Ideas Across Borders Gaby Mahlberg, Thomas Munck, 2024-02-20 Building on the historical study of cultural translation this volume brings together a range of case studies and fresh approaches to early modern intellectual history by scholars from across Europe reflecting on ideological and political change from c 1600 to 1840 Translations played a crucial role in the transmission of political ideas across linguistic and cultural borders in early modern Europe Yet intellectual historians have been slow to adopt the study of translations as an analytical tool for the understanding of such cultural transfers Recently a number of different approaches to transnational intellectual history have emerged allowing historians of early modern Europe to draw on work not just in translation studies literary studies conceptual history the history of political thought and the history of scholarship but also in the history of print and its significance for cultural transfer Thorough qualitative and quantitative analysis of texts in translation can place them more accurately in time and space This book provides a better understanding of the extent to which ideas crossed linguistic and cultural divides and how they were re shaped in the process Written in an accessible style this volume is aimed at scholars in cognate disciplines as well as at postgraduate students

Tender Geographies Joan DeJean, 1993-12-16 Tender Geographies **Female Intimacies in Seventeenth-Century French Literature** Marianne Legault, 2016-04-15 Examining literary discourses on female friendship and intimacy in seventeenth century France this study takes as its premise the view that unlike men women have been denied for centuries the possibility of same sex friendship The author explores the effect of this homosocial and

homoprivileged heritage on the deployment and constructions of female friendship and homoerotic relationships as thematic narratives in works by male and female writers in seventeenth century France The book consists of three parts the first surveys the history of male thinkers denial of female friendship concluding with a synopsis of the cultural representations of female same sex practices The second analyzes female intimacy and homoerotism as imagined appropriated and finally repudiated by Honor d Urf s pastoral novel *L Astr e* and Isaac de Benserade s seemingly lesbian friendly comedy *Iphis et Iante* The third turns to unprecedented depictions of female intimate and homoerotic bonds in Madeleine de Scud ry s novel *Mathilde* and Charlotte Rose de Caumont de La Force s fairy tale *Plus Belle que F e* This study reveals a female literary genealogy of intimacies between women in seventeenth century France and adds to the research in lesbian and queer studies fields in which pre eighteenth century French literary texts are rare
