**Kinship, Honour and Money in Rural Pakistan** Alain Lefebvre, 2014-03-05 International migration is favoured by the governments of many poorer countries despite often well publicized abuses affecting individual migrant workers Not only is local unemployment reduced but also it is expected that the migrants will learn new skills with many even becoming entrepreneurs on their return home Meantime they are seen as a source of foreign remittances providing needed capital for economic development Such is the attitude in Pakistan from where thousands of migrant workers leave every year for the Gulf states especially An anthropological study approaching this issue from a local village level this book focuses on two areas of the Punjab Describing the historical passage of rural life from pre colonial times to the present it shows how the rural economy of the Punjab was not transformed by the green revolution on the contrary it is still a subsistence economy The resulting poverty combined with Pakistan's labour market policies forces many Punjabi men to seek work abroad in turn bringing changes to the economic role of the women left behind Remittances from abroad have brought further changes on the economic and social life of the villages but not as expected to bring economic development let alone capital or entrepreneurialism to the area

**Democracy and Reform in the Middle East and Asia** Amin Saikal, Amitav Acharya, 2013-12-23 The protests that swept across the Middle East and North Africa in late 2010 and 2011 confounded long time observers of the region in both the media and academia After addressing the conditions in the Middle East and North Africa that produced these attempts at revolution Amin Saikal and Amitav Acharya explore the global impact of the protests both in terms of their ideological influence on opposition groups and the prospects for democratic transition in a variety of authoritarian and semi authoritarian governments Democracy and Reform in the Middle East and Asia commences with a comprehensive attempt to understand the cultural economic and political background out of which the uprisings in Egypt Tunisia and Libya emerged It then expands outwards investigating the impact of the Arab uprisings on a regional level in other Middle Eastern and north African states such as Iran Morocco and Algeria and on a more global level in the Asian states of China Malaysia Singapore Indonesia and the former Soviet Muslim republics Saikal

and Acharya bring a global perspective to the still unfolding wave of calls for more meaningful political participation which continues to make itself felt in the Middle East to shed light upon the ideal role of both regional and international actors in promoting sustainable transitions from authoritarianism to democracy This book not only offers explanations for why certain countries were more susceptible to the spread of the uprisings in the Middle East and North Africa but also contrasts the organic and grassroots vehicles for democratization characteristic of the most recent Arab uprisings with the Western model of externally imposed regime change to illustrate the conditions necessary for a successful democratic transition Touching on perennial issues in politics for example democracy authoritarian rule and social protest this book is vital for researchers of politics and international relations

*Kerala: the Development Experience* Govinda Parayil, 2000-08-12 At a time when disillusion with neo liberal development nostrums is mounting alternative models of development are being revisited Kerala's 30 million people may not have experienced rapid growth in GDP per capita but they have for the past several decades achieved a remarkable social record in terms of adult literacy infant mortality life expectancy stabilising population growth and narrowing gender and spatial gaps What are the implications of the disjuncture between human development and economic growth What are the political social and cultural factors responsible for Kerala's success Does its human development record necessarily relate to sustainability in environmental terms How inclusive has the Kerala model been particularly for the fishing community and other socially marginalised groups Can the new people's campaign for decentralised development from below make Kerala's development experience more enduring What realistic view can be taken of its replicability elsewhere in India or further afield in the South These are among the most important questions explored in this timely reassessment

**Democracy at Work in an Indian Industrial Cooperative** Richard W. Franke, Pyralal Raghavan, T. M. Thomas Isaac, 2018-05-31 The authors tell the story of a democratic workers cooperative that makes hand rolled cigarettes known as beedis in the unorganized sector of a fiercely competitive capitalist economy in India For decades beedi workers have been among the most exploited and impoverished of India's work force In 1969 in the southwestern Indian state of Kerala several thousand workers banded together to form a worker owned beedi cooperative The authors argue that their skill and determination combined with Kerala's generally leftist political culture allowed them to beat the odds The cooperative surprised the private sector beedi barons by creating an enterprise that has lasted and prospered offering the best wages and benefits in the business while making a profit and contributing to the local economy

The authors analyze the major features of the cooperative assessing its overall structure worker elected management shop floor democracy and progress in providing a better life for its worker owners Tensions are also discussed including the complaints of women workers and the need for diversification from tobacco **Paradise Poisoned** John Martin

Richardson,2005 On the political conditions in Sri Lanka after civil war in 1983 and its effect on development a study

*Iraq* Heather Bleaney,Roper,Peter Sluglett,2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today Development Under Stress Saman Kelegama,2006-11-14 Sri Lanka is credited with being the pioneer of economic liberalisation in South Asia Why then is economic progress painfully slow with the outcome being far below the country s potential This book examines the process of development and the implementation of reforms in Sri Lanka after the economic liberalisation of 1977 The author shows that while part of the story lies in the ongoing conflict in the North East which has lasted over 20 years there are a number of other factors which have impeded economic progress thereby designating it development under stress The book describes the key features of the Sri Lankan socio political and economic system that prevented the country from achieving higher levels of economic growth It explains why the country could not match the economic achievements of South Korea and Malaysia countries that had similar per capita income levels to that of Sri Lanka in the 1950s The author focuses on five core themes Economic development since Independence The debate on economic liberalisation Macroeconomic management Sectoral policy Employment and poverty
