Social History and Issues in Human Consciousness Andrew E. Barnes, Peter N. Stearns, 1989-01-01 Social Histories and Issues in Human Consciousness Andrew Barnes, 1990-09-01 0 **Raising Citizens in the 'Century of the Child'** Dirk Schumann, 2010-09-01 The 20th century declared at its start to be the Century of the Child by Swedish author Ellen Key saw an unprecedented expansion of state activity in and expert knowledge on child rearing on both sides of the Atlantic Children were seen as a crucial national resource whose care could not be left to families alone However the exact scope and degree of state intervention and expert influence as well as the rights and roles of mothers and fathers remained subjects of heated debates throughout the century While there is a growing scholarly interest in the history of childhood research in the field remains focused on national narratives This volume compares the impact of state intervention and expert influence on theories and practices of raising children in the U S and German Central Europe In particular the contributors focus on institutions such as kindergartens and schools where the private and the public spheres intersected on notions of race and ethnicity normality and deviance and on the impact of wars and changes in political regimes **Content Matters** Stephanie M. Religious Differences in France Kathleen Perry Long, 2006-04-01 This volume examines the history of religious dissent and discord in France from the time of the Wars of Religion to the present day Contributors analyze the various solutions elaborated by the government by religious institutions and by private groups in response to the serious problems raised by religious differences This collection of essays also explores the impact these problems and solutions have on religious and national identity and how these issues play out in political and religious life today **The Navigation of Feeling** William M. Reddy, 2001-09-10 In The Navigation of Feeling A Framework for the History of Emotions William M Reddy offers a theory of

emotions which both critiques and expands upon recent research in the fields of anthropology and psychology Exploring the links between emotion and cognition between culture and emotional expression Reddy applies this theory of emotions to the processes of history He demonstrates how emotions change over time how emotions have a very important impact on the course of events and how different social orders either facilitate or constrain emotional life In an investigation of Revolutionary France where sentimentalism in literature and philosophy had promised a new and unprecedented kind of emotional liberty Reddy s theory of emotions and historical change is successfully put to the test **Heaven on Earth** Richard Landes,2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today Children's Early Text Construction Clotilde Pontecorvo,Margherita Orsolini,Barbara Burge,Lauren B. Resnick,2014-02-04 For decades research on children s literacy has been dominated by questions of how children learn to read Especially among Anglophone scholars cognitive and psycholinguistic research on reading has been the only approach to studying written language education Echoing this debates on methods of teaching children to read have long dominated the educational scene This book presents an alternative view In recent years writing has emerged as a central aspect of becoming literate Research in cognitive psychology has shown that writing is a highly complex activity involving a degree of planning unknown in everyday conversational uses of language At the same time developmental studies have revealed that when young children are asked to write they show a surprisingly sophisticated understanding of the representational constraints of alphabetic writing systems They show this understanding long before they can read

conventional writing on their own The rich structure of meanings involved in the word text provided the glue that brought together a group of scholars from several disciplines in an international workshop held in Rome Reflecting the state of the field at the time the majority of the workshop participants were scholars working in languages other than English especially the romance languages Their work mirrors a linguistic and psychological research tradition that Anglophone scholars knew little of until recently This volume provides English language readers with updated versions of the papers presented at the meeting The topics discussed at the workshop are represented in the chapters as follows the relationship between acquisition of language and familiarity with written texts the reciprocal permeability between spoken and written language the initial phases of text construction by children and the educational conditions that facilitate written language acquisition and writing practice

Orality and Literacy in Early Christianity Pieter Botha, 2012-11-01 The history of the Jesus movement and earliest Christianity requires careful attention to the characteristics and peculiarities of oral and literate traditions Understanding the distinctive elements of Greco Roman literacy potentially has profound implications for the historical understanding of the documents and events involved Concepts such as media criticism orality manuscript culture scribal writing and performative reading are explored in these chapters The scene of Greco Roman literacy is analyzed by investigating writing and reading practices These aspects are then related to early Christian texts such as the Gospel of Mark and sections from Paul's letters

