Social Mobility And Political Attitudes Comparative Perspectives:

Social Mobility and Political Attitudes Frederick C. Turner, This volume provides a fundamental rethinking of the old literature on mobility and politics and a reassessment of interpretive schemes based upon it Turner s findings indicate that much is to be learned from subjecting even cherished assumptions to the rigors of survey research and analytical techniques

Social Mobility and Political Attitudes Frederick C. Turner,1992 This volume provides a fundamental rethinking of the old literature on mobility and politics and a reassessment of interpretive schemes based upon it Turner s findings indicate that much is to be learned from subjecting even cherished assumptions to the rigors of survey research and analytical techniques

Latin America In Comparative Perspective Peter H Smith,2018-10-08 This book highlights the necessity of analyzing Latin American society and politics within broad comparative frameworks It explores methodological strategies for regional comparison and offers new approaches to the study of women state power corporatism and political culture *The*

International Social Survey Programme 1984-2009 Max Haller,Roger Jowell,Tom W Smith,2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research **The Moral Economy of Class** Stefan Svallfors,2006 A comparative study of political attitudes across social classes examining what accounts for such differences in opinion and determining whether these differences change over time

Political Protest in Contemporary Africa Lisa Mueller,2018-06-28 From spray painted slogans in Senegal to student uprisings in South Africa twenty first century Africa has seen an explosion of protests and social movements But why Protests flourish amidst an emerging middle class whose members desire political influence and possess the money education and political autonomy to effectively launch movements for democratic renewal In contrast with pro democracy protest leaders rank and file protesters live at a subsistence level and are motivated by material concerns over any grievance against a ruling regime Through extensive field research Lisa Mueller shows that middle class political grievances help explain the timing of protests while lower class material grievances explain the participation By adapting a class based analysis to African cases where class is often assumed to be irrelevant Lisa Mueller

provides a rigorous yet accessible explanation for why sub Saharan Africa erupted in unrest at a time of apparent economic prosperity

New Critical Writings in Political Sociology Alan Scott, 2024-11-01 The articles collected together in this volume are concerned with why and how people get involved in politics whether through formal mechanisms such as voting through some of the more informal means and settings of social movement networks and political protest or through engagement in public debate But just as important is the question of why people do not get involved in politics What social conditions ideas and values facilitate or discourage political activity How is it that some people are systematically disempowered in democratic societies in comparison with others What social forms offer the most promise for extending and deepening democracy This volume brings together the most seminal papers which together form a record of how political sociologists since the 1970s have framed questions about the range and limits of democratic political engagement and developed concepts and methodologies in order to research the answers to those questions

The Shape of Social Inequality David Bills, 2005-08-24 This volume brings together former students colleagues and others influenced by the sociological scholarship of Archibald O Haller to celebrate Haller s many contributions to theory and research on social stratification and mobility All of the chapters respond to Haller s programmatic agenda for stratification research A full program aimed at understanding stratification requires first that we know what stratification structures consist of and how they may vary second that we identify the individual and collective consequences of the different states and rates of change of such structures and third seeing that some degree of stratification seems to be present everywhere that we identify the factors that make stratification structures change The contributors to this Festschrift address such topics as the changing nature of stratification regimes the enduring significance of class analysis the stratifying dimensions of race ethnicity and gender and the interplay between educational systems and labor market outcomes Many of the chapters adopt an explicitly cross societal comparative perspective on processes and consequences of social stratification The volume offers both conceptually and empirically important new analyses of the shape of social stratification

International Social Science Journal , 2008

The Politics of the Elite Modesto Gayo, María Luisa Méndez, 2023-11-24 This book is a study of class formation at the top of the social hierarchies during the turbulent and changing early twenty first century Contrary to perceptions that privileged individuals exist according to little more than market and economic logics the book provides evidence that they are by no means absent from politics and civic engagement Adopting a focus on reproduction distinction and politics it delves into the complex relationship between cohesion and fragmentation that exists within the most privileged groups formed over the course of the contemporary neoliberal period By knitting a dialogue between spatial analysis multiple correspondence analysis and in depth interviews the book provides insights into the intricate relations between institutions and political subjectivities and the role of space and mothering in the political socialisation of Chile s most privileged families The result is a dense description of a social class fragmented by subtle ideological lines based upon economic inheritance

socialisation within homogeneous family environments paths into the labour market and social and political activities This book will constitute a much needed research resource for academics students and professionals in areas such as elite studies social stratification inequality social reproduction accumulation political socialisation and contemporary conservative progressive views **Social Mobility in Industrial Society** Seymour Lipset, 2018-04-27 In a careful analysis of the existing literature the authors marshal an imposing array of evidence in support of their major argument that social mobility is an integral and continuing aspect of the process of industrialization This classic volume continues to be a basic reference source in the field of occupational mobility **Ibss: Political Science: 1987** British Library of Political and Economic Science, 1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences *Social Inequalities in Comparative Perspective* Fiona Devine, Mary C. Waters, 2008-04-15 This unique collection of original essays brings a comparative perspective to issues of social inequality First rate sociologists from around the world have contributed to this exciting and rigorous volume drawing upon their own research in the fields of race and ethnicity class and inequality and gender and sexuality Contains original essays by first rate scholars on issues of social inequalities around the world Features research and examples from the USA Canada UK Australia France Portugal Finland and Japan Reviews research on issues of social inequalities from the fields of race class and gender Reflects on methodological issues and the strengths of qualitative research Provides students with an important overview of the development of social stratification studies

