Betty Bryenton

Smoke Screen Womens Smoking And Social Control:

Smoke Screen Lorraine Greaves,1996 Smoking can help form and maintain identity often in keeping with oppressive cultural images of women Smoking can make women compliant and unhealthy but tobacco industries continue to expand female markets across the world Smoke Screen looks at the range of ways in which tobacco affects women the evolution of cultural pressures on women s smoking the meanings of smoking to women the uses of smoking for women the benefits for societies of keeping women smoking and the impact of health and tobacco policy on women s smoking prevention and cessation

Playing with Fire (Wisdom for Women Who Smoke) Betty Bryenton,2004 Playing With Fire is a unique book that explores current issues surrounding the epidemic of smoking among women This is an extremely important topic today because for the first time in our history young women are more likely than men to become smokers Cancer of the lung is now one of the major causes of cancer deaths among women and women now account for more than half the new cases of lung cancer each year The future looks bleak for it is predicted by the World Health Organization that deaths from lung cancer among women will double over the next twenty years This is in addition to the loss optimum health due to smoking Playing With Fire helps to explain the reasons for the current pattern of smoking among women It is the hypothesis of this book that while the lives of women have changed dramatically over the past quarter century the advances that women have made economically and socially have not made our world so much a better place as a more stressful one New roles and responsibilities are layered on top of the older more traditional ones and consequently women are suffering the effects of burnout as never before Cigarette smoking is an effective way of self medicating to alleviate the pain and stress of our daily lives Playing With Fire is unique in that it takes a compassionate view of women who smoke and challenges them to explore deeper issues in their lives something vitally important in long term smoking cessation The book validates women s experiences and provides them with a context for why they feel the way they do which gives meaning to why they smoke While supporting women in their personal choices to smoke or not to smoke it encourages them to seriously consider the risks involved and to consider ways of improving their situation and self care practices The beauty of Playing With Fire is that it does not preach or scold but rather takes readers on a journey of self discovery that will help women to understand their lives and motives for smoking as well as the possibility of personal change and power It is a book that explores the creation of a better world through the individual s acceptance of and love for the self and the adoption of healthy self care practices

Buy My Love Jean Kilbourne,2012-06-26 When was the last time you felt this comfortable in a relationship An ad for

sneakers You can love it without getting your heart broken An ad for a car Until I find a real man I ll settle for a real smoke A woman in a cigarette ad Many advertisements these days make us feel as if we have an intimate even passionate relationship with a product But as Jean Kilbourne points out in this fascinating and shocking expos the dreamlike promise of advertising always leaves us hungry for more We can never be satisfied because the products we love cannot love us back Drawing upon her knowledge of psychology media and women s issues Kilbourne offers nothing less than a new understanding of a ubiquitous phenomenon in our culture The average American is exposed to over 3 000 advertisements a day and watches three years worth of television ads over the course of a lifetime Kilbourne paints a gripping portrait of how this barrage of advertising drastically affects young people especially girls by offering false promises of rebellion connection and control She also offers a surprising analysis of the way advertising creates and then feeds an addictive mentality that often continues throughout adulthood

Transforming Addiction Lorraine Greaves, Nancy Poole, Ellexis Boyle, 2015-04-10 Choice Highly Recommended Read Addiction is a complex problem that requires more nuanced responses Transforming Addiction advances addictions research and treatment by promoting transdisciplinary collaboration the integration of sex and gender and issues of trauma and mental health The authors demonstrate these shifts and offer a range of tools methods and strategies for responding to the complex factors and forces that produce and shape addiction In addition to providing practical examples of innovation from a range of perspectives the contributors demonstrate how addiction spans biological social environmental and economic realms Transforming Addiction is a call to action and represents some of the most provocative ways of thinking about addiction research treatment and policy in the contemporary era

What's Wrong With Addiction Helen Keane, 2013-04-01 This is an impressive work carefully structured researched and written a refreshingly lucid account that is both intellectually stimulating and professionally helpful Janet McCalman Addicts are generally regarded with either pity or grave disapproval But is being addicted to something necessarily bad These attitudes are explicit both in contemporary medical literature and in popular self help texts We categorise addiction as unnatural diseased and self destructive We demonise pleasure and desire and view the addict as physically and morally damaged Helen Keane s thought provoking text examines these assumptions in a new light In asserting that the wrongness of addiction is not fixed or indeed obvious she presents a refreshing challenge to more conventional accounts of addiction She also investigates the notion that people can be addicted to eating love and sex just as they are to drugs and alcohol What s Wrong with Addiction shows that most of our ideas about addiction take certain ideals of health and normality for granted It exposes strains in our society s oppositions between health and disease between the natural and the artificial between order and disorder and between self and other

Tobacco Control, An Issue of Nursing Clinics Nancy L. York, 2012-03-28 This issue of Nursing Clinics includes the following topics Nursing interventions for smoking cessation tobacco cessation clinics Cessation strategies for pregnant and postpartum mothers Evidence based cessation strategies and policies for college age smokers Evidence based cessation

