After Modernism Robert Bailey,2025-05-30 This study provides a new interpretation of art after modernism by foregrounding the importance of conceptual thinking as a pervasive force for change in art and art history since 1950 Robert Bailey shows how distinctions between art and art history gave way as conceptual thinking provided artists and art historians with a common means to reassess what art could be and do in the world Bailey assesses the results of artful and scholarly inquiries combining creative activity with intellectual rigor to proffer new approaches to a variety of social and environmental concerns ranging from questions about human identity including race class gender and sexuality to activist efforts to redress everything from abortion access to migrants rights to climate change This book provides both a historical overview of these developments and close analyses of key works and texts spanning 1950 to the present and encompassing broad geographic scope with special attention paid to Indigenous art The book will be of interest to scholars working in art history and contemporary art Aesthetics and the Sociology of Art Janet Wolff,2021-04-29 First published in 1983

Aesthetics and the Sociology of Art provides a lucid account of two divergent tendencies in the study of aesthetics At the one extreme traditional aestheticians have assumed that art and literature are wholly independent following only the laws and inspirations of artists and artistic movements and that the question of aesthetic value is accordingly unproblematic At the other extreme some sociologists have treated works of art as no more than manifestations of the socio economic circumstances which produce them arguing that aesthetic value is therefore entirely relative matter Janet Wolff shows how both the extreme positions are untenable and argues convincingly that we must accept that the conceptions and criteria of aesthetic value are socially constructed and inevitably ideological while stopping short of the reductionist alternative which fails to recognise the irreducible questions of pleasure and of aesthetic discourse This book provides an invaluable clear guide both to old debates and to otherwise obscure modern controversies which will be welcomed both by students and scholars in the sociology of art in aesthetics in art history and in literary criticism Historical Dictionary of Kant and
