### **Social Inequality Forms Causes And Consequences 4th Edition:**

*Social Inequality* Charles E. Hurst, 2001 Seeks to sensitize students to core issues of inequality and encourages discussion by presenting a multidimensional view *Social Inequality Forms Causes and Consequences Fourth Edition* conveys to students a complex and up to date view of social inequality in the United States in a way that informs draws them in and encourages them to look at the inequality surrounding them The book is based on the assumptions that social inequality is multidimensional and that in order to deal with inequality and its consequences we need to understand the explanations for it Taking a historical and social structural approach the author simply but compellingly gives a sense of the pervasiveness of social inequality and how it affects us all **Gender, Conflict and International Humanitarian Law** Orly Maya

Stern, 2018-07-27 This book conducts a gendered critique of the principle of distinction in international humanitarian law IHL with a focus on recent conflicts in Africa The principle of distinction is core to IHL and regulates who can and cannot be targeted in armed conflict It states that civilians may not be targeted in attack while combatants and those civilians directly participating in hostilities can be The law defines what it means to be a combatant and a civilian and sets out what behaviour constitutes direct participation Close examination of the origins of the principle reveals that IHL was based on a gendered view of conflict which envisages men as fighters and women as victims of war Problematically this view often does not accord with the reality in new wars today in which women are playing increasingly active roles often forming the backbone of fighting groups and performing functions on which armed groups are highly reliant Using women's participation in new wars in Africa as a study this volume critically examines the principle through a gendered lens questioning the extent to which the principle serves to protect women in modern conflicts and how it fails them By doing so it questions whether the principle of distinction is suitable to effectively regulate the conduct of hostilities in new wars This book will be of much interest to students of international law gender studies African politics war and conflict studies and international relations *The Handbook of Critical Theoretical Research Methods in Education* Cheryl E. Matias, 2021-05-12 The Handbook of Critical Theoretical Research Methods in Education approaches theory as a method for doing research rather than as a background framework Educational research often reduces theory to a framework used only to analyze empirically collected data In this view theories are not considered methods and studies that apply them as such are not given credence This misunderstanding is primarily due to an empiricist stance of educational research one that lacks understanding of how theories operate methodologically and presumes positivism is the only valid form of research This limited perspective has serious consequences on essential academic activities publication tenure and promotion grants and academic awards Expanding what constitutes methods in critical theoretical educational research this edited book details 21 educationally just theories and demonstrates how theories are applied as method to various subfields in education From critical race hermeneutics to Bakhtin's dialogism each chapter explicates the ideological roots of said theory while teaching us how to apply the theory as

method This edited book is the first of its kind in educational research To date no other book details educationally just theories and clearly explicates how those theories can be applied as methods With contributions from scholars in the fields of education and qualitative research worldwide the book will appeal to researchers and graduate students Culture, Power And History Stephen J. Pfohl, 2006 This volume brings together theoretical meditations and empirical studies of the intersection of culture power and history in social life Contributors bring a diversity of critical sociological perspectives and subject matters to this important edited book **Community Practice Skills** Dorothy N. Gamble, Marie Weil, 2010 Dorothy N Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities Presenting eight distinct models grounded in current practice and targeted toward specific goals Gamble and Weil take an unusually inclusive step combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings The authors open with a discussion of the theories for community work and the values of social justice and human rights concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr to Cesar Chavez Wangari Maathai and Vandana Shiva They survey the concepts knowledge and perspectives influencing community practice and evaluation strategies Descriptions of eight practice models follow incorporating real life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles competencies and skills used by the practitioner Complexities and variations encourage readers to determine through comparative analysis which model at which time best fits the goals of a community group or organization given the context culture social economic and environmental issues and opportunities for change An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press *Society in Focus* William E. Thompson, Joseph V. Hickey, Mica L. paid to how economic globalization and the acceptance of neoliberal governing ideology is shaping the health of Canadians. The COVID 19 epidemic vividly illustrated the importance of the social determinants of health as sickness and death rates were strikingly higher among Canadians in groups already experiencing adverse living and working conditions and poorer health: lower income Canadians, recent immigrants of colour, and those experiencing housing and food insecurity. If anything positive is to come out of this experience, it will be recognition that in the current post COVID 19 environment, it is essential to understand the socio-economic conditions that shape the health of individuals and communities.

**Intercultural and Interfaith Dialogues for Global Peacebuilding and Stability** Peleg, Samuel, 2019-05-31. Communication is vital to the prosperity and survival of the community, with the quality of communication amongst its members directly improving or worsening the value of the community. However, with the increase in immigration and relocation of refugees, the need to accommodate diverse cultural groups becomes imperative for the viability and survivability of a community, while posing challenges to communication. Intercultural and interfaith dialogue can be used constructively to cultivate, manage, and sustain diversity and wellbeing in particularly deeply divided communities.

*Intercultural and Interfaith Dialogues for Global Peacebuilding and Stability* is a critical research publication that explores the importance of conflict resolution strategies among populations that include a varied amalgamation of cultural and religious backgrounds. With the increasing emphasis on intercultural understanding promoted by governments, civil societies, and international mediators, this book offers relevant remedies for major afflictions in the world today, such as exclusion, marginalization, xenophobia, and racism. It is ideal for government officials, policymakers, activists, diplomats, lawyers, international trade and commerce agencies, religious institutions, academicians, researchers, and students working in a variety of disciplines, including political science, international relations, law, communication, sociology, and cultural studies.
