Social Institutions Ibn Khalduns Social Thought:

Social Institutions Fuad Baali, 1992-06-30 This book deals with Ibn Khaldun's social perspective of the major institutions the family education religion politics and economics The family is seen in its association with city life The role of the family and education in the development of human personality is emphasized Ibn Khaldun dealt with the social dimension of knowledge in its many ramifications Religion is discussed by stressing the social perspective rather than the theological especially the reciprocal relationship between group solidarity and religion Moreover social solidarity plays a dynamic role in the formation and decline of political groups Even economic activities are culturally defined Such activities have a great impact upon social interaction especially in dealing with the value of human labor and socioeconomic stratification In spite of its highly innovative appearance the Khaldunian theory was a product of a long series of the Islamic Arabic movements of thought

Sociological Thought Nahla Abdo, 1998-10-28 Sociological Thought Beyond Eurocentric Theory is designed to provide students of sociology with an alternative vision of social theory In an exciting and original introduction to the book Abdo provides an innovative critique of the Eurocentric and male oriented nature of conventional sociological textbooks and provides us with a new approach to understanding the field The horizons of social theory are expanded by the inclusion of a chapter by Rosa Luxemburg and a chapter by the fourteenth century Arab North African scholar Ibn Khaldun

A History of Social Thought Emory Stephen Bogardus, 1922 *Applying Ibn Khaldūn* Syed Farid Alatas, 2014-06-05 The writings of Ibn Khaldūn particularly the Muqaddimah Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khaldūn has been widely regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khaldūn and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khaldūn into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khaldūn was a founder of sociology or

provide descriptive accounts of his works Instead it systematically applies Khald n s theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khald nian sociology into modern social science theories Applying Ibn Khald n will be of interest to students and scholars of sociology and social theory

Varieties of Muslim Experience Lawrence Rosen, 2008-09-15. In *Varieties of Muslim Experience*, anthropologist Lawrence Rosen explores aspects of Arab Muslim life that are at first glance perplexing to Westerners. He ranges over such diverse topics as why Arabs eschew portraiture, why a Muslim scientist might be attracted to fundamentalism, and why the Prophet must be protected from blasphemous cartoons. What connects these seemingly disparate features of Arab social, political, and cultural life? Rosen argues that the common thread is the importance Arabs place on the negotiation of interpersonal relationships, a link that helps to explain actions as seemingly unfathomable as suicide bombing and as elusive as Quranic interpretation. Written with eloquence and a deep knowledge of the entire spectrum of Muslim experience, Rosen's book will interest not only anthropologists and Islamicists but anyone invested in better understanding the Arab world.

Islamic Jurisprudence C.G. Weeramantry, 1988-09-19. Islamic jurisprudence is a much misunderstood system. The misunderstanding is due to lack of information and to centuries of prejudice. This book seeks to present information not at present available in a single work on the pioneering efforts of Islamic jurists to develop a comprehensive body of human rights principles and practice as well as a corpus of international law principles. The attempt to develop such international law principles long anticipated any similar work in other legal or cultural systems. Human rights doctrine based upon the Qu'ran and the Sunna of the Prophet was expressed in terms which will strike the reader as surprisingly modern. In international law, Islamic treatises anticipated the work of Grotius by eight centuries. It is hoped that this systematic exposition, not attempted before in such detail, will help considerably in reducing misunderstanding and the resulting tensions, as well as being of considerable value to the Islamic world. The work will be of interest not only to lawyers but also to philosophers, historians, sociologists, political scientists, and students of international

affairs **Modern Sociological Theory** George Ritzer, Jeffrey Stepnisky, 2017-01-23 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Eighth Edition of Modern Sociological Theory by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools from the Structural Functionalism of early 20th century through the cutting edge theories of the late 20th and early 21st centuries The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers Sociological Theory Beyond the Canon Syed Farid Alatas, Vineeta Sinha, 2017-05-27 This book expands the sociological canon by introducing non Western and female voices and subjects the existing canon itself to critique Including chapters on both the founding fathers of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism while also offering much needed correctives to them The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon This book s global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory **Managing Water Resources, Past and Present** Julie Trottier, Paul Slack, 2004-11-25 This analysis of the evolution of water politics examines such areas as water management in the Middle Ages in Europe and its evolution in the USA the elaboration of the European Water Framework Directive the British experience of water management the over exploitation of African aquifers and more *Political Transformation of Gulf Tribal States* Shaul Yanai, 2014-09-01 The reform movements and attempts to establish parliamentary institutions in the Persian Gulf states of Kuwait Bahrain and Dubai between the First World War and the independent era of the 1970s were not inspired by western example or by any tradition of civil representation The move to a parliamentary system not only represented a milestone in the history of the region creating a legacy for future generations but was a unique transition in the Arab world The transformation of these states from loose chiefdoms of minimal coherence and centralization into centralizing and institutionalized monarchies involved the setting up of primary institutions of government the demarcation of borders and establishment of a monarchical order As this new political and social order evolved ideas of national struggle and national rights penetrated Gulf societies Gulf citizens who had spent time in Arab states mostly in Egypt and Iraq took part in the genesis of a public Arab Gulf national discourse enabling the Gulf population to become acquainted with national struggles for independence As a result merchants of notable families newly educated elements and even workers began to oppose the

dominance of the rulers Both the rulers and the commercial elites including members of the ruling families tried to formulate a new and different social contract with the rulers seeking to entrench their political power by using new administrative means and financial power Opposition against this current crystallized in 1938 among the ranks of the commercial oligarchy as well as within the ruling families In spite of its failure to create its own political institutions the oligarchy remained the foremost social and economic class But the ruling families could no longer treat national oil revenues as their private income and they began to channel part of these funds to public needs The most important consequence of the 1938 movement was the formation of a new social contract between the two traditional power centers the governing structures were fitted into the political and economic reality brought about by the oil wealth but remained essentially tribal and committed to the power division between the major Gulf families
