The Social Movement of Spiritually Engaged Alternative Education in Thailand Against the Background of Reform and Globalization Michael Ernest Jones, 2010-10-13 The establishment of alternative education private foundations and networks linked to socio political and spiritual advocacies distinguishes the Thai social movement in this research This research is a qualitative study that has made use of historical accounts to associate with data gathered from extensive interviews and case studies in order to inquire as to whether alternative education represents an historical spiritual tradition of opposition to reform hegemony and whether it has had an impact on state reform efforts Also investigated was whether there are some historical patterns associated with the manner in which the state of Thailand has dealt with the forces of globalization and whether the collective action by informal movements of Thai people also has the same predictable pattern of response to the global Analysis and comparison of these issues contribute in determining the values associated with people in the alternative education movement and the motives and intentions associated with state initiated reforms A further related aspect explored is the degree of Thai ness and the embedded historical pattern of both the alternative education movement and education reform These inquiries were answered through the collection of data from three different trips to Thailand over a four year period the last trip a one year stay that permitted case studies and observations at three alternative schools and the interview of a host of participants from home school parents and students to Ministry of Education staff and officers In examining the data a clearer notion of what lies underneath the idea of Buddhist education and spirituality became clearer and how educational reform based on Western ideals and notions has not taken into account Buddhism and culture as education This illumination brings new insight and also raises a new question as to the difference between social movements in a Buddhist nation such as Thailand and social movements in the West

Solidarity and contention Maryjane Osa, 2003
Beyond the Borderlands Debra Lattanzi Shutika, 2011-07-08 Over the last three decades migration from Mexico to the United States has moved beyond the borderlands to diverse communities across the country with the most striking

transformations in American suburbs and small towns This study explores the challenges encountered by Mexican families as they endeavor to find their place in the U S by focusing on Kennett Square a small farming village in Pennsylvania known as the Mushroom Capital of the World In a highly readable account based on extensive fieldwork among Mexican migrants and their American neighbors Debra Lattanzi Shutika explores the issues of belonging and displacement that are central concerns for residents in communities that have become new destinations for Mexican settlement Beyond the Borderlands also completes the circle of migration by following migrant families as they return to their hometown in Mexico providing an illuminating perspective of the tenuous lives of Mexicans residing in but not fully part of two worlds **Write to Death**

Elizabeth A. Gailey,2003-09-30 Has the mainstream media been careless in reporting on the issue of euthanasia As the Right to Die and Physician Assisted Suicide movements gather steam the national media have been too quick to perpetuate and focus on the medical and legal overtones of death The ethical religious and philosophical dimensions of our increased acceptance of euthanizing the aged infirm and disabled are often neglected Gailey argues that the press s failure to enrich public discourse may well erode its trustworthiness in the public s eye Using abundant examples from analysis of elite mainstream news publications Gailey details how the national press systematically advanced pro euthanasia views and interpretations while marginalizing or omitting pro life perspectives and frames The battle over legalizing passive and active euthanasia has enormous social economic and ethical implications An understanding of how the news media frame or package such issues for public consumption is critical Gailey s integrative approach combines an exploration of the major historical ideational and economic factors leading to the rise of the Right to Die movement and includes in depth analysis of the media s framing of the controversy in the two decades Karen Ann Quinlan s coma in 1975 to Dr Jack Kevorkian s 1999 conviction **Doublespeak** Matthew,2014-04-15 This timely intervention exposes the euphemized language of the extreme right as a deceptive attempt to secure greater influence over public policy Since the end of World War II the extreme right has made strategic use of doublespeak which apes the language of liberal democracy Attentive observation and accurate recognition of these tactics means taking the extreme right s deliberately crafted slogans symbols and themes seriously These essays investigate the extreme right s attempts at repackaging contemporary ultranationalism to make it more palatable to mainstream European and American tastes **India's Human Security** Jason Miklian,Ashild Kolas,2013-09-11

