Overcoming Fieldwork Challenges in Social Science and Higher Education Research El Shaban, Abir, 2020-12-18 Conducting social science and education research studies that require involvement in fieldwork is not an easy task Many graduate students and novice researchers face difficulties efficiently and effectively conducting the practical aspects of their research in fieldwork One reason for this difficulty may be due to the lack of finding and or accessing authentic and realistic descriptions of previously conducted fieldwork experiences and processes in a variety of fields This could be the case whether the research is going to be on a virtual platform or in a real and actual context Thus it is critical to shed light on the successes and pitfalls of the personal experiences of fieldwork Overcoming Fieldwork Challenges in Social Science and Higher Education Research is an essential reference book that draws on the experience of conducting fieldwork in different contexts and world regions that are relevant to social science and education studies The diverse experiences in research processes and contexts that this book offers provide readers with an authentic and realistic description of how research data is collected the tools needed to envision some of the challenges that they might face and how to effectively solve them Highlighting topics such as methodology data collection and fieldwork partnerships in fields that include counseling psychology language studies and teacher education this book is ideal for social science and education studies professors who have research as a mandatory part of their curriculum administrators and policymakers independent and novice researchers and graduate students planning to conduct their research studies with humans in different contexts

Proceedings of the 2nd International Conference on Social Knowledge Sciences and Education (ICSKSE 2022) Sumarmi Sumarmi, Rajendra P. Shrestha, I Nyoman Ruja, Azmil Mohd Tayeb, Sharina Osman, 2023-02-10 This is an open access book Each country in Southeast Asia has experienced numerous adversities from pandemic and disasters to inequalities and threats to democracy Adding to these challenges are our common experience of colonialism where its legacies still resonate in the present Despite these challenges Southeast Asia continue to participate in global commitments geared towards realizing sustainable development democracy and countervailing the imbalance global power relation Furthermore Southeast Asia has been the center of studies that critically examined the global power of knowledge production Categories of developing undeveloped or third world have been largely questioned as these categories created more segregation and reflected Orientalist notion rather than acknowledging countries of Southeast Asia and others as a distinct entity Under this backdrop the conference will explore these important questions what makes Southeast Asia resilient Why What brought Southeast Asia together as Southeast Asia What are the challenges for Southeast Asia today How do we overcome them How does Southeast Asia contest and cooperate with global powers within the international network This conference will bring

together academics educators activists or even policy makers who work on Southeast Asia to discuss those questions Experts within and outside the countries of Southeast Asia are welcome to share their research and knowledge on various issues about the region

Proceeding of the 3rd International Conference on Social Knowledge Sciences and Education (ICSKSE) 2023"Change and Continuity in Southeast Asia" Aditya Nugroho Widiadi,Sharina Osman,Idris Idris,Azmil

Mohd Tayeb,2023-12-26 This is an open access book Socio culturally people in the Southeast Asian region have a heterogeneous composition This diversity can be seen from the large number of ethnic compositions that inhabit the region For example in Indonesia there are already various ethnic groups not yet to mention in other regions such as Malaysia Philippine and others The diversity of these ethnic groups is directly proportional to the variety of languages that exist in Southeast Asia Similarly with the languages the culture in these ethnic groups is definitely diverse Interestingly this diversity is constantly changing keeping up with the global changes These changes are important to study in order to get an overview of the socio cultural changes and continuity that currently exist in the Southeast Asian region The various changes and continuity that occur historically geographically and socio culturally mentioned above will also have various impacts on the educational aspect Therefore it is also pivotal to examine the various change and continuity that occur in the field of education of Southeast Asia This is because the field of education will determine where Southeast Asia will be taken in the future

The Social Sciences and Their Interrelations William F. Ogburn,Alexander Goldenweiser,1927 *Writing Research Proposals for Social Sciences and Humanities in a Higher Education Context* George Damaskinidis,Anastasia Christodoulou,2019-03-08

