The Lyric Potential

Tom Furniss, Michael Bath

The Lyric Potential:

Lyric Scott Brewster, 2009-06-02 The term lyric has evolved been revised redefined and contested over the centuries In this fascinating introduction Scott Brewster traces the history of the term from its classical origins through the early modern Romantic and Victorian periods and up to the twenty first century demonstrates the influence of lyric on poetic practice literature music and other popular cultural forms uses three aspects the lyric self love and desire and the relationship between lyric poetry and performance as focal points for further discussion not only charts the history of lyric theory and practice but re examines assumptions about the lyric form in the context of recent theoretical accounts of poetic discourse Offering clarity and structure to this often intense and emotive field Lyric offers essential insights for students of literature performance music and cultural studies

Catullus in Twentieth-Century Music Stephanie Oade, 2024-08-19 One of the most famous voices to have survived from the Roman world Catullus s poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinvigorating discussions around the nature of Catullus s lyricism Catullus in Twentieth Century Music takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus s poetry as their stimulus allows us to uncover new ideas about Catullus s poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions

Word of Mouth Chad Bennett, 2018-05-15 Word of Mouth brings together the insights of queer and lyric theory to tell the story of how gossip modeled forms of sociality and voice that poets experimented with over the course of the twentieth century Through a set of case studies of culturally diverse American poets Gertrude Stein Langston Hughes Frank O Hara James Merrill and others who absorbed and contended with the loose talk that swirled about them and their work the book argues that gossip became a vehicle for the performance of alternative sexualities and concomitant meditations on alternative modes of poetic practice At the heart of this argument is a queer revaluation of modern lyric poetry Attending to gossip s key role in modern and contemporary poetry enables a recognition of the unpredictable ways that conventional understandings of the modern lyric poem as for example an utterance smudging the lines between private and public knowing and unknowing intimacy and strangeness have been shaped by and afforded a uniquely suitable space for the expression of queer sensibilities More than simply mapping a curious poetic mode then Word of Mouth contributes a crucial and largely neglected queer perspective to current lyric

studies and its renewed scholarly debate over the practices and forms of lyric poetry The book presents new and instructive queer contexts for understanding the influential formal achievements of Stein Hughes O Hara and Merrill and uncovers the unexpected ways that the history of the modern lyric intertwines with histories of sexuality **Cognitive Ecopoetics**

Sharon Lattig,2020-11-12 New insights from cognitive theory and literary ecocriticism have the power to transform our understanding of one of the most important literary genres the lyric poem In Cognitive Ecopoetics Sharon Lattig brings these two schools of criticism together for the first time to consider the ways in which lyric forms re enact cognitive processes of the mind and brain Along the way the book reads anew the long history of the lyric from Andrew Marvell through canonical poets such as Samuel Taylor Coleridge Ralph Waldo Emerson and Emily Dickinson to contemporary writers such as Susan Howe and Charles Olson **Twin Cities Picture Show** Dave Kenney,2010-06 From the stories of our classic theaters to

tales of industry and intrigue featuring the savvy and tough entrepreneurs of movie entertainment this first ever history of cinema in the Twin Cities reveals the influence of Hollywood on the lives and imaginations of Minnesotans and that of Minnesotans on the film industry today Filled with photos of the dazzling marquees and great theaters of yesterday and today historian Dave Kenney s highly readable account offers rich histories of some of the grandest theaters ever constructed Featured are movie palaces like the Minnesota in downtown Minneapolis with its well synchronized phalanx of ushers and cavernous yet elegant interior and the Cooper in St Louis Park with its films projected larger than life in 70 mm Cinerama Yet behind many of these cinemas electrifying facades are the impresarios and business leaders who took the risks and made the fortunes like nationally known theater mogul and Hollywood producer Ted Mann who transformed Minnesota movie going in the fifties and sixties and porn king Ferris Alexander whose unconventional business activities resulted in the preservation of many now treasured historical monuments Then there are the people of the Twin Cities who have seen and tested some of the biggest movies of all time *Musical Wordsworth* Yimon Lo,2023-02-15 In his Essay of 1815 Wordsworth

