Ortner, 2020-09-01 An eminent anthropologist examines the foundations of the first celibate Buddhist monasteries among the Sherpas of Nepal in the early twentieth century a religious development that was a major departure from folk or popular Buddhism Sherry Ortner is the first to integrate social scientific and historical modes of analysis in a study of the Sherpa monasteries and one of the very few to attempt such an account for Buddhist monasteries

anywhere Combining ethnographic and oral historical methods she scrutinizes the interplay of political and cultural factors in the events culminating in the foundings Her work constitutes a major advance both in our knowledge of Sherpa Buddhism and in the integration of anthropological and historical modes of analysis At the theoretical level the book contributes to an emerging theory of practice an explanation of the relationship between human intentions and actions on the one hand and the structures of society and culture that emerge from and feed back upon those intentions and actions on the other It will appeal not only to the increasing number of anthropologists working on similar problems but also to historians anxious to discover what anthropology has to offer to historical analysis In addition it will be essential reading for those interested in Nepal Tibet the Sherpa or Buddhism in general Small Business Tax Needs United States. Congress.