Social Justice, Legitimacy and the Welfare State Benjamin Veghte, 2016-12-05 Drawing together leading international experts such as Knut Halvorsen Robert Y Shapiro Stefan Svallfors and Wim van Oorschot this volume addresses issues of justice and legitimacy in the context of welfare state transformation The contributors demonstrate that the Western welfare state is not at risk of losing support or encountering fundamental opposition but does face serious challenges including growing social and ethnic diversity new social risks fiscal constraints and contested notions of justice The volume focuses on four main aspects attitude formation in cross national perspective the just distribution of burdens and benefits political factors mediating the effects of social attitudes on public policy and challenges to the welfare state stemming from immigration and ethnic diversity Providing a comparative perspective on the issue Social Justice Legitimacy and the Welfare State makes a significant contribution to the literature on the public standing of the welfare state **The Democratic Class Struggle in Twenty Countries, 1945-1990** Paul Nieuwbeerta, 1995 It is well known that people's class position affects their voting behaviour This democratic class struggle occurs in all Western industrialized democracies However the strength of the relationship between class and voting behaviour differs from country to country and in many the strength of that relationship has declined This study analyses the levels of class voting in the various Western industrialised countries in the postwar period In addition it tests three specific explanations for variations in these levels between countries and periods

of time Moreover attention is paid to the relationship between intergenerational class mobility and individual voting behaviour in these countries For this purpose a large number of data on twenty western industrialised nations were collected and analysed

People and Their Opinions Eric B. Shiraev, Richard Sobel, 2015-07-02 Utilizing both a critical thinking approach and a comparative perspective throughout the text Sobel and Shiraev provide comprehensive coverage of public opinion while also teaching students the basic skills necessary for measurement understanding and interpreting Written in an accessible and engaging manner this text provides a unique and practical introduction to the field of public opinion The book begins by schooling the reader in how to think critically and then helps students apply those techniques as they encounter the concepts of public opinion The text also employs a comparative perspective demonstrating the effect and nature of public opinion in other countries while also placing American public opinion in context

Handbook of Social Justice Theory and Research Clara Sabbagh, Manfred Schmitt, 2016-02-08 The International Society for Justice Research ISJR aims to provide a platform for interdisciplinary justice scholars who are encouraged to present and exchange their ideas This exchange has yielded a fruitful advance of theoretical and empirically oriented justice research This volume substantiates this academic legacy and the research prospects of the ISJR in the field of justice theory and research Included are themes and topics such as the theory of the justice motive the mapping of the multifaceted forms of justice distributive procedural and justice in context bound spheres e g non humans It presents a comprehensive state of the art overview in the field of justice research theory and it puts forth an agenda for future interdisciplinary and international justice research It is worth noting that authors in this proposed volume represent ISJR s leading scholarship Thus the compilation of their research within a single framework exposes potential readers to high quality academic work that embodies the past current and future trends of justice research

Occupational Prestige in Comparative Perspective Donald J. Treiman, 2013-10-22 Occupational Prestige in Comparative Perspective provides information pertinent to the study of the nature of inequality in human society This book discusses that stratification is inevitable in complex societies as they are characterized by a highly developed division of labor into distinct occupational roles Organized into five parts encompassing 10 chapters this book begins with an overview of the nature of occupational prestige systems that is rooted in power relations This text then examines the extent of intrasocial variation in occupational prestige evaluations Other chapters consider the contrast between the consensus that characterizes occupational prestige evaluations and the lack of consensus that characterizes the evaluation of other social categories This book discusses as well the basic pattern of occupational evaluations and the worldwide uniformity in occupational evaluations The final chapter deals with the development of the occupational scale and discusses its potential uses This book is a valuable resource for sociologists

The Oxford Handbook of Swedish Politics Jon Pierre, 2016 The Handbook provides a broad introduction to Swedish politics and how Sweden s political system and policies have evolved over the past few decades

In an Age of Experts Steven

Brint,2020-06-30 Since the 1960s the number of highly educated professionals in America has grown dramatically During this time scholars and journalists have described the group as exercising increasing influence over cultural values and public affairs The rise of this putative new class has been greeted with idealistic hope or ideological suspicion on both the right and the left In an Age of Experts challenges these characterizations showing that claims about the distinctive politics and values of the professional stratum have been overstated and that the political preferences of professionals are much more closely linked to those of business owners and executives than has been commonly assumed
