The Letourneau Legend:

The LeTourneau Legend Philip G. Gowenlock, 1996 **Caterpillar Chronicle : History of the Greatest Earthmovers**
Eric C. Orlemann, The Legend of Rowan Jeffrey L. Rodengen, 1998 Rowan Companies grew from the dreams of two Texas brothers Charles and Archibald Rowan and their 16 000 oil rig The two men started out as roughnecks and founded the company in 1923 The men formed a lifelong partnership based on hard work loyalty to their workers and cost conscious business sense Rowan Companies today builds and operates huge offshore drilling rigs and owns a fleet of helicopters and airplanes that provide services as varied as medical flights and Alaskan sightseeing tours Relive the struggles and stories in the pages of *The Legend of Rowan* Individually boxed *From Rail to Road and Back Again?* Colin Divall, 2016-03-03 The coming of the railways signalled the transformation of European society allowing the quick and cheap mass transportation of people and goods on a previously unimaginable scale By the early decades of the twentieth century however the domination of rail transport was threatened by increased motorised road transport which would quickly surpass and eclipse the trains only itself to be challenged in the twenty first century by a renewal of interest in railways Yet as the studies in this volume make clear to view the relationship between road and rail as a simple competition between two rival forms of transportation is a mistake Rail transport did not vanish in the twentieth century any more than road transport vanished in the nineteenth with the appearance of the railways Instead a mutual interdependence has always existed balancing the strengths and weaknesses of each system It is that interdependence that forms the major theme of this collection Divided into two main sections the first part of the book offers a series of chapters examining how railway companies reacted to increasing competition from road transport and exploring the degree to which railways depended on road transportation at different times and places Part two focuses on road mobility interpreting it as the innovative success story of the twentieth century Taken together these essays provide a fascinating reappraisal of the complex and shifting nature of European transportation over the last one hundred years **Keeping Ontario Moving** Robert Bradford, 2015-05-09 The development of roads and highways was critical to early economic and social development of Ontario This book traces the history of roads and the road building industry in Ontario from the eighteenth century to today and documents how roads and bridges have developed introducing the contractors and companies that have built them *Yellow Steel* William R. Haycraft, 2002 In *Yellow Steel* the first overarching history of the earthmoving equipment industry William Haycraft examines the tremendous increase in the scope of mining and construction projects from the Suez Canal through the interstate highway system made possible by innovations in earthmoving machinery Led by Cyrus McCormick's invention in 1831 of a practical mechanical reaper many of the builders of today's massive earthmoving machines began as makers of reapers plows threshers and combines Haycraft traces the efforts of manufacturers such as Caterpillar Allis Chalmers International Harvester J I Case Deere and Massey Ferguson to diversify from farm equipment to specialized earthmoving equipment and the important contributions of

LeTourneau Euclid and others in meeting the needs of the construction and mining industries He shows how postwar economic and political events especially the creation of the interstate highway system spurred the development of more powerful and more agile machines He also relates the precipitous fall of several major American earthmoving machine companies and the rise of Japanese competitors in the early 1980s Extensively illustrated and packed with detailed information on both manufacturers and machines Yellow Steel knits together the diverse stories of the many companies that created the earthmoving equipment industry how they began expanded retooled merged succeeded and sometimes failed Their history a step by step linking of need and invention provides the foundation for virtually all modern transportation construction commerce and industry *The Big Book of Ghost Stories* Otto Penzler,2012-12-04 Over a thousand pages of haunted and haunting ghost tales the most complete collection of uncanny spooky creepy tales ever published Edited and with an introduction by Otto Penzler Including stories by Joyce Carol Oates Rudyard Kipling Isaac Asimov James MacCreigh and many more Featuring eerie vintage ghost illustrations The ghost story is perhaps the oldest of all the supernatural literary genres and has captured the imagination of almost every writer to put pen to the page Here Edgar Award winning editor Otto Penzler has followed his keen sense of the supernatural to collect the most chilling and uncanny tales in the canon These spectral stories span more than a hundred years from modern day horrors by Joyce Carol Oates Chet Williamson and Andrew Klavan to pulp yarns from August Derleth Grege La Spina and M L Humphreys to the atmospheric Victorian tales of Rudyard Kipling Edith Wharton and H P Lovecraft not to mention modern works by the likes of Donald E Westlake and Isaac Asimov that are already classics Some of these stories have haunted the canon for a century while others are making their first ghoulish appearance in book form Whether you prefer possessive poltergeists awful apparitions or friendly phantoms these stories are guaranteed to thrill you tingle the spine or tickle the funny bone and keep you turning the pages with fearful delight Including such classics as The Monkey s Paw and The Open Window and eerie vintage illustrations and also featuring haunted mansions midnight frights lovers from beyond the grave rapping tapping wailing shades and ghosts ghouls and specters galore Also Featuring haunted mansions midnight frights lovers from beyond the grave rapping tapping wailing shades and ghosts ghouls and specters galore **A History of Matrimonial Institutions Chiefly in England and the United States** George Elliott Howard,1904 **Building Giant Earthmovers** Eric C. Orlemann, An inside look at the factories that forge the giant machines of today s mining logging and construction industries **Ultra Haulers** Mike Woof,2006 **A Legend Hunter's Search for Ogopogo the Elusive Creature of Okanagan Lake** William Steciuk,2025-01-21 Kelowna resident Bill Steciuk didn t believe in Ogopogo But that was about to change In October of 1978 while driving across the bridge from the west side of Lake Okanagan he saw something in the water that made him stop his car All the traffic behind him also stopped and he was soon joined at the rail by a small crowd of onlookers all of whom saw what Bill had seen a serpentine head with three black humps behind it They watched the creature for nearly a minute after

