**Improving Poor People** Michael B. Katz, 1997-04-02 There are places where history feels irrelevant and America's inner cities are among them acknowledges Michael Katz in expressing the tensions between activism and scholarship But this major historian of urban poverty realizes that the pain in these cities has its origins in the American past To understand contemporary poverty he looks particularly at an old attitude because many nineteenth century reformers traced extreme poverty to drink laziness and other forms of bad behavior they tried to use public policy and philanthropy to improve the character of poor people rather than to attack the structural causes of their misery Showing how this misdiagnosis has afflicted today's welfare and educational systems Katz draws on his own experiences to introduce each of four topics the welfare state the underclass debate urban school reform and the strategies of survival used by the urban poor Uniquely informed by his personal involvement each chapter also illustrates the interpretive power of history by focusing on a strand of social policy in the nineteenth and twentieth centuries social welfare from the poorhouse era through the New Deal ideas about urban poverty from the undeserving poor to the underclass and the emergence of public education through the radical school reform movement now at work in Chicago Why have American governments proved unable to redesign a welfare system that will satisfy anyone Why has public policy proved unable to eradicate poverty and prevent the deterioration of major cities What strategies have helped poor people survive the poverty endemic to urban history How did urban schools become unresponsive bureaucracies that fail to educate most of their students Are there fresh constructive ways to think about welfare poverty and public education Throughout the book Katz shows how interpretations of the past grounded in analytic history can free us of comforting myths and help us to reframe discussions of these great public issues

**Prosecution for Treason** Mary Maxwell, 2011-04-29 The Constitution defines treason as levying war against the United States by persons who hold allegiance to the US in other words all Americans This author argues that violence committed against citizens by anyone who wages weather warfare she assumes Hurricane Katrina is an example or who sets epidemics in motion by laboratory created diseases such as AIDS should be prosecuted for the crime of treason As for the violent MK Ultra techniques to which thousands of children were subjected and which Congress revealed in 1975 how is it that all the perpetrators escaped punishment They would be properly designated not as Dr Strangelove's but as traitors The law is clear on this
