Bartley Hildreth, Gerald J. Miller, Jack Rabin, 1997-09-19 This bestselling reference examines all major areas in public administration from the enlightening perspectives of history and the five great concepts or theories framing each topic including public budgeting financial management decision making public law and regulation and political economy The American Reference Books Annual calls this stimulating and thought provoking thorough and inclusive a valuable contribution and Canadian Public Administration said it is impressive an extremely useful reference tool the writing and analysis and the scope of the coverage make the volume a good investment for both government and university libraries *The Guide to the Federal Budget* Stanley E. Collender, 1983-02 □□□□□□□□□□□□□□□□ **1982-1983**, 1985 **Interdisciplinary Planning** Kan Chen, 2017-09-04 Critiques of traditional urban planning are numerous The debate about direction within the profession and why urban planning seems to be in a state of despair continues However and as Milan J Dluhy and Kan Chen note the more critical issue is the future direction of planning particularly interdisciplinary planning In this regard they note five principal areas of concern planning is action research planning is knowledge driven planning is both process and technologically oriented planning is interdisciplinary and planning is adaptive to emerging concerns Reviewing the literature and empirical studies on roles and attitudes the editors note that planners seem committed to symbols and expressions of advocacy as well as traditional planning doctrine This emphasizes rational planning and neutral policy roles for practitioners Without a guiding theory to give a unified approach to practice planners remain free to select the role most compatible with their personal background and training This volume asserts that diversity need not be a drawback as long as careful analysis and open planning processes are used This title will be an invaluable resource Part I illustrates the critical dilemmas in planning Part II focuses on planning skills and orientations the third part focuses sharply on planning roles while the final section answers a fundamental question can interdisciplinary planning offer a more useful perspective than others on how to achieve