asserts that a pure and refined scheme of harmony must prevail in all higher poetry This idea of a structured and complex form of harmony was similarly noted earlier in The Prelude 1805 where Wordsworth famously claimed that the human mind is framed even like the breath And harmony of music Musical Wordsworth presents an original understanding of Wordsworthian harmony by examining an organised but dynamic sense of musicality that shapes his poetic theory and practice This book is the first study to draw on music psychology and aesthetics to interpret the function and mechanism of Wordsworth s aural structure and movement Engaging with scholarship from the fields of literature and music it defines Wordsworth s poetry and the imagination through musical conceptions and establishes various modes and forms of poetic listening as experiences of musical performance and appreciation Each chapter explores a pair of musical abstractions Lyricism and Musicality Breath and Harmony Repetition and Resonance Expectation and Surprise Rhythm and Dynamics Rest and Silence Musical Wordsworth will be of interest to students and researchers of Romantic poetry long nineteenth

century literature and music **Reading Poetry** Tom Furniss, Michael Bath, 2022-04-06 Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers ranging from ancient Greece and China to the twenty-first century, the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic criticism and includes many new examples and exercises, new chapters on world poetry and eco poetry, and a greater emphasis throughout on American poetry, including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry, leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry, and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter, together with an extensive glossary of poetic and critical terms and the number and range of poems analysed and discussed (122 of which are quoted in full), make Reading Poetry suitable for individual study or as a comprehensive self-contained textbook for university and college classes.

Complicating the History of Western Translation Siobhán McElduff, Enrica Sciarrino, 2014-04-08 As long as there has been a need for language, there has been a need for translation, yet there is remarkably little scholarship available on pre-modern translation and translators. This exciting and innovative volume opens a window onto the complex world of translation in the multilingual and multicultural milieu of the ancient Mediterranean. From the biographies of emperors to Hittite scribes in the second millennium BCE to a Greek-speaking Syrian slyly resisting translation under the Roman empire, the papers in this volume offer fresh and innovative contributions by new and established scholars from a variety of disciplines, including Classics, Near Eastern Studies, Biblical Studies, and Egyptology. They show that translation has always been a phenomenon to be reckoned with. Accessible and of interest to scholars of translation studies and of the ancient Mediterranean, the contributions in Complicating the History of Western Translation argue that the ancient Mediterranean was a translational society even when paradoxically cultures resisted or avoided translation. Indeed, this volume envisions an expansion of the understanding of what translation is, how it works, and how it should be seen as a major cultural force. Chronologically, the papers cover a period that ranges from around the third millennium BCE to the late second century CE; geographically, they extend from Egypt to Rome to Britain and beyond. Each paper prompts us to reflect about the problematic nature of translation in the ancient world and challenges monolithic accounts of translation in the West.

Romanticism, Lyricism, and History Sarah M. Zimmerman, 1999-05-06 Arguing against a persistent view of Romantic lyricism as an inherently introspective mode, this book examines how Charlotte Smith, William Wordsworth, and John Clare recognized and employed the mode's immense capacity for engaging reading audiences in reflections both personal and social. Zimmerman focuses new attention on the Romantic lyric's audiences, not the silent passive auditor of canonical paradigms but historical readers and critics who can

tell us more than we have asked about the mode's rhetorical possibilities. She situates poems within the specific circumstances of their production and consumption including the aftermath in England of the French Revolution, rural poverty, the processes of parliamentary enclosure, the biographical contours of poets' careers and the myriad exchanges among poets, patrons, publishers, critics and readers in the literary marketplace. **Forms of a World** Walt

Hunter, 2019-01-08 What happens when we think of poetry as a global literary form while also thinking the global in poetic terms? *Forms of a World* shows how the innovations of contemporary poetics have been forged through the transformations of globalization across five decades. Sensing the changes wrought by neoliberalism before they are made fully present, poets from around the world have creatively intervened in global processes by remaking poetry's formal repertoire. In experimental reinventions of the ballad, the prospect poem and the ode, Hunter excavates a new globalized interpretation of the ethical and political relevance of forms. *Forms of a World* contends that poetry's role is not only to make visible thematically the violence of global dispossessions but to renew performatively the missing conditions for intervening within these processes. Poetic acts the rhetoric of possessing, belonging, exhorting and prospecting, address contemporary conditions that render social life ever more precarious. Examining an eclectic group of Anglophone poets from Seamus Heaney and Claudia Rankine to Natasha Trethewey and Kofi Awoonor, Hunter elaborates the range of ways that contemporary poets exhort us to imagine forms of social life and enable political intervention unique to but beyond the horizon of the contemporary global situation.
