## Smart Globalization:

**Smart Globalization** Andrew Smith, Dimitry Anastakis, 2014-01-01 Today's globalization debates pit neoliberals who favour even deeper integration into the global economy against neo mercantilists who call for a relatively selective approach to globalization and the return to more interventionist industrial policies Both sides claim to have the facts on their side Inspired by the work of economists Ha Joon Chang and Dani Rodrik editors Andrew Smith and Dimitry Anastakis bring together essays from both historians and economists in this collection to test claims that wealth comes from either protectionism or free trade With empirical research that spans more than a century of Canadian history Smart Globalization demonstrates that Canada's success stemmed neither from complete openness to globalization or policies of isolation and self sufficiency

Smart Globalization Anil K. Gupta, 2003-02-28 Smart Globalization is a compendium of leading edge thinking on global strategy first published in the acclaimed MIT Sloan Management Review The central premise underlying this book is that globalization can be a double edged sword The global or globalizing firm has the potential to reap several types of benefits such as the vast potential of a much larger market arena opportunities to capture scale and location based cost efficiencies and exposure to a multiplicity of new product and process ideas However globalization also exposes the firm to numerous strategic and organizational challenges emanating from a dramatic increase in diversity complexity and uncertainty external as well as internal to the firm How managers address these challenges determines whether globalization yields competitive advantage or disadvantage and makes the company stronger or weaker Smart globalization is the ability to capture the benefits and minimize the costs and risks Smart Globalization's expert contributors<sup>3</sup> 4 leaders in the design of winning global strategies and in the creation of effective global networks<sup>3</sup> 4 include David J Arnold Christopher A Bartlett Julian M Birke inshaw J Stewart Black Joseph N Fry Sumantra Ghoshal Vijay Govindarajan Hal B Gregersen Anil K Gupta Stuart L Hart W Chan Kim Bruce Kogut David L Levy Ren e A Mauborgne Allen J Morrison Mark B Milstein Das Narayandas John A Quelch Gordon Swartz Stephen E Weiss and George S Yip

**The Rise Of The New Economic Powers And The Changing Global Landscape** Haico Ebberts, 2022-12-19 This book explores the catching up process of a group of large emerging markets the New Economic Powers This process is extremely robust and should be

considered as the defining trend of our age resulting in a pivotal change in world economics and politics The outcome is that the West cannot dominate the world as it did in the previous 200 years Today s world is pluralistic and the larger emerging markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers     Sustainable Development and Smart Cities Mr. Rohit Manglik,2023-08-23 In this book we will study about eco friendly urban systems smart technologies and planning for future ready cities     **Globalization and Culture** Jan Nederveen Pieterse,2019-05-17 Now updated with new chapters on culture and on populism this seminal text disputes the view that we are experiencing a clash of civilizations as well as the idea that globalization leads to cultural homogenization Instead Jan Nederveen Pieterse argues that we are witnessing the formation of a global m lange culture through processes of cultural mixing or hybridization From this perspective on globalization conflict may be mitigated and identity preserved albeit transformed In a new chapter on China the author focuses on the key issue of agency and power in hybridization Throughout the book offers a comprehensive treatment of hybridization arguments and in discussing globalization and culture problematizes the meaning of culture This historically deep and geographically wide approach to globalization is essential reading as we face the increasing spread of conflicts bred by cultural misunderstanding     **The Crisis of Globalization** Patrick Diamond,2018-11-29 In recent years the effects of economic openness and technological change have fuelled dissatisfaction with established political systems and led to new forms of political populism that exploit the economic and political resentment created by globalization This shift in politics was evident in the decision by UK voters to leave the European Union in June 2016 the November 2016 election of Donald Trump to the presidency of the United States as well as the rise of populist movements on left and right throughout much of Europe To many voters the economy appears to be broken Conventional politics is failing Parties of the left and centre left have struggled to forge a convincing response to this new phase of globalization in the aftermath of the 2008 crisis This book examines the challenges that the new era of globalization poses for progressive parties and movements across the world It brings together leading thinkers and experts including Andrew Gamble Jeffry Frieden and Vivien Schmidt to debate the structural causes and political consequences of this new wave of globalization     **Globalization in Crisis** Barry K.

Gills,2013-09-13 This book analyses the present global financial and economic crisis the most severe in nearly a century and a wider set of multiple and converging crises with aspects and repercussions that go well beyond the current economic climate Written by some of the world s leading international scholars in the field of Globalization studies and related disciplines this important collection addresses numerous key aspects of the relationship between Globalization and global crises past present and future It sheds new light and understanding on the concept and theory of Globalization and of crisis The authors explore such issues as global finance and financial regulation neoliberal ideology and policy the crisis of globalization the decline of Western hegemony world systemic crisis the moral crisis of Western capitalism environmental and climate change crises world order hyper violence and the international system a crisis of the global modern and a global civilisational and hostpric crisis the rise of the global South the historical dialectics of capital and social responses to crisis the future of capitalism and the prospects for transformative alternatives This book was published as a special issue of Globalizations

*The Globalization Paradox* Dani Rodrik, 2012-05-17 For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental trilemma: that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments and you have protectionism. Give markets too much freedom and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.