which time it disappeared beneath the surface leaving a substantial wake Bill knew without a shadow of a doubt that he had just seen the legendary lake creature Ogopogo Stories of Ogopogo in British Columbia's Okanagan Valley date back several centuries originating with the Syilx Peoples stories of N'ha-a-itk the sacred spirit of the lake and sightings are frequent but the truth about Ogopogo remains elusive After that day in 1978 Bill dedicated himself to Ogopogo research and exploratory expeditions in search of answers What is Ogopogo An ancient creature from the age of dinosaurs What are eyewitnesses seeing and which sightings are genuine With lucidity and suspense *A Legend Hunter's Search for Ogopogo the Elusive Creature of Okanagan Lake* documents the startling findings of a twenty five year inquiry into one of the most fascinating cryptozoological mysteries in the world

Obsidian M. Steven Shackley, 2022-07-12 Obsidian was long valued by ancient peoples as a raw material for producing stone tools and archaeologists have increasingly come to view obsidian studies as a crucial aid in understanding the past Steven Shackley now shows how the geochemical and contextual analyses of archaeological obsidian can be applied to the interpretation of social and economic organization in the ancient Southwest This book the capstone of decades of investigation integrates a wealth of obsidian research in one volume It covers advances in analytical chemistry and field petrology that have enhanced our understanding of obsidian source heterogeneity presents the most recent data on and interpretations of archaeological obsidian sources in the Southwest and explores the ethnohistorical and contemporary background for obsidian use in indigenous societies Shackley provides a thorough examination of the geological origin of obsidian in the region and the methods used to collect raw material and determine its chemical composition and descriptions of obsidian sources throughout the Southwest He then describes the occurrence of obsidian artifacts and shows how their geochemical fingerprints allow archaeologists to make conclusions regarding the procurement of obsidian The book presents three groundbreaking applications of obsidian source studies It first discusses an application to early Preceramic groups showing how obsidian sources can reflect the range they inhabited over time as well as their social relationships during the Archaic period It then offers an examination of the Late Classic Salado in Arizona's Tonto Basin where obsidian data along with ceramic and architectural evidence suggest that Mogollon migrants lived in economic and social harmony with the Hohokam all the while maintaining relationships with their homeland Finally it provides an intensive look at social identity and gender differences in the Preclassic Hohokam of central Arizona where obsidian source provenance and projectile point styles suggest that male Hohokam sought to create a stylistically defined identity in at least three areas of the Hohokam core area These male sodalities were organized quite differently from female ceramic production groups Today obsidian research in the American Southwest enjoys an equal standing with ceramic faunal and floral studies as a method of revealing social process and change in prehistory Shackley's book discusses the ways in which archaeologists should approach obsidian research no matter what the region offering a thorough survey of archaeological obsidian studies that will have methodological and theoretical applications worldwide The volume includes an
