## **Social Militarisation And The Power Of History A Study Of Scholarly Perspectives:**

*Rethinking Military History* Jeremy Black, 2004-09-02 *Rethinking Military History* is a bold new thought book that reconsiders military history at the beginning of the twenty first century The chapters provide a valuable and concise survey of the main themes in the study of military history from 1500 to the present day as Jeremy Black reveals the main trends in the practice and approach to mili

*Social Militarisation and the Power of History* Dick Harrison, 1999 This book examines the scholarly treatment of three macro regions East Asia Southeast Asia and Mesoamerica The early medieval history of Europe is also analysed from the point of view of militarisation

*War and the Cultural Turn* Jeremy Black, 2013-05-08 In this stimulating new text renowned military historian Jeremy Black unpacks the concept of culture as a descriptive and analytical approach to the history of warfare Black takes the reader through the limits and prospects of culture as a tool for analyzing war while also demonstrating the necessity of maintaining the context of alternative analytical matrices such as technology Black sets out his unique approach to culture and warfare without making his paradigm into a straightjacket He goes on to demonstrate the flexibility of his argument through a series of case studies which include the contexts of rationale Gloire strategy early modern Britain organizations the modern West and ideologies the Cold War These case studies drive home the point at the core of the book culture is not a bumper sticker it is a survival mechanism Culture is not immutable it is adaptable Wide ranging international and always provocative *War and the Cultural Turn* will be required reading for all students of military history and security studies

*A Cumulative Bibliography of Medieval Military History and Technology* Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the

end of the fifteenth century as a chronological terminus makes little sense      [A Cumulative Bibliography of Medieval Military History and Technology, Update 2004](#) Kelly DeVries,2004-12-01 This is the first update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first volume and to present references to all books and articles published on medieval military history and technology from 2000 to 2002 These references are divided into the same categories as in the first volume and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography      [War in the World](#) Jeremy Black,2017-09-16 War was a central theme in the world history of the late fifteenth and sixteenth centuries with military capability and activity central to its states societies economies and cultures War in the World 1450 1600 provides an account of warfare in the period placing it in global context It offers a corrective to a narrative that has emphasised European developments and obscured the history of non European military systems and cultures of war Highlighting conflict between non Western powers which constituted most of the conflict around the world as well as giving due attention to warfare between Western and non Western powers Black emphasises the breadth and variety of military trajectories and connections This comparative context also provides a framework for considering the idea of a European based Military Revolution A wide ranging account of world military history in a period of substantial development the book will be essential reading for those interested in global history and conflict War in the World 1450 1600 is designed as a companion volume to Jeremy Black s Beyond the Military Revolution Warfare in the Seventeenth Century World      **Decolonizing the Viking Age** Fredrik Svanberg,2003 This volume argues that the Scandinavian Viking Age can be seen as a system of knowledge constructed in the late 19th century and in its basic structures maintained up to the present day This system of knowledge was heavily influenced by the nationalis      [War](#) Jeremy Black,2000 This global analysis of the social effects of war offers a far reaching assessment of military history challenging the focus on technology and military revolution War is placed in context from the evolution of specialized troops in the earliest civilizations to likely future scenarios      **Puerto Rican Women's History: New Perspectives** Felix Matos-Rodriguez,Linda Delgado,2015-05-15 A survey of the topics in gender and history of Puerto Rican women Organized chronologically and covering the 19th and 20th centuries it deal with issues of slavery emancipation wage work women and politics women s suffrage industrialization migration and Puerto Rican women in New York      [Perspectives on International Relations](#) Henry R. Nau,2019-12-04 Nau clarifies that which is complicated thereby allowing students to make better sense of their world and to become better global citizens Stewart Dippel University of the Ozarks Henry R Nau s best selling book Perspectives on International Relations is admired for its even handed presentation

of realism liberalism constructivism and critical theory and for integrating these perspectives in every chapter Students are able to explore the ways these different perspectives shape our understanding of the root causes of historical events and current controversies and then think critically about the world's most urgent issues The new Seventh Edition includes updates on Brexit the rise of nationalism the escalation of terrorism the use of social media in political protests around the world and continuing developments in North Korea Syria Iran China and Russia A Complete Teaching Learning Package LMS Cartridge formally known as SAGE Coursepacks Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site SAGE course outcomes Measure Results Track Success Outlined in your text and mapped to chapter learning objectives SAGE course outcomes are crafted with specific course outcomes in mind and vetted by advisors in the field See how SAGE course outcomes tie in with this book's chapter level objectives

