Kenneth Aaron Rodman

The Making Of The Good Neighbor Policy:

The Making of the Good Neighbor Policy Bryce Wood, 1967 **New Perspectives on the Good Neighbor Policy** Ana Maria Mauad, Alexandre Busko Valim, 2023-11-15 The Second World War was a watershed moment in US South American relations Yet the Good Neighbor Policy the driving force behind many of the changes during this time remains underanalyzed especially from a South American perspective Examining topics ranging from literary fashions and trends in the press to science militarism and gender categories *New Perspectives on the Good Neighbor Policy* sheds light on this crucial period in which the US defined geopolitical relations with South America and solidified its hemispheric hegemony Additionally the contributors evaluate the legacy of the Good Neighbor Policy in the twentieth century and its impact on twenty first century politics **The Making of the Good Neighbor Policy** , 1967 Neighborly Adversaries Michael J. LaRosa, Frank O.

Mora, 2007 Providing a balanced and interdisciplinary interpretation this comprehensive reader traces the troubled U S Latin American relationship from the beginning of the nineteenth century to the post 9 11 period Thoroughly revised and updated the second edition includes original essays on critical issues such as immigration and the environment In addition a new section helps students understand the most important themes and topics that unify and divide the United States and Latin American nations today The readings are framed by the editors opening chapter on the history of the relationship part introductions and abstracts for each selection Methodologically interdisciplinary yet comparative and historical in organization and structure this collection will benefit students and specialists of Latin America s complex historical social and political relationship with its northern neighbor **Sanctity Versus Sovereignty** Kenneth Aaron Rodman, 1988

Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government s responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi s investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese

government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers The Dismantling of the Good Neighbor Policy Bryce Wood,2010-07-22 The Good Neighbor Policy was unique a great power obligated itself not to use force in its dealings with twenty smaller powers and not to interfere in their domestic politics It was a policy that lasted with some perturbations for twenty years instituted by President Roosevelt in 1933 and carried out effectively from 1933 to 1943 by word and action maintained during the Second World War largely as a result of British concern for continuance of Argentine beef exports codified in the Charter of the Organization of American States in 1948 and reasserted by Truman and Acheson in 1950 51 it was covertly repudiated in Guatemala in 1954 by Eisenhower and the Dulles brothers and not so secretly by Kennedy in the disastrous Bay of Pigs invasion of 1961 Openly shattered in the Dominican Republic by Johnson in 1965 it has since been completely abandoned in favor of the usual relationships between large and small powers Working with documents from the Public Records Office in London and the National Archives with recently released materials from the U S Department of State and with secondary sources Bryce Wood describes the temptations laid before the leaders of one powerful state by its occasionally recalcitrant neighbors and the ways of reacting that were found Having told half the story in his The Making of the Good Neighbor Policy Wood now concludes it in the present volume One of the chief casualties is shown to be the Organization of American States which since 1954 has found itself badly crippled in its work to promote harmony and continued cooperation among the member states **A Companion to Franklin D. Roosevelt** William D. Pederson,2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars **How We Fight** Dominic Tierney,2010-11-04 Americans love war We ve never run from a fight Our triumphs from the American Revolution to World War II define who we are as a nation and a people Americans hate war Our leaders rush us into conflicts without knowing the facts or understanding the consequences Korea Vietnam and now Iraq and Afghanistan define who we are as a nation and a people How We Fight explores the extraordinary doublemindedness with which Americans approach war and reveals the opposing mindsets that have governed our responses throughout history the crusade tradition our grand quests to defend democratic values and overthrow tyrants and the quagmire tradition our resistance to the work of nation building and its inevitable cost in dollars and American lives How can one nation be so split Studying conflicts from the Civil

War to the present Dominic Tierney has created a secret history of American foreign policy and a frank and insightful look at how Americans respond to the ultimate challenge And he shows how success is possible His innovative model for tackling the challenges of modern war can mean longstanding victory in Iraq and Afghanistan by rediscovering a lost American warrior tradition
