Slovenčina Pre Cudzincov Slovak For Foreigners:

Critical Issues in Early Childhood Teacher Education Ithel Jones, Miranda Lin, 2020-06-01 In recent years there have been significant changes in education across the globe largely as a result of changing demographics technological developments and increased globalization Relatedly the changing needs of societies and families along with new research findings provide new directions in early childhood education Consequently early childhood teachers today are faced with higher and more complex expectations to help ensure that their students achieve their full potential Such expectations suggest that early childhood teachers should be professionals who are able to draw on a robust knowledge base in making educational decisions It follows that teacher education programs should develop and implement innovative programs that can potentially enhance the quality of our future teachers An awareness of pressing issues in the field of early childhood teacher education led the editors to develop this volume The chapters in these two volumes bring together scholars from across the US and the globe who are interested in improving the quality of early childhood teacher education The chapters present their experiences perspectives and lessons learned as they addressed some of the challenging issues concerning the education and preparation of future early childhood teachers The various issues and perspectives from different states in the US or countries across the globe provide insights into current issues and dilemmas facing the field The contributions of these scholars should inform the discourse on early childhood teacher education and help those who work with preservice teachers improve the quality of their work

Teaching English in Eastern and Central Europe Robert Lynes, 1996 A country by country how to guide to finding a job making living arrangements and preparing to teach English to children adults and or business people The countries covered include Poland the Czech Republic Slovakia Hungary Romania and Bulgaria

The Slovak Language in the Digital Age Georg Rehm, Hans Uszkoreit, 2012-06-09 This white paper is part of a series that promotes knowledge about language technology and its potential It addresses educators journalists politicians language communities and others The availability and use of language technology in Europe varies between languages Consequently the actions that are required to further support research and development of language technologies also differ for each language The required actions depend on many factors such as the complexity of a given language and the size of its community META NET a Network of Excellence funded by the European Commission has conducted an analysis of current language resources and technologies This analysis focused on the 23 official European languages as well as other important national and regional languages in Europe The results of this analysis suggest that there are many significant research gaps for each language A more detailed expert analysis and assessment of the current situation will help maximise the impact of additional research and minimize any risks META NET consists of 54 research centres from 33 countries that are working with stakeholders from commercial businesses government agencies industry research organisations software companies technology providers and European

universities Together they are creating a common technology vision while developing a strategic research agenda that shows how language technology applications can address any research gaps by 2020 **National Convention of the American Association for the Advancement of Slavic Studies** American Association for the Advancement of Slavic Studies.