A research proposal is a plan that a candidate submits to gain approval for post graduate research Although it is a typical requirement for any research in higher education it has failed to receive the attention it deserves from the academic community as a procedure of systematic teaching and learning This book provides a support framework with step by step guidance about what constitutes a good research proposal and what can be done to maximize one s chances of writing a successful application It also presents advice and practical activities to enhance skill development and shows how success is within reach if we are willing to face our flaws and grasp how to use the available information productively and persuasively

Engineering, Social Sciences,

and the Humanities Steen Hyldgaard Christensen, Anders Buch, Eddie Conlon, Christelle Didier, Carl Mitcham, Mike Murphy, 2023-01-16 This book presents a critical examination of conversations between engineering social sciences and the humanities asking whether their conversations have come of age These conversations are important because ultimately their outcome have real world consequences in engineering education and practice and for the social and material world we inhabit Taken together the 21 chapters provide scholarly argued responses to the following questions Why are these conversations important for engineering for social sciences and for the humanities Are there key places in practice in the curriculum and in institutions where these conversations can develop best What are the barriers to successful conversations What proposals can be made for deepening these conversations for the future How would we know that the conversations have come of age and who gets to decide The book appeals to scholarly audiences that come together through their work in engineering education and practice The chapters of the book probes and access the meetings and conversations and they explore new avenues for strengthening dialogues that transcend narrow disciplinary confines and divisions The volume offers a rich collection of descriptive resources and theoretical tools that will be useful for researchers of engineering practices and for those aiming to reshape the engineering lifeworld through new policies The book depicts the current state of the art of the most visible SSH contributions to shaping engineering practices as well as a map of research gaps and policy problems that still need to be explored Dr Ir Lavinia Marin TU Delft Electrical Engineering and Philosophy **Proceedings of the 2nd International Conference on History, Social Sciences, and Education (ICHSE 2024)** Indah Wahyu Puji Utami, Wahyu Djoko Sulisty, 2024-11-16 This is an open access book The rationale behind this conference stems from a critical understanding of the gaps in our academic discourses especially related to the Unheard Voices While scholarly discussions have traditionally focussed on well documented narratives and mainstream perspectives we urgently need to redirect our attention toward the stories of various groups whose voices have often been marginalized or ignored By addressing this gap the conference aims to foreground the importance of diversifying our academic conversations and elevating voices that have been historically underrepresented to contribute to a more comprehensive and nuanced understanding of historical events social structures and educational systems We also aspire to emphasize the transformative potential of centering our discussions of unheard voices and alternative narratives at this conference In so doing we not only contribute to a more inclusive academic discussion but also pave the way for more innovative research methodologies fresh perspectives and deeper understanding of multifaceted challenges and lived experiences of diverse groups As we navigate the intersections of history social sciences and education we invite scholars practitioners educators and students to join us in this endeavor This conference presents an opportunity not only for the exchange of ideas but also for the establishment of international networks committed to amplifying unheard voices in history social sciences and education Cases on Historical Thinking and Gamification in Social Studies and Humanities Education Martínez-Hita, María, Carrasco, Cosme

Jesús Gómez,Miralles-Martínez, Pedro,2022-06-30 Research on history education and historical thinking is becoming increasingly relevant internationally The need for a renewal of history education is not only justified by the epistemology of history itself but also by the demand for a methodological change in education in general making students active protagonists in the construction of their learning and based on the development of competencies Further study on the potential use of gamification within social studies and humanities education is required to understand its benefits and challenges Cases on Historical Thinking and Gamification in Social Studies and Humanities Education proposes and analyzes gamification as a pedagogical innovation that can enable the renewal of the teaching and learning process of history facilitating the active learning of historical thinking concepts while influencing students conceptions of history as a discipline and as a school subject Covering key topics such as historical thinking social sciences video games and mobile learning this reference work is ideal for historians policymakers researchers scholars academicians practitioners instructors and students
