Children and Families Paul Michael Garrett, 2014-03-01. In recent years a number of child protection scandals have surfaced in which children often from poor and marginalized communities suffer violence, abuse, and social harm. In *Children and Families* the contributors look at the impact of marketization on social work services in both Ireland and England in the context of such scandals. They argue that marketization has had a negative impact on social work policies and practices, reducing the quality and availability of services for vulnerable children and young people. Paul Michael Garrett is then joined by leading researchers from across the globe to examine evidence from a range of policy regimes that highlight marketization's negative effects.

The State of Feminist Social Work Vicky White, 2006-09-27. Social work is currently undergoing major change in its policies, organization, and day-to-day practice, and much has been written about the feminist presence in social work. In particular, feminist social work has focused on the role of women social workers in developing distinctive forms of practice rooted in a commitment to egalitarian relationships with women service users. *The State of Feminist Social Work* challenges the limitations of this perspective. Tracing key ideas in feminist social work from the 1970s through to the present day and using data from interviews with female social workers, this book draws out tensions between the literature and the actual experience of female social workers. In doing so, it highlights the significance for feminists of social work's location in the state, enables the experiences of women social workers to be explored and placed within their structural context, opens up the possibility of diverse identities, identifications, and stances amongst women social workers, critically examines the current state of feminist social work. *The State of Feminist Social Work* provides an important appraisal of the subject and is essential reading for all those with an interest in feminism and social work theory, practice, and education.
