acceleration of much needed economic political institutional and social reforms in some of the CEECs as they strive to meet EU membership requirements The key for the CEECs is to achieve sustained high long term growth in order to meet their ultimate objective of accession The EU has already concluded agreements with the CEECs which went beyond the narrowly conceived ideas of market access to include the alignment of the CEEC economic system with that of the EU s This report sets out the future agenda for the successful integration of the CEECs into an enlarged EU The first priority is for each country to complete its own process of transition to a free market democratic state In short this will mean that many will have to address their fiscal challenges and ensure fiscal sustainability the challenge of global financial integration opening of their capital accounts the strengthening of their administrative capacity the reduction of unemployment and the promotion of social inclusion

Insincere Commitments Heather Smith-Cannoy, 2012-05-03 Paradoxically many governments that persistently violate human rights have also ratified international human rights treaties that empower their citizens to file grievances against them at the United Nations Therefore citizens in rights repressing regimes find themselves with the potentially invaluable opportunity to challenge their government s abuses Why would rights violating governments ratify these treaties and thus afford their citizens this right Can the mechanisms provided in these treaties actually help promote positive changes in human rights *Insincere Commitments* uses both quantitative and qualitative analysis to examine the factors contributing to commitment and compliance among post Soviet states such as Slovakia Hungary Kyrgyzstan and Tajikistan Heather Smith Cannoy argues that governments ratify these treaties insincerely in response to domestic economic pressures Signing the treaties is a way to at least temporarily keep critics of their human rights record at bay while they secure international economic assistance or more favorable trade terms However she finds that through the specific protocols in the treaties that grant individuals the right to petition the UN even the most insincere state commitments to

human rights can give previously powerless individuals and the nongovernmental and intergovernmental organizations that partner with them an important opportunity that they would otherwise not have to challenge patterns of government repression on the global stage This insightful book will be of interest to human rights scholars students and practitioners as well as anyone interested in the UN international relations treaties and governance *Modeling Economic Growth in Contemporary Slovakia* Michael Augustin, Peter Jančovič, Bruno S.
