Smart Parenting, Smarter Kids David Walsh, 2012-03-20 The author of *Why Do They Act That Way* has written a complete guide to parenting from birth through the teen years with recommendations that will help maximize any child's potential. *Smart Parenting Smarter Kids* equips parents with usable information across a range of topics like exercise, nutrition, play and more. *Smart Parenting for Smart Kids* Eileen Kennedy-Moore, Mark S. Lowenthal, 2011-01-20 WINNER Mom's Choice Gold Award for parenting books. Mom's Choice Awards The best in family friendly media. My kid is smart but it takes more than school smarts to create a fulfilling life. In fact, many bright children face special challenges. Some are driven by perfectionism. Some are afraid of effort because they're used to instant success. Some routinely butt heads with authority figures. Some struggle to get along with their peers. Some are outwardly successful but just don't feel good about themselves. This practical and compassionate book explains the reasons behind these struggles and offers parents doable strategies to help children cope with feelings, embrace learning and build satisfying relationships. Drawing from research as well as the author's clinical experience, it focuses on the essential skills children need to make the most of their abilities and become capable, confident and caring people.

Smart Parenting for Safer Kids Freda Briggs, 2018-10-01 A practical guide for parents and parent educators. This book provides sound information for both parents and professionals about the developing needs and experiences of children. Dr. Sue Vardon AO, Former CEO Child Protection and Family Services South Australia. The memory of sexual abuse in childhood never leaves its victims. Likewise, the memory of bullying never goes away. Advances in technology are making our children more vulnerable to both. Professor Briggs, an expert in child protection, draws on a lifetime of research and practical experience to assist with today's parenting issues. In *Smart Parenting for Safer Kids*, parents will learn how to: Recognise the dangers to children in modern Western society; Build stronger kids and help them make smart choices; Choose safe, high quality childcare and child minders; Safeguard children in potentially dangerous situations including bullying, cyberspace and the internet; Protect against child sexual abuse; Parent through adolescence; Choose safe student exchanges. Professor Briggs, who received an Order of Australia for her work in child protection, tells parents exactly what they should be worried about and how to protect their children from the dangers in the modern world.

Tech-Smart Parenting Catherine Knibbs, 2025-07-31 The essential, new science-backed parenting guide to building healthy boundaries around technology and social media from the leading cybertrauma expert and child psychotherapist, Catherine Knibbs. A must-read for the tech-anxious generation. Pete Etchells, psychologist and author of *Unlocked: The Real Science of Screen Time*. An essential expert and overdue guide for any parent worried about how tech is affecting their children but wanting to rely on science instead of paranoia. Dean Burnett, neuroscientist and author of *Should We Ban Screens?* We are asking the wrong question: this is how we really keep our kids safe online. How much screen time is too much? Could my child become addicted to their smartphone? Why does every rule I set start a battle? Children today are growing up in a

world more connected than ever before exposing them to dangers their parents didn't even imagine and raising questions they've never considered. But in our rush to protect them we can do more harm than good. Outright bans and rules deemed unfair can push your child away when what they need most of all is you. Child psychotherapist and cybertrauma expert Catherine Knibbs has helped hundreds of families work together to build healthy boundaries around technology. In this science-backed guide Knibbs sets out what the evidence really says about the risks and where your fears may be misguided to empower you with the answers to make the right decisions for your family. You'll discover how screens affect every stage of childhood and where the dangers actually lie. The importance of keeping your child close and onside to protect them with scripts to help you communicate positively and set reasonable boundaries. Realistic advice to keep your child safe and develop a balanced relationship with technology within and out of the home. Tips on protecting neurodivergent children and understanding how tech can help them flourish. Grounded in evidence and full of relatable stories and practical tools.
