Military Social Work Around the Globe Mary Ann Forgey, Karen Green-Hurdle, 2022-11-14 This is the first book to focus on the scope of social work practice within military settings from an

international perspective and therefore addresses what has been a significant gap in the literature. Given the critical support needs of military personnel and their families worldwide and the expanding role of social work in responding to these needs, this book offers a comprehensive global understanding of the common military social work (MilSW) practices with active duty military service members and their families, as well as the forms of practice and approaches that are unique or potentially transferable across nations. Based on a systematic inquiry conducted by the Editors, there are at least 25 countries that have social workers working directly within their country's military in either a civilian or uniformed capacity or both. This book includes contributions from experts in Australia, Canada, Denmark, Finland, Ireland, Israel, the Netherlands, New Zealand, South Africa, the UK, and the USA, who describe various aspects of the MilSW role within their country and the research that informs what military social workers do. The MilSW similarities and differences among these countries are highlighted, including developmental milestones, practice settings, practice orientation, and approach, ethical dilemmas, military to veteran transition support, and past and current challenges. Experts from countries that do not yet have MilSW but are interested in developing it (Japan, Ukraine) or are in the process of establishing this area of practice (Slovakia) also contribute chapters about these developments and the evidence base that supports this direction. *Military Social Work Around the Globe* is a valuable resource for social work programs and essential reading for instructors and students in MilSW electives and specializations. It is also pertinent reading for occupational social work and international social work courses. In addition, this book is an important source of information for military social workers who would like to gain insights into existing programs and the possibilities for international collaboration and for countries interested in developing MilSW.

Addressing Anti-Asian Racism with Social Work Advocacy and Action Meirong Liu, Keith Chan, Keith T. Chan, 2024. This book is the first of its kind in examining how social work as a profession can address anti-Asian racism through our mission of providing clinical and community interventions, impacting policy, and advancing advocacy for Asian American and Pacific Islander populations. The contributing authors for this book represent many of the seminal social work scholars, activists, and educators on this topic, and we provide a comprehensive and in-depth investigation on to address anti-Asian racism through social work action.

Pushing Boundaries in Social Work Around the World, Vol. 1 Mark Henrickson, Darla Spence Coffey, 2025-08-02. This book provides examples of how social workers have pushed back against civic and private corporate powers that attempt to control women, children, racialised and stigmatised groups, migrants, and indigenous peoples, and public policy agendas that continue to vulnerabilise and marginalise people. This is the first book of a two-volume set that focuses on how authors have pushed boundaries in a particular field of practice, research, or policy in social work. The books are culturally, gender, and geographically inclusive, with contributors from every inhabited continent. It is future-focused, hopeful, and inspiring; it focuses on solutions rather than merely elaborating problems. The book includes chapters from a continuum of experienced practitioners and early career researchers; this provides a nuanced and accessible view of boundaries from both ends of the

career path The global definition of social work says that the discipline promotes social change and development social cohesion and the empowerment and liberation of people but in many nations where social work exists social workers are expected to act as agents of social control ensuring that people particularly the poor conform to established political and social norms Most often social workers are initially attracted to the discipline because they want to empower and liberate vulnerabilised and marginalised people and communities In order to accomplish these high minded goals social workers must occasionally push boundaries that confine their practice This volume contains eight chapters from social workers who are pushing social work boundaries in their own social and national settings The contents are organised into two clusters pushing boundaries for women and children and pushing boundaries against isms and stigma Each chapter contains learnings that are applicable in different practice settings around the world Pushing Boundaries in Social Work Around the World Vol 1 Women Children and Isms inspires social workers to push against the boundaries we impose on ourselves and our discipline This book helps social workers rediscover the spark that initially drew them to their work
