

THE LOST KINGDOM

THE QUEST FOR EMPIRE AND THE
MAKING OF THE RUSSIAN NATION
FROM 1470 TO THE PRESENT

SERHII PLOKHY

The Making Of The Russian Nation

Serhii Plokyh

The Making Of The Russian Nation:

The Making of the Russian Nation, 1977 *Lost Kingdom* Serhii Plokhy, 2017 From a preeminent scholar of Eastern Europe a new history of Russian imperialism In 2014 Russia annexed the Crimea and attempted to seize a portion of Ukraine While the world watched in outrage this blatant violation of national sovereignty was only the latest iteration of a centuries long effort to expand Russian boundaries and create a pan Russian nation In *Lost Kingdom* award winning historian Serhii Plokhy argues that we can only understand the confluence of Russian imperialism and nationalism today by delving into the nation s history Spanning over 500 years from the end of the Mongol rule to the present day Plokhy shows how leaders from Ivan the Terrible to Joseph Stalin to Vladimir Putin exploited existing forms of identity warfare and territorial expansion to achieve imperial supremacy An authoritative and masterful account of Russian nationalism *Lost Kingdom* chronicles the story behind Russia s belligerent empire building quest **Lost Kingdom** Serhii Plokhy, 2017 In 2014 Russia annexed the Crimea and attempted to seize a portion of Ukraine While the world watched in outrage this blatant violation of national sovereignty was only the latest iteration of a centuries long effort to expand Russian boundaries and create a pan Russian nation In *Lost Kingdom* award winning historian Serhii Plokhy argues that we can only understand the confluence of Russian imperialism and nationalism today by delving into the nation s history Spanning over 500 years from the end of the Mongol rule to the present day Plokhy shows how leaders from Ivan the Terrible to Joseph Stalin to Vladimir Putin exploited existing forms of identity warfare and territorial expansion to achieve imperial supremacy An authoritative and masterful account of Russian nationalism *Lost Kingdom* chronicles the story behind Russia s belligerent empire building quest *Mobilizing the Russian Nation* Melissa Kirschke Stockdale, 2016-12-13 The First World War had a devastating impact on the Russian state yet relatively little is known about the ways in which ordinary Russians experienced and viewed this conflict Melissa Kirschke Stockdale presents the first comprehensive study of the Great War s influence on Russian notions of national identity and citizenship Drawing on a vast array of sources the book examines the patriotic and nationalist organizations which emerged during the war the role of the Russian Orthodox Church the press and the intelligentsia in mobilizing Russian society the war s impact on the rights of citizens and the new democratized ideas of Russian nationhood which emerged both as a result of the war and of the 1917 revolution Russia s war experience is revealed as a process that helped consolidate in the Russian population a sense of membership in a great national community rather than being a test of patriotism which they failed

Lost Kingdom Serhii Plokhy, 2017-10-10 From a preeminent scholar of Eastern Europe and the prizewinning author of *Chernobyl* the essential history of Russian imperialism In 2014 Russia annexed the Crimea and attempted to seize a portion of Ukraine only the latest iteration of a centuries long effort to expand Russian boundaries and create a pan Russian nation In *Lost Kingdom* award winning historian Serhii Plokhy argues that we can only understand the confluence of Russian imperialism and nationalism today by delving into the nation s history Spanning over 500 years from the end of the Mongol

rule to the present day Plokhy shows how leaders from Ivan the Terrible to Joseph Stalin to Vladimir Putin exploited existing forms of identity warfare and territorial expansion to achieve imperial supremacy An authoritative and masterful account of Russian nationalism **Lost Kingdom** chronicles the story behind Russia's belligerent empire building quest **Nationalist Imaginings of the Russian Past** Konstantin Sheiko, 2012-05-25 Anatolii Fomenko is a distinguished Russian mathematician turned popular history writer founder of the so called New Chronology school and part of the explosion of alternative historical writing that has emerged in Russia since the collapse of the Soviet Union Among his more startling claims are that the Old Testament was written after the New Testament that Russia is older than Greece and Rome and that the medieval Mongol Empire was in fact a Slav Turk world empire a Russian Horde to which Western and Eastern powers paid tribute While academic historians dismiss Fomenko as a dangerous ethno nationalist or post modern clown Fomenko's publications invariably outsell his conventional rivals Just as Putin has restored Russia's faith in its future Fomenko and an army of fellow alternative historians are determined to restore Russia's faith in its past For Fomenko the key to Russia's greatness in the future lies in ensuring that Russians understand the true greatness of their past Fomenko and other pseudo historians have built upon existing Russian notions of identity specifically the widespread belief in the positive qualities of empire and the special mission of Russia He has drawn upon previous attempts to establish a Russian identity ranging from Slavophilism through Stalinism to Eurasianism While fantastic Fomenko's pseudo history strikes many Russian readers as no less legitimate than the lies and distortions peddled by Communist propagandists Tsarist historians and church chroniclers

