Social Theory And African Tribal Organization The Development Of Socio Legal Theory:

Social Theory and African Tribal Organization Kenneth Smith Carlston, 1968 **A Theory of African Constitutionalism** Berihun Adugna Gebeye, 2021-07-08 A Theory of African Constitutionalism asks and seeks to answer why we need a new theoretical framework for African constitutionalism and how this could offer us better theoretical and practical tools with which to understand improve and assess African constitutionalism on its own terms By locating constitutional studies in Africa within the experiences interactions and contestations of power and governance beginning in precolonial times the book presents the development and transformation of African constitutional systems across time and place along with the attendant constitutional designs and practices ranging from the nature and operation of the African state to its vertical and horizontal government structures to its constitutional rights regime This title offers both a theoretically and comparatively rich historically and contextually informed and temporally and spatially extensive account of the nature travails and incremental successes of African constitutionalism with detailed case studies from Nigeria Ethiopia and South Africa A Theory of African Constitutionalism provides scholars policymakers governments and constitution builders in Africa and beyond with new insights for reimagining the purpose substance and scope of constitutions and constitutionalism *The Politics of Aristocratic Empires* John H. Kautsky, 2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order United Kingdom Publications and Theses on Africa 1967-68 Miriam Alman, 2013-07-04 First published in 1973 This is the fifth issue in the series and covers the years 1967 and 1968 Books and pamphlets have been considered as published in the United Kingdom when their publishers are

listed in Whitaker's Publishers in the United Kingdom and their addresses February 1971 This includes many foreign publishers mainly American who have branches in the United Kingdom and whose publications are listed in the British National Bibliography Books published abroad and distributed by British publishers are not included *Law as Process* Sally Falk Moore, 2000 This is a study of the role of law in society using both pre industrial and modern settings It argues that the same social processes which prevent the total regulation of society also reshape and transform efforts at partial regulation *1968 Annual Supplement* John B. Simeone, Alfred de Grazia, Carl E. Martinson, 2013-12-01 *African Theology* Emmanuel Martey, 2009-11-01 Two major strands of theology have developed in Africa inculturation and liberation each in response to different needs Emmanuel Martey's African Theology provides a clear scholarly examination of these two basic approaches solidly based on Martey's understanding of contemporary theology and his firsthand knowledge of Africa Martey first examines the historical background of each of these theological developments especially relating to cultural and political movements enveloping the continent in the 1970s In sub Saharan Africa struggles for independence from colonizers have resulted in inculturation theology The defining aspect of this theology is that it pushes its roots firmly in African culture and traditions In South Africa on the other hand Black Africans struggling against the oppressive systems of apartheid have turned to liberation theology Martey shows how the real hope for African theology lies in the dialectical encounter between these two approaches and in their potential for convergence The two foci of liberation and inculturation Martey says are not contradictory but complement each other African Theology concludes by challenging African theologians to weld together the praxis of inculturation with that of liberation in order to achieve an integrative vision for the continent *The Slave Trade and Culture in the Bight of Biafra* G. Ugo Nwokeji, 2010-09-13 The Slave Trade and Culture in the Bight of Biafra dissects and explains the structure dramatic expansion and manifold effects of the slave trade in the Bight of Biafra By showing that the rise of the Aro merchant group was the key factor in trade expansion G Ugo Nwokeji reinterprets why and how such large scale commerce developed in the absence of large scale centralized states The result is the first study to link the structure and trajectory of the slave trade in a major exporting region to the expansion of a specific African merchant group among other fresh insights into Atlantic Africa's involvement in the trade and the most comprehensive treatment of Atlantic slave trade in the Bight of Biafra The fundamental role of culture in the organization of trade is highlighted transcending the usual economic explanations in a way that complicates traditional generalizations about work domestic slavery and gender in pre colonial Africa *African Religion* Laurenti Magesa, 2014-07-30 Describes the moral teachings values norms and principles to follow so that life might be abundant for all of the African religion as it relates to individuals and community **Fire and the Spirits** Rennard Strickland, 1982-09-01 Volume 133 in The Civilization of the Americas Series This book traces the emergency of the Cherokee system of laws from the ancient spirit decrees to the fusion of tribal law ways with Anglo American law The Cherokees enacted their first written law in 1808 in Georgia In succeeding years the leaders and tribal

