The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1904 **William Wye Smith** Scott A. McLean,Michael E. Vance,2008-11-10 Many writers of the late nineteenth and early twentieth centuries emphasized the virtues of early rural pioneers and life on the land as a general criticism of what they perceived to be the negative alienating influence of Ontario s rapid urban and industrial expansion Such work often highlighted the difficulties the recent emigrant faced the clearing of forest and the breaking of new ground the isolation and long Canadian winters however they in turn celebrated the progress demonstrated in the pioneer s domination over nature the establishment of thriving communities and the extension of transportation networks William Wye Smith a popular nineteenth century Upper Canadian poet was no exception Smith prepared his Canadian Reminiscences a hand written compilation of anecdotes collected during his lifetime

that relate to his experience as journalist clergyman and son of Scottish settlers to provide his own unique perspective of pioneer life This fully annotated version of Smith s unpublished manuscript highlights Smith s unwitting testimony to the social life of the province his relationship to the construction and maintenance of Scottish and Canadian identity as well as his position in literary history

Contextualizing Entrepreneurship Theory Ted Baker,Friederike Welter,2020-02-13 As the breadth and empirical diversity of entrepreneurship research have increased rapidly during the last decade the quest to find a one size fits all general theory of entrepreneurship has given way to a growing appreciation for the importance of contexts This promises to improve both the practical relevance and the theoretical rigor of research in this field Entrepreneurship means different things to different people at different times and in different places and both its causes and its consequences likewise vary For example for some people entrepreneurship can be a glorious path to emancipation while for others it can represent the yoke tethering them to the burdens of overwork and drudgery For some communities it can drive renaissance and vibrancy while for others it allows only bare survival In this book we assess and attempt to push forward contemporary conceptualizations of contexts that matter for entrepreneurship pointing in particular to opportunities generating new insights by attending to contexts in novel or underexplored ways This book shows that the ongoing contextualization of entrepreneurship research should not simply generate a proliferation of unique theories one for every context but can instead result in better theory construction testing and understanding of boundary conditions thereby leading us to richer and more profound understanding of entrepreneurship across its many forms Contextualizing Entrepreneurship Theory will critically review the current debate and existing literature on contexts and entrepreneurship and use this to synthesize new theoretical and methodological frameworks that point to important directions for future research

Forging Modernity Martin Hutchinson,2023-03-30 The Industrial Revolution provided the greatest increase in living standards the world has ever known while propelling Britain to dominance on the global stage In Forging Modernity Martin Hutchinson looks at how and why Britain gained this prize ahead of its European competitors After comparing their endowments and political structures as far back as 1600 he then traces how Britain through better policies primarily from the political Tory party diverged from other European countries Hutchinson s Harvard MBA allows a unique perspective on the early industrial enterprises many successes resulted from marketing control systems and logistics rather than from production technology

alone while on a national scale the scientific method and commercial competition were as important as physical infrastructure By 1830 through ever improving policies Britain had built a staggering industrial lead half a century ahead of its rivals Then the Tories lost power and policy changed forever In his conclusion Hutchinson shows how changes welcomed by conventional historians caused the decline of Industrial Britain Nevertheless the policies that drove growth ingenuity and rising living standards are still available for those bold enough to adopt them **The Publishers' Circular and Booksellers' Record** ,1919 *Education Outlook* ,1913 **The Oxford Handbook of Industrial Archaeology** Eleanor Casella,Michael Nevell,Hanna Steyne,2022 Through international and multi period chapters this volume explores the origins and development of industrialization from its emergence in 18th century Europe to its contemporary ubiquity It interrogates the widespread exploitation of natural resources that forged industrialization and its environmental and social legacy in our globalized world **Publishers' circular and booksellers' record** ,1892
