Apply these proven principles of sport psychology to your game and gain a winning advantage both on and off the courts. *Smart Tennis* is a must for players at all levels, from beginners to Wimbledon champions. An outstanding book for understanding and improving your mental game. Vic Braden, tennis telecaster and researcher. This is an excellent book of psychological skills that can be immediately applied on the tennis court. E. Paul Roetert, Ph.D., Administration of Sports Science, United States Tennis Association. *Tennis Mindset* Bill Allen, Ph.D., 2018-11-15 *Tennis Mindset* explains three characteristics of skillful performance: tranquility, mental attentiveness, and effortless action, and teaches three transferable techniques to cultivate them: nasal breathing, meditation on the ball, and mind fasting. **Sensei Tennis** Mark A. Beede, John Nelson, 2018-07-31 Martial arts carries as integral components time-honored principles of personal mastery and athletic performance. Tennis, the sport for a lifetime, has much to learn from accepting and adhering to basic martial arts fundamentals, not only physically and technically but also personally, emotionally, and psychologically. Examining martial arts sheds light on common denominators of athletic performance which transfer and apply to every sport. An athlete cannot fulfill his potential without focusing on the full panoply of fundamentals: physically, tangible, and the psychologically and emotionally intangible. Mastering tennis requires completely committing to each and every fundamental, including those that improve attitude and learning skills. Mastering each fundamental represents a journey into improvement and excellence, not only for tennis and martial arts as specific disciplines but also for overall personal fulfillment and mastery in life. Embrace a learning mind set and look for the opportunity to learn from everything. Learn purposefully and with discipline. Stay in the present and focus on what is happening now. Dispense with your ego and go with the flow, fearing nothing. Stay calm and relaxed as the moment is the only thing. Feel yin and yang flow and force. Breathe fully, relaxing in the present without the self, without fear, and with the mind and body as one. Be ready. Look to the greatest threat. Move from the ground, staying balanced. Set up and use the earth's power to stroke from the ground, driving and rotating through the legs, hips, core, shoulders, arm, and racket. Mastering these fundamentals unlocks the power of action, unleashing the fulfilling power of the self. Paradoxically, dispensing with the self's ego leads to self-actualization and fulfillment. Learn and master these fundamentals, and you'll not only become a much better tennis player, you'll become a better learner, performer, and athlete. Much more importantly, you'll become a better person. **The Tennis Brain** Federico Di Carlo, 2016-12-17 Most times tennis players and athletes in general finish the competition unhappy about their