India s explosive economic growth and emerging power status make it a key country of interest for policymakers researchers and scholars within South Asia and around the world But while many of India s threats and conflicts are strategized and discussed extensively within the confines of security studies strategic studies and conventional international relations perspectives many less visible challenges are set to impact significantly on India s potential for economic growth as well as the human security and livelihoods of hundreds of millions of Indian citizens Drawing on extensive research within India this book looks at some of the hidden risks that India faces exploring how a broadened scope of what constitutes risk itself holds

value for Indian security studies practitioners and policymakers It highlights several human security risks facing India including the inability of the world's largest democracy to deal effectively with widespread poverty and health issues resource depletion and environmental mismanagement pervasive corruption and institutionalized crime communal violence a protracted Maoist insurgency and deadlocked peace processes in the Northeast among others The book extracts common themes from these seemingly disparate problems discussing what underlying failures allow them to persist and why policymakers heavily securitize some political issues while ignoring others Providing an understanding of how several lesser studied risks can pose potential or actual threats to Indian society and its emerging power growth narrative this book is a useful contribution to South Asian Studies International Security Studies and Global Politics **Food and Morality** Susan R. Friedland, 2008 A wide range of essays from English American and overseas scholars who ponder contemporary questions such as eating foie gras **Live Long and Prosper** Sandra L. Barnes, 2012-12-17 This pioneering new study of the Black megachurch phenomenon brings nuance and depth to the question Are Black megachurches more focused on prosperity than on people Black megachurches and their pastors are often accused of failing to use their considerable resources to help the poor focusing on prosperity theology rather than on social justice requiring excessive monetary and time commitments of members and pilfering church coffers for their personal use The debate rages on about whether these congregations are doing all they can to address specific challenges facing African American communities Live Long and Prosper is a refreshing innovative study that reaches beyond superficial understandings of the Black megachurch phenomenon in a piercing interrogation of how powerful megachurches address or fail to address two social crises in the Black community HIV AIDS and poverty Live Long and Prosper offers an intriguing examination of sixteen representative Black megachurches and explores some of their motivations and subsequent programmatic efforts in light of prosperity or health and wealth theology Professor Barnes makes the case that the Black megachurch is a complex contemporary model of the historic Black church in response to globalism consumerism secularism religious syncretism and the realities of race She contends that many of these megachurches hold unique characteristics of adaptability and innovation that position them well to tackle difficult social issues Prosperity theology emphasizes two characteristics physical health and economic wealth as examples of godly living and faith This book considers whether and how efforts to address HIV AIDS a health issue and poverty a wealth issue are influenced by church and clergy profiles theology in general and prosperity theology in particular Frame analysis informs this mixed methodological study to compare and contrast experiences theological beliefs pastoral profiles and programs Live Long and Prosper is a must read for general readers academics and students alike indeed anyone interested in the contemporary Black megachurch's response to social problems and the link between theology and social action It is at once a fascinating readable narrative and a rich piece of scholarship complete with extensively documented endnotes statistics informative charts and tables and an exhaustive bibliography **Workplace Justice** Sharon Kurtz, 2002 In 1991 Columbia

University's one thousand clerical workers launched a successful campaign for justice in their workplace. This diverse union, two thirds black and Latina three fourths women, was committed to creating an inclusive movement organization and to fighting for all kinds of justice. How could they address the many race and gender injustices members faced, avoid schism and maintain the unity needed to win? Sharon Kurtz, an experienced union activist and former clerical worker herself, was welcomed into the union and pursued these questions. Using this case study and secondary studies of sister clerical unions at Yale and Harvard, she examines the challenges and potential of identity politics in labor movements. With the Columbia strike as a point of departure, Kurtz argues that identity politics are valuable for mobilizing groups but often exclude members and their experiences of oppression. However, Kurtz believes that identity politics should not be abandoned as a component in building movements but should be reframed as multi identity politics. In the end, she shows an approach to organizing with great potential impact not only for labor unions but for any social movement.

Empowering Black Youth of Promise Sandra L. Barnes, Anne Streaty Wimberly, 2016-06-10 Informed by the experiences of 772 Black churches, this book relies on a multidisciplinary mixed methodological lens to examine how today's Black churches address the religious and non religious educational and broader socialization needs of youth. Drawing from a cultural and ecological framework of village mindedness, Barnes and Wimberly examine the intersected nature of place, space and race to propel a conversation about whether and how the Black Church can become a more relevant and empowering presence for youth and the Black community.

Risks, Violence, Security and Peace in Latin America Úrsula Oswald Spring, Serena Eréndira Serrano Oswald, 2018-03-27 This book analyses the war against drugs, violence in streets, schools and families and mining conflicts in Latin America. It examines the nonviolent negotiations, human rights, peacebuilding and education, explores security in cyberspace and proposes to overcome xenophobia, white supremacy, sexism and homophobia where social inequality increases injustice and violence. During the past 40 years of the Latin American Council for Peace Research (CLAIP), regional conditions have worsened. Environmental justice was crucial in the recent peace process in Colombia but also in other countries where indigenous people are losing their livelihood and identity. Since the end of the cold war, capitalism aggravated the life conditions of poor people. The neoliberal dismantling of the State reduced their rights and wellbeing in favour of enterprises. Youth are not only the most exposed to violence but represent also the future for a different management of human relations and nature.

