Social Death:

Social Death Lisa Marie Cacho, 2012-11-12 Winner of the 2013 John Hope Franklin Book Prize presented by the American Studies Association A necessary read that demonstrates the ways in which certain people are devalued without attention to social contexts Social Death tackles one of the core paradoxes of social justice struggles and scholarship that the battle to end oppression shares the moral grammar that structures exploitation and sanctions state violence Lisa Marie Cacho forcefully argues that the demands for personhood for those who in the eyes of society have little value depend on capitalist and heteropatriarchal measures of worth With poignant case studies Cacho illustrates that our very understanding of personhood is premised upon the unchallenged devaluation of criminalized populations of color Hence the reliance of rights based politics on notions of who is and is not a deserving member of society inadvertently replicates the logic that creates and normalizes states of social and literal death Her understanding of inalienable rights and personhood provides us the much needed comparative analytical and ethical tools to understand the racialized and nationalized tensions between racial groups Driven by a radical relentless critique Social Death challenges us to imagine a heretofore unthinkable politics and ethics that do not rest on neoliberal arguments about worth but rather emerge from the insurgent experiences of those negated persons who do not live by the norms that determine the productive patriotic law abiding and family oriented subject

Social Death Jana Králová, Tony Walter, 2018-04-19 Social death occurs when the social existence of a person or group ceases With an individual it can occur before or after physical death Scholars in a wide range of disciplines have applied the concept to very diverse issues including genocide slavery dementia hospitalisation and bereavement Social death relates to social exclusion social capital social networks social roles and social identity but its theorising is not united scholars in one field are often unaware of its use in other fields This is the first book to bring a range of perspectives together in a pioneering effort to bring to the field conceptual clarity rooted in empirical data Preceded by an original theoretical discussion of the concept of social death contributions from the UK Romania Sweden and Israel analyse the fourth age end of life policies dying alone at home suicide photographs on gravestones bereavement and the agency of dead musicians This book was originally published as a special issue of Contemporary Social Science *Slavery and Social Death* Orlando Patterson, 2018-10-15 Patterson discusses the internal dynamics of slavery in 66 societies over time These include Greece and Rome medieval Europe China Korea the Islamic kingdoms Africa the Caribbean islands and the American South Slavery he argues is a single process of recruitment incorporation on the margin of society and eventual manumission or death

Prison and Social Death Joshua M. Price, 2015-07 The United States imprisons more of its citizens than any other nation in the world To be sentenced to prison is to face systematic violence humiliation and perhaps worst of all separation from family and community It is to borrow Orlando Patterson's term for the utter isolation of slavery to suffer social death In *Prison and Social Death* Joshua Price exposes the unexamined cost that prisoners pay while incarcerated and after release

drawing upon hundreds of often harrowing interviews conducted with people in prison parolees and their families Price argues that the prison separates prisoners from desperately needed communities of support from parents spouses and children Moreover this isolation of people in prison renders them highly vulnerable to other forms of violence including sexual violence Price stresses that the violence they face goes beyond physical abuse by prison guards and it involves institutionalized forms of mistreatment ranging from abysmally poor health care to routine practices that are arguably abusive such as pat downs cavity searches and the shackling of pregnant women And social death does not end with prison The condition is permanent following people after they are released from prison Finding housing employment receiving social welfare benefits and regaining voting rights are all hindered by various legal and other hurdles The mechanisms of social death Price shows are also informal and cultural Ex prisoners face numerous forms of distrust and are permanently stigmatized by other citizens around them A compelling blend of solidarity civil rights activism and social research Prison and Social Death offers a unique look at the American prison and the excessive and unnecessary damage it inflicts on prisoners and parolees

The book bears witness to the evolution of the movement and presents the insights of its pioneers, eyewitnesses, and major contributors, past and present. Its chapters address contemporary intellectual, institutional, and practice developments in thanatology, hospice, and palliative care, funeral practice, death education, and caring of the dying, suicidal, bereaved, and traumatized. With a breadth and depth found in no other text on death, dying, and bereavement, the book disseminates the thinking of prominent authors: William Worden, David Clark, Tony Walter, Robert Neimeyer, Charles Corr, Phyllis Silverman, Betty Davies, Therese A. Rando, Colin Murray Parkes, Kenneth Doka, Allan Kellehear, Sandra Bertman, Stephen Connor, Linda Goldman, Mary Vachon, and others. Their chapters discuss the most significant facets of early development, review important current work, and assess major challenges and hopes for the future in the areas of their expertise. A substantial chronology of important milestones in the contemporary movement introduces the book, frames the chapters to follow, and provides guidance for further in-depth reading. The book first focuses on the interdisciplinary intellectual achievements that have formed the foundation of the field of thanatology. The section on institutional innovations encompasses contributions in hospice and palliative care of the dying and their families, funeral service, and death education. The section on practices addresses approaches to counseling and providing support for individuals, families, and communities on issues related to dying, bereavement, suicide, trauma, disaster, and caregiving. An Afterword identifies challenges and looks toward future developments that promise to sustain, further enrich, and strengthen the movement.

The First Christian Slave

Mary Ann Beavis, 2021-01-06 The slave Onesimus is the central figure in the letter to Philemon, but he remains silent throughout the discourse. Studies of the letter focus on whether or not Onesimus was a fugitive slave and on the question of Paul's intentions for him: did he want Philemon to accept him back as a brother in faith, did he expect Philemon to return Onesimus to him for his own use, or was Paul hinting that Philemon should manumit

Onesimus This study centers on Onesimus as an intentional convert the first Christian slave whose name we know Using research about early Christian slavery slavery in the Roman world and comparative evidence from African American slave narratives this study starts from the assumption that Onesimus had his own motives and aspirations in pursuing his association with Paul and reconstructs his voice using hints within and outside the text that suggest his agency and subjectivity