strategies for rural communities Gender differences and tobacco cessation Optimizing tobacco cessation outcomes Community based participatory research and cessation interventions Use of quit lines for cessation Advocacy and smoke free laws Hookah use in adolescents and adults Chewing tobacco and E cigarettes Scratching the Surface of Bioethics,2003-01-01 Is bioethics only about medicine and health care Law Philosophy Social issues No on all accounts It embraces all these and more In this book fifteen notable scholars from the North West of England critically explore the main approaches to bioethics and make a scratch on its polished surface *Anthropology of Tobacco* Andrew Russell,2019-03-04 Tobacco has become one of the most widely used and traded commodities on the planet Reflecting contemporary anthropological interest in material culture studies *Anthropology of Tobacco* makes the plant the centre of its own contentious global story in which instead of a passive commodity tobacco becomes a powerful player in a global adventure involving people corporations and public health Bringing together a range of perspectives from the social and natural sciences as well as the arts and humanities *Anthropology of Tobacco* weaves stories together from a range of historical cross cultural and literary sources and empirical research These combine with contemporary anthropological theories of agency and cross species relationships to offer fresh perspectives on how an apparently humble plant has progressed to world domination and the consequences of it having done so It also considers what needs to happen if as some public health advocates would have it we are seriously to imagine a world without tobacco This book presents students scholars and practitioners in anthropology public health and social policy with unique and multiple perspectives on tobacco human relations **High Culture** Anna Alexander,Mark S. Roberts,2012-02-01 This is the first comprehensive text to address addiction and its multiple effects on and extensions into art literature philosophy and psychology Most research into addiction has taken place within the disciplines of medicine criminology politics and social psychology When seen from a broad cultural perspective however addiction emerges directly alongside modernity haunting its various discourses of digression dissent and the transcendence of the commonplace Who could even imagine modern writing without the addictive visionary excesses of writers like Baudelaire DeQuincey Poe Burroughs or Artaud Or for that matter modern culture without its outsiders its incorrigible addicts its defaced subjects smokers users overeaters alcoholics the insane Taking a cultural studies approach to addiction *High Culture* offers a readable and accessible collection of essays on these socially marginalized practices and discourses so central to modernity

Designing and Conducting Gender, Sex, and Health Research John L. Oliffe,Lorraine Greaves,2011-04-18 This book is the first textbook dedicated to critically examining gender and sex in study designs methods and analysis in health research In order to produce ethical accurate and effective research findings it is vital to integrate both sex biological characteristics and gender socially constructed factors into any health study This book draws attention to some of the methodological complexities in this enterprise and offers ways to thoughtfully address these by drawing on empirical examples across a range of topics and disciplines *Designing and Conducting Gender Sex and Health Research* is an

invaluable resource for students undertaking research in health sciences medicine nursing gender studies women s studies epidemiology health policy psychology and sociology From John L Oliffe and Lorraine Greaves Tobacco Peter Boyle,2010-08-19 Tobacco is ranked as one of the major public health disasters of modern times This book pulls together the science of tobacco related diseases with the policy of tobacco control to offer a comprehensive preventive medicine public health approach *Freedom to Smoke* Jarrett Rudy,2005-09-30 In the late Victorian era smoking was a male habit and tobacco was consumed mostly in pipes and cigars By the mid twentieth century advertising and movies had not only made it acceptable for women to smoke but smoking had become a potent symbol of their emancipation From mass cigarette production in 1888 to the first studies linking cigarettes to lung cancer in 1950 The Freedom to Smoke explores gender and other key issues related to smoking in Montreal including the arrival of big tobacco first attempts to ban the cigarette wartime tobacco funds French Canadian smoking habits rituals of manliness and the growing respectability of women smokers none of which have been examined by historians Jarrett Rudy argues that while people smoked for highly personal reasons their smoking rituals were embedded in social relations and shaped by dominant norms of taste and etiquette The Freedom to Smoke examines the role of the tobacco industry health experts churches farmers newspapers the military the state and smokers themselves A pioneering city based study it weaves Western understandings of respectable smoking through Montreal s diverse social and cultural fabric Rudy argues that etiquette gave smoking a political role reflecting and serving to legitimize beliefs about inclusion exclusion and hierarchy that were at the core of a transforming liberal order

Tobacco and Public Health Peter Boyle,2004 This book comprehensively covers the science and policy issues relevant to one of the major public health disasters of modern times It pulls together the aetiology and burden of the myriad of tobacco related diseases with the successes and failures of tobacco control policies The book looks at lessons learnt to help set health policy for reducing the burden of tobacco related diseases The book also deals with the international public health policy issues which bear on control of the problem of tobacco use and which vary between continents The editors are an international group distinguished in the field of tobacco related diseases epidemiology and tobacco control The contributors are world experts drawn from the various clinical fields This major reference text gives a unique overview of one of the major public health problems in both the developed and developing world The book is directed at an international public health and epidemiology audience including health economists and those interested in tobacco control *Learning to Smoke* Jason Hughes,2003-02-15 Why do people smoke Taking a unique approach to this question Jason Hughes moves beyond the usual focus on biological addiction that dominates news coverage and public health studies and invites us to reconsider how social and personal understandings of smoking crucially affect the way people experience it Learning to Smoke examines the diverse sociological and cultural processes that have compelled people to smoke since the practice was first introduced to the West during the sixteenth century Hughes traces the transformations of tobacco and its use over time from its role as a

hallucinogen in Native American shamanistic ritual to its use as a prophylactic against the plague and a cure for cancer by early Europeans and finally to the current view of smoking as a global pandemic He then analyzes tobacco from the perspective of the individual user exploring how its consumption relates to issues of identity and life changes Comparing sociocultural and personal experiences Hughes ultimately asks what the patterns of tobacco use mean for the clinical treatment of smokers and for public policy on smoking Pointing the way then to a more learned and sophisticated understanding of tobacco use this study will prove to be essential reading for anyone interested in the history of smoking and the sociology of addiction

Smoking in British Popular Culture 1800-2000 Matthew Hilton, 2000-09-02 This book is a concise history of smoking in British popular culture from the early 19th century to the present day It explores the culture of the pipe and the cigar in the 19th century the role of the cigarette in the mass market economy of the early 20th century and the politics of smoking and health since the 1950s Combining a wide range of historical sources with examples drawn from film and popular literature it provides a comprehensive social cultural and economic history of smoking