Social Movements and Activism in the USA Stephen Valocchi, 2009-09-10 *Social Movements and Activism* puts front and center the stories, rhetoric and emotions of progressive activists from Hartford, Connecticut, a post industrial city in the neo liberal nation. Resisting the impulse to flatten the myriad voices of activism but refusing to leave these voices without context, *Social Movements and Activism* uses analytic concepts from social movement theory to assist these activists in telling us who they are, why and how they do activism and what

conflicts tensions and satisfactions they derive from it *Free at Last?* Juan Battle, Michael Bennett, Anthony J. Lemelle, 2017-07-05 As this volume indicates the issues facing black America are diverse and the tools needed to understand these phenomena cross disciplinary boundaries In this anthology the authors address a wide range of topics including race gender class sexual orientation globalism migration health politics culture and urban issues from a diversity of disciplinary perspectives *Global Food Security Governance* Jessica Duncan, 2015-03-24 In 2007 8 world food prices spiked and global economic crisis set in leaving hundreds of millions of people unable to access adequate food The international reaction was swift In a bid for leadership the 123 member countries of the United Nations Committee on World Food Security CFS adopted a series of reforms with the aim of becoming the foremost international inclusive and intergovernmental platform for food security Central to the reform was the inclusion of participants including civil society and the private sector across all activities of the Committee Drawing on data collected from policy documents interviews and participant observation this book examines the re organization and functioning of a UN Committee that is coming to be known as a best practice in global governance Framed by key challenges that plague global governance the impact and implication of increased civil society engagement are examined by tracing policy negotiations within the CFS in particular policy roundtables on smallholder sensitive investment and food price volatility and negotiations on the Voluntary Guidelines on the Responsible Governance of Tenure of Land Fisheries and Forests in the Context of National Food Security and the Global Strategic Framework for Food Security and Nutrition The author shows that through their participation in the Committee civil society actors are influencing policy outcomes Yet analysis also reveals that the CFS is being undermined by other actors seeking to gain and maintain influence at the global level By way of this analysis this book provides empirically informed insights into increased participation in global governance processes **Mobilizing Islam** Carrie Rosefsky Wickham, 2002-10-17 Mobilizing Islam explores how and why Islamic groups succeeded in galvanizing educated youth into politics under the shadow of Egypt's authoritarian state offering important and surprising answers to a series of pressing questions Under what conditions does mobilization by opposition groups become possible in authoritarian settings Why did Islamist groups have more success attracting recruits and overcoming governmental restraints than their secular rivals And finally how can Islamist mobilization contribute to broader and more enduring forms of political change throughout the Muslim world Moving beyond the simplistic accounts of Islamic fundamentalism offered by much of the Western media Mobilizing Islam offers a balanced and persuasive explanation of the Islamic movement's dramatic growth in the world's largest Arab state **Feminist Locations** Marianne DeKoven, 2001 The contributors to this volume look to the future of feminist theory and practice specifically in terms of their complex relationship with the global and local configurations of postmodernity It focuses on political issues and on questions of the body *Fields of Protest* Raka Ray, 2000 The women's movement in India has a long and rich history in which millions of women live work and struggle to survive in order to remake their family home and social lives Using an

innovative and comparative perspective Ray offers a unique look at Indian activist women and adds a new dimension to the study of women's movements on a global level Politics as Worship Sumita Pahwa, 2023-11-25 Why do leading Islamist movements like the Egyptian Muslim Brothers embrace electoral politics while insisting that their main goal is working for God and how do they reconcile political with spiritual goals Expectations that tension between political and religious organizing would pull the movement apart were not realized when the Brothers achieved electoral success following Egypt's 2011 uprising Instead movement conservatives rather than moderates came to dominate political work and political activists framed the movement's electoral mandate as both popular and divine arguing that campaigning policy and legislation could all be forms of worship To understand how the movement threaded these disparate missions Sumita Pahwa examines the movement's internal debates on preaching activism and social reform from the 1980s through the 2000s She explains how framing political work as ethical conduct essential for building pious Muslim individuals as well as an Islamic political order became central to the organization's functioning Through a comprehensive analysis of texts speeches public communications interviews and internal training documents Pahwa offers a constructivist argument for how the movement has folded religious ideals into political discourse enabling the leadership to shift the boundaries of justifiable and righteous action Melding these aims the Egyptian Muslim Brotherhood built an influential Islamic political project and a unified identity around working for God