Muslim traders, Songhay warriors and the Arma Holst, Christian, 2016 This book looks into the interplay between different social groups that existed on the Middle Niger Bend between 1549 to 1660 The groups mainly under scrutiny are Muslim traders and scholars the Ulema and the worldly lords that ran the polities that had laid claim to the region of the Middle Niger Bend first the Askayas then the Arma The changing relationships between these different groups and of individuals within them are analysed within the wider historical background of the rise and fall of the Songhay Empire and the subsequent takeover of the region by the Moroccan Arma that had conquered the heart of the Middle Niger Bend in 1591 This work explores the interaction between the groups through the framework of honour religion and ancestry and traces the initially successful cooperation between rulers traders and scholars to its breakdown and the final social disintegration of the Middle Niger Bend

history economic and business history legal and social history and philosophy The scope and range of its contents are broad references are taken from texts as well as papers published in over 450 journals The Future of Law in a Multicultural World Adda Bruemmer Bozeman,2015-03-08 Examining the unique cultures of the Islamic Middle East sub Saharan Africa Indianized Asia and China Adda Bozeman attacks the supposition that world unity can be achieved through the application of Western ideals of international law and organization Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Imperial Desire Philip Holden,Richard R. Ruppel,2003 **American Sociological Review** ,1936 Includes sections Book reviews and Periodical literature Modern Understandings of Liberty and Property Richard A. Epstein,2013-10-15 First Published in 2000 The materials in this collection are drawn from many disciplines including economics law philosophy and political science Yet they are all directed to a topic that is worthy of examination from multiple perspectives Liberty Property and the Law Stated in this general form this topic is broad as law itself The relationship of liberty and property to the law surfaces whenever and wherever people interact with each other under the command and control of the sovereign This is Volume II of five and concerns the extent to which the state should enforce or override private contracts made by individuals to dispose of their labor or capital These issues did not disappear by the onset of the twentieth century where Volume II picks up Generally speaking however the tools of analysis shifted as the advances in economic theory helped to flesh out the justifications offered for individual liberty and private property on the one hand and their social control on the other Although the nature of the discourse changed to some degree the division of opinion on the proper role of liberty and property remained as sharply contested as it was in earlier times Decentralization and Constitutionalism in Africa Charles M. Fombad,Nico Steytler,2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities Since the end of the Cold War jurisdictions across Africa have witnessed an ostensible return to multi party democracy within the paradigm of constitutionalism and the rule of law Linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes The centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of forms and degrees of decentralization found across Africa It advances a

new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa *Conflict in Africa* Adda Bruemmer Bozeman, 2015-03-08 Do modern Western ideas about the nature of conflict and its resolution apply to Africa To answer this question Adda Bozeman examines conflict in Africa south of the Sahara in its many social political and cultural aspects past and present The author shows how African perspectives on war and diplomacy have evolved under the influence of nonliteracy tribalism and a concept of undifferentiated time In addition she confirms that indigenous cultural traditions are resurgent everywhere making it unlikely that African political values will become more closely aligned with those of the West The two civilizations view conflict differently and have different ways of resolving it The Africans are more at ease with conflict than their Western counterparts and they do not see war and peace as the mutually exclusive phenomena that Occidental societies hold them to be The author concludes that modern Western concepts of conflict not only do not but cannot allow for African realities Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Routledge International Handbook of Rural Criminology** Joseph F Donnermeyer, 2016-04-28 49% of the world's population lives in small towns villages and farms yet until recent years criminological scholarship has focused almost exclusively on urban crimes The Routledge International Handbook of Rural Criminology is the first major publication to bring together this growing body of scholarship under a single cover For many years rural criminology has remained marginalized and often excluded from the mainstream with precedence given to urban criminology this volume intends to address that imbalance Pioneering in scope this book brings together leading international scholars from fourteen different countries to offer an authoritative synthesis of theoretical and empirical literature This handbook is divided into seven parts each addressing a different aspect of rural criminology Rurality and crime Criminological dimensions of food and agriculture Violence and rurality Drug use production and trafficking in the rural context Intersections between rural and green criminology Policing justice and rurality Teaching rural criminology Edited by a world renowned scholar of rural criminology this book explores rural crime issues in over thirty five countries including Japan Sweden Brazil Australia Tanzania the US and the UK This is the first Handbook dedicated to rural criminology and is an essential resource for criminologists sociologists and social geographers engaged with rural studies and crime Catalog of Copyright Entries.