Nationalizing the Past S. Berger, C. Lorenz, 2016-01-19 Historians traditionally claim to be myth breakers but national history since the nineteenth century shows quite a record in myth making This exciting new volume compares how national historians in Europe have handled the opposing pulls of fact and fiction and shows which narrative strategies have contributed to the success of national histories **The Paradox of Ukrainian Lviv** Tarik Cyril Amar, 2015-11-17 The Paradox of Ukrainian Lviv reveals the local and transnational forces behind the twentieth century transformation of Lviv into a Soviet and Ukrainian urban center Lviv's twentieth century history was marked by violence population changes and fundamental transformation ethnically linguistically and in terms of its residents self perception Against this background Tarik Cyril Amar explains a striking paradox Soviet rule which came to Lviv in ruthless Stalinist shape and lasted for half a century left behind the most Ukrainian version of the city in history In reconstructing this dramatically profound change Amar illuminates the historical background in present day identities and tensions within Ukraine **Russians As The New Minority** Jeff Chinn, Robert Kaiser, 2019-07-11 Twenty five million Russians live in the newly independent states carved from the territory of the former Soviet Union When they or their ancestors emigrated to these non Russian areas they seldom saw themselves as having moved abroad Now with the dissolution of the USSR these Russians find themselves to be minorities often unwelcome in new states created to fulfill the aspirations of indigenous populations Will the governments of these

newly independent states be able to accept the fact that their populations are multi national Will the formerly dominant and privileged Russians be able to live with their new status as equals or more often subordinates To what extent do the new regimes policies of accommodation or exclusion establish lasting patterns for relations between the titular majorities and the minority Russians Developing the concept of interactive nationalism this timely book explores the movement of Russians to the borderlands during the Russian Empire and Soviet times the evolution of nationality policies during the Soviet era and the processes of indigenization during the late Soviet period and under the newfound independence of the republics The authors examine questions of citizenship language policy and political representation in each of the successor states emphasizing the interaction between the indigenous population and the Russians Through the use of case studies the authors explore the tragic ethnic violence that has erupted since the demise of the Soviet Union and weigh strategies for managing national conflict and developing stable democratic institutions that will respect the rights of all ethnic groups Jeff Chinn is associate professor of political science at the University of Missouri Columbia Robert Kaiser is assistant professor of geography at the University of Missouri Columbia

The Ukrainian-Russian Borderland Volodymyr V. Kravchenko, 2022-08-26 The eastern edge of Europe has long been in flux The nature of the Ukrainian Russian relationship is both complex and ambiguous Prompted by the countries historical and geographical entanglement Volodymyr Kravchenko asks what the words Ukraine and Russia really mean The Ukrainian Russian Borderland abandons linear historical interpretation and addresses questions of identity and meaning through imperial and geographic contexts Dominated by imperial powers Eastern Europe and its boundaries were in a constant state of flux and re identification during the Russian imperial period Here the Little Russian early modern identity discourse both connects and separates modern Russian and Ukrainian identities and gives rise to issues of historical terminology Mirroring the historical ambiguity is the geographical fluidity of the borders between Ukraine and Russia Kravchenko situates this issue in the city of Kharkiv and Kharkiv University as both real and imagined markers of the borderland Putting the centuries long Ukrainian Russian relationship into imperial and regional contexts Kravchenko adds a new perspective to the ongoing discourse about relations between the two nations
