, 2013-03-28 What is the purpose of social science How can social science make itself relevant to the intractable problems facing humanity in the twenty first century The social sciences are under threat from two main sources One is external reflected in a global university crisis that imposes the marketization of higher education on the ancient practice of scholarship The other internal threat is social science's withdrawal from publicly engaged teaching and research into the protective bunker of disciplinarity In articulating a vision for the public role of social science in the twenty first century John Brewer argues that these threats also constitute an opportunity for a new public social science to emerge confident in its public value and fully engaged with the future of humanity in its teaching research and civic responsibilities while also remaining committed to science The argument is presented in the form of an interpretive essay thought provoking forward looking and challenging to intellectual orthodoxy It should be read and debated by all researchers and teachers in the social science disciplines who are concerned by the future of higher education and the relevance of their subjects to the future of humankind

Sporting Nationalisms Mike Cronin, David Mayall, 2005-07-08 This volume examines the ways in which sport shapes the experiences of various immigrant and minority groups and in particular looks at the relationship between sport ethnic identity and ethnic relations The articles in this volume are concerned primarily with British American and Australian sporting traditions and the themes covered include the consolidation of ethnic identity in host societies through participation immigrant sports and exclusive sporting organizations assimilation into host societies through participation in indigenous national sports and the construction by outsiders of separate ethnic identities according to sporting criteria

The Necessary Nation Gregory Jusdanis, 2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for modernization Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking Jusdanis however emphasizes the positive collaboration between nation building and culture Through a series of critical readings of multicultural postcolonial and globalization theories the author reveals how nationalism enables people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens He explains why people over the last two hundred years

have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world What emerges is a fresh perspective on the subjects of national culture identity political nations globalization postcolonialism and diaspora
