Deutsch-englisches sachwörterbuch Wilhelm Ferdinand Sattler, 1903 Reading Faces Edward Higgs, 2025-10-20
Reading Faces is the first book to discuss the historical contexts and theoretical underpinnings of the artificial intelligence AI systems that identify individuals or purport to ascribe emotions and characteristics to them based on their facial features. It examines the direct impact of past research on the development of AI systems, the way in which the past provides contexts which have predisposed people to accept outputs of AI systems as common sense, how the role of politics and the changing nature of the state have led to the introduction of AI systems and their precursors, how previous technologies led to the acceptance of the introduction of superficially similar AIs, and how the outputs and biases such as purported associations between race and criminality of facial biometrics systems have been determined by the historical nature of the underlying datasets they analyze. Reading Faces approaches these issues within the sweep of Western History, how it has shaped conceptual categories about the application and ethics of AI, and tried to foist those ideas and values on the Global South. This book is essential reading for postgraduates, scholars, as well as non-specialist readers such as booksellers and librarians interested in modern AI technology. *Лексикологія англійської мови – теорія і практика. Federal Communications Commission, 2013 The Great Fashion Designers Brenda Polan, Roger Tredre, 2020-01-09
Over the last 180 years, designers have propelled fashion from an elite craft into a cornerstone of popular culture. This brilliantly written guide to the lives and collections of 55 iconic fashion designers draws on the latest academic research and the best of fashion journalism, including the authors' own interviews with designers. Beginning with 19th-century couturier Charles Frederick Worth and concluding with the star names of the 2010s, Polan and Tredre detail each designer's working methods and career highlights to capture the spirit of their times. This beautifully illustrated revised edition features five new designer profiles: Hedi Slimane, Raf Simons, Phoebe Philo, Alessandro Michele, and Demna Gvasalia. It's also been updated throughout to reflect a fashion world in constant ferment, with designers swapping jobs and fashion houses at unprecedented speed. The industry has expanded into a global phenomenon, and designers have emerged as true celebrities. The Great Fashion Designers explores their passion and flair to show us fashion at its most inspirational. Moving Too Fast Sade Russell, 2011-12-31
17-year-old Alisa Simons thought she had the perfect life until the day came when her parents split up. From that day, her life became a mess. Her mum decides to move Alisa and her sister Alia to America to live. On her 17th birthday, her dad shows up with his new girlfriend Sandra, then announces they're getting married. She becomes enemies with Tori, the most popular girl in school. Out of all this mess, she meets a boy called Jayden. However, when Alisa finds out he stood her up on their first date to be with Tori, she suddenly regrets meeting him. Although her life's falling apart, she knows she can count on her best friends, Crystal and Cassie, to always have her back. Will she go to her dad's wedding? Will she give Jayden a second chance? **Encyclopædia**