Sport and Militarism Michael L. Butterworth, 2017-06-14 The institutional relationship between sport and the military appears to be intensifying In the US for example which faced global criticism for its foreign policy during the war on terror militaristic images are commonplace at sporting events The growing global phenomenon of conflating sport with war calls for closer analysis This critical interdisciplinary and international book seeks to identify intersections of sport and militarism as a means to interrogate interrupt and intervene on behalf of democratic peaceful politics Viewing sport as a crucial site in which militarism is made visible and legitimate the book explores the connections between sport the military and the state and their consequent impact on wider culture Featuring case studies on sports such as association football baseball and athletics from countries including the US UK Germany Canada South Africa Brazil and Japan each chapter sheds new light on the shifting significance of sport in our society This book is fascinating reading for all those interested in sport and politics the sociology of sport communication studies the ethics and philosophy of sport or military sociology

**The German Idea of Militarism** Nicholas Stargardt, 1994-03-17 This 1994 book examines the development of the modern idea of militarism from its inception in the 1860s until the outbreak of World War I Often regarded as the archetypical militarist state imperial Germany in fact witnessed a major controversy over the issue which became a touchstone of political opposition Issues like the arms race and the military industrial complex displaced more traditional concerns about authoritarian rule and militarism gradually acquired its modern meaning The book is part of a wider discovery by historians of the way political identities and ideas intermeshed contributing to the rise of civil society and new types of politics in modern Europe The political history of the main protagonist of anti militarism German social democracy is examined as Nicholas Stargardt reveals the lasting influence of older radical traditions and reappraises the role played by its espousal of Marxism

*The Political Economy of Communication* Vincent Mosco, 2009-05-07 The Political Economy of Communication provides a thorough coverage of an important area of communication studies the political economy approach to media This highly successful text has been

thoroughly updated restructured and rewritten in this new edition clearly demonstrating how power operates across all media from newspapers to Facebook and how media power intersects with globalization social class race gender and surveillance

**Peace Studies** Ranabir Samaddar, 2004-08-19 Providing a new approach to understanding peace and conflict resolution in a comparative perspective this volume will attract the attention of students and scholars of international relations human rights politics and peace and security studies

BOOK JACKET *Militarizing the American Criminal Justice System* Peter B. Kraska, 2001 Controlling threats to national security has long been the mission of the U S military while civilian law enforcement has dealt with domestic problems of crime illegal drugs and internal disorder This groundbreaking collection argues persuasively that the conventional distinctions between these two forces are becoming blurred and considers the far reaching consequences of the disquieting trend to militarize the nation s criminal justice system The contributors examine the historical and current interrelationships between the military and police illuminating such areas as the ideological similarities between waging real wars and fighting the wars on drugs and crime the reshaping of the military s role after the end of the Cold War the rapidly growing influence of advanced military technology in civilian society and the adaptation of military models such as boot camps and SWAT teams in policing and corrections As the lines between the military industrial complex and the criminal justice enterprise become ever more clouded this work provides a much needed evaluation of the thorny issues dangers and public policy ramifications raised by the entanglement between militari

**China from Empire to Nation-State** Hui Wang, 2014-10-14 This translation of the Introduction to Wang Hui s Rise of Modern Chinese Thought 2004 makes part of his four volume masterwork available to English readers for the first time A leading public intellectual in China Wang charts the historical currents that have shaped Chinese modernity from the Song Dynasty to the present day and along the way challenges the West to rethink some of its most basic assumptions about what it means to be modern China from Empire to Nation State exposes oversimplifications and distortions implicit in Western critiques of Chinese history which long held that China was culturally resistant to modernization only able to join the community of modern nations when the Qing Empire finally collapsed in 1912 Noting that Western ideas have failed to take into account the diversity of Chinese experience Wang recovers important strains of premodern thought Chinese thinkers theorized politics in ways that do not line up neatly with political thought in the West for example the notion of a Heavenly Principle that governed everything from the ordering of the cosmos to the structure of society and rationality itself Often dismissed as evidence of imperial China s irredeemably backward culture many Neo Confucian concepts reemerged in twentieth century Chinese political discourse as thinkers and activists from across the ideological spectrum appealed to

ancient precedents and principles in support of their political and cultural agendas Wang thus enables us to see how many aspects of premodern thought contributed to a distinctly Chinese vision of modernity     *Perspectives* ,2003
