Social Services For Older Persons:

Social Services for Older Persons Albert J. E. Wilson, 1984 **Handbook of Human Services for Older Persons** Monica Bychowski Holmes, Douglas Holmes, 1979 **Social Work With Older People: Approaches To Person-Centred Practice**

Hall, Barbara, Scragg, Terry, 2012-03-01 This text fills a gap for an accessible textbook which takes a person centred approach to working with older people by providing readers with a basic knowledge of policy legislation theory and research

Social Work with Older People Ann McDonald, 2010-03-08 Social Work with Older People provides an authoritative and practical guide to working with older people in a range of settings It addresses the complexities of individual work with older people as well as work with families groups and the wider community and is not afraid to tackle the challenges as well as opportunities of practice in this area The book begins by explaining the demographic changes that have led to a greying of the general population It goes on to discuss the diversity in experiences of ageing across society and the range of issues which confront older people and those who wish to work proactively with them Clear attention is paid to the processes of assessment care planning and review with readers encouraged to reflect on developing good practice through case studies and exercises Although it has a strong practical emphasis the book also stresses the value of theoretical perspectives with insights from fields such as sociology and psychology woven throughout the book Clear links are also made to policy guidelines and organizational standards without losing sight of the deeper often more complex issues that arise when working with older people Social Work with Older People will be essential reading for social work students and practitioners but also for others who are interested in the development of practice with older people as citizens and service users

Handbook of International Social Work Lynne M. Healy, Rosemary J. Link, 2012 Global knowledge is increasingly essential for all aspects of social work Today's professionals respond to concerns including permeable borders the upheavals of war displaced workers natural disasters international adoption and human trafficking Everywhere social workers work with service users and colleagues from diverse cultures and countries Globally relevant concepts such as human rights development and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice policy and research Chapters systematically map the key issues organizations competencies training and research needs and ethical guidelines central to international social work practice today emphasizing the linkages among social work development and human rights practice In depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues regardless of whether the work is done at home or abroad Representing all regions of the world a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state of play of international

social work today *Social Work Practice with Older People* Rory Lynch, 2013-11-13 Older people are the biggest service user group for social workers and an increasing proportion of the population In this refreshingly positive and practical textbook Rory Lynch draws on years of practice and teaching experience to show how to achieve best social work practice with older adults He takes a person centred approach which fosters respect by valuing the fact that elderly people have more lived experience than others Exploring the key theoretical approaches and methods of intervention this book helps social workers to identify understand and facilitate their service users wishes for well being and a fulfilling older age Chapters are practice driven containing case studies drawn from a range of care settings reflective questions and exercises Mapping directly onto the key modules on the social work degree this is essential reading for all student social workers especially as they prepare to go on their practice placement It is also valuable reading for qualified social workers Rory Lynch is Lecturer in Social Work at Robert Gordon University **Social Work and Social Welfare** Katherine S. Van Wormer, Rosemary J. Link, 2018 Infused with relevant personal narratives and photographs *Social Work and Social Welfare* provides a global human rights perspective on social welfare policies that are at the forefront of controversy in today's world e.g immigration policies environmental sustainability health care housing food insecurity and income wealth inequality **Planning Welfare Services for Older People**, 1966 *Developments in Aging* United States. Congress. Senate. Special Committee on Aging, 1984 *Department of health, education, and welfare (exclusive of Public health service)* United States. Congress. House. Committee on Appropriations. Subcommittee on Departments of Labor and Health, Education, and Welfare, and Related Agencies Appropriations, 1965 **Social Work and Human Rights** Elisabeth Reichert, 2011-09-13 *Social Work and Human Rights* has become a standard text highlighting the role of social work in protecting the rights of vulnerable populations Through rigorous analysis classroom exercises and a frank discussion of the implications for practice both within and outside of the United States the volume effectively acquaints readers with the political economic and social dimensions of rights issues and the documents that guarantee them New material covers international events such as the United Nations Millennium Declaration 2000 and its effort to reduce the poverty and suffering of billions worldwide The volume now emphasizes cultural rights and includes a probing lesson in cultural relativism It turns a critical eye toward the failure in the United States to address social welfare issues and its reluctance to rectify policies favoring one group over another Praise for the first edition A human rights compass a preliminary guide for the translation of human rights for social workers It is to be welcomed European Journal of Social Work Foundation documents provide an essential tool for understanding the issues and applying the understanding to concrete social policy advocacy and action Canadian Association of Social Workers Bulletin This is a text which is overdue for social work students and faculty Rosemary Link coauthor of *Human Behavior in a Just World* Reaching for Common Ground Reichert makes human rights concepts come alive Practice case examples and human rights analysis of the National Association of Social Workers Code of Ethics are particularly valuable in orienting the reader

to the domestic practice applications of the global human rights movement Lynne M Healy author of International Social Work Professional Action in an Interdependent World [Handbook of Social Work in Health and Aging](#) Barbara Berkman,2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today [Hearings](#) United States.