Contested Bodies Sasha Turner, 2017-05-05 It is often thought that slaveholders only began to show an interest in female slaves reproductive health after the British government banned the importation of Africans into its West Indian colonies in 1807 However as Sasha Turner shows in this illuminating study for almost thirty years before the slave trade ended Jamaican slaveholders and doctors adjusted slave women's labor discipline and health care to increase birth rates and ensure that infants lived to become adult workers Although slaves' interests in healthy pregnancies and babies aligned with those of their masters enslaved mothers' healers family and community members distrusted their owners' medicine and benevolence Turner contends that the social bonds and cultural practices created around reproductive health care and childbirth challenged the economic purposes slaveholders gave to birthing and raising children Through powerful

stories that place the reader on the ground in plantation era Jamaica *Contested Bodies* reveals enslaved women's contrasting ideas about maternity and raising children which put them at odds not only with their owners but sometimes with abolitionists and enslaved men Turner argues that as the source of new labor these women created rituals customs and relationships around pregnancy childbirth and childrearing that enabled them at times to dictate the nature and pace of their work as well as their value Drawing on a wide range of sources including plantation records abolitionist treatises legislative documents slave narratives runaway advertisements proslavery literature and planter correspondence *Contested Bodies* yields a fresh account of how the end of the slave trade changed the bodily experiences of those still enslaved in Jamaica

The American Family David Peterson del Mar,2011-11-07 Traces the movement from mutualism to individualism in the context of American family life Families survived or even flourished during colonization Revolution slavery immigration and economic upheaval In the past century prosperity created a culture devoted to pleasure and individual fulfilment

Constructing the Adolescent Reader in Contemporary Young Adult Fiction Elisabeth Rose Gruner,2019-05-17 This book examines the way young adult readers are constructed in a variety of contemporary young adult fictions arguing that contemporary young adult novels depict readers as agents Reading these novels suggest is neither an unalloyed good nor a dangerous ploy but rather an essential occasionally fraught by turns escapist and instrumental deeply pleasurable and highly contentious activity that has value far beyond the classroom skills or the specific content it conveys After an introductory chapter that examines the state of reading and young adult fiction today the book examines novels that depict reading in school gendered and racialized reading reading magical and religious books and reading as a means to developing civic agency These examinations reveal that books for teens depict teen readers as doers and suggest that their ability to read deeply critically and communally is crucial to the development of adolescent agency **Cause for Alarm** Amy S.

Greenberg,2014-07-14 Though central to the social political and cultural life of the nineteenth century city the urban volunteer fire department has nevertheless been largely ignored by historians Redressing this neglect Amy Greenberg reveals the meaning of this central institution by comparing the fire departments of Baltimore St Louis and San Francisco from the late eighteenth to the mid nineteenth century Volunteer fire companies protected highly flammable cities from fire and provided many men with friendship brotherhood and a way to prove their civic virtue While other scholars have claimed that fire companies were primarily working class Greenberg shows that they were actually mixed social groups merchants and working men immigrants and native born all found a common identity as firemen *Cause for Alarm* presents a new vision of urban culture one defined not by class but by gender Volunteer firefighting united men in a shared masculine celebration of strength and bravery skill and appearance In an otherwise alienating environment fire companies provided men from all walks of life with status community and an outlet for competition which sometimes even led to elaborate brawls While this culture was fully respected in the early nineteenth century changing social norms eventually demonized the firemen's vision

of masculinity Greenberg assesses the legitimacy of accusations of violence and political corruption against the firemen in each city and places the municipalization of firefighting in the context of urban social change new ideals of citizenship the rapid spread of fire insurance and new firefighting technologies Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Rapture Culture Amy Johnson Frykholm, 2004-03-04 In the twinkling of an eye Jesus secretly returns to earth and gathers to him all believers As they are taken to heaven the world they leave behind is plunged into chaos Cars and airplanes crash and people search in vain for loved ones Plagues famine and suffering follow The antichrist emerges to rule the world and to destroy those who oppose him Finally Christ comes again in glory defeats the antichrist and reigns over the earth This apocalyptic scenario is anticipated by millions of Americans These millions have made the Left Behind series novels that depict the rapture and apocalypse perennial bestsellers with over 40 million copies now in print In Rapture Culture Amy Johnson Frykholm explores this remarkable phenomenon seeking to understand why American evangelicals find the idea of the rapture so compelling What is the secret behind the remarkable popularity of the apocalyptic genre One answer she argues is that the books provide a sense of identification and communal belonging that counters the social atomization that characterizes modern life This also helps explain why they appeal to female readers despite the deeply patriarchal worldview they promote Tracing the evolution of the genre of rapture fiction Frykholm notes that at one time such narratives expressed a sense of alienation from modern life and protest against the loss of tradition and the marginalization of conservative religious views Now however evangelicalism's renewed popular appeal has rendered

such themes obsolete Left Behind evinces a new embrace of technology and consumer goods as tools for God's work while retaining a protest against modernity's transformation of traditional family life Drawing on extensive interviews with readers of the novels Rapture Culture sheds light on a mindset that is little understood and far more common than many of us suppose

Functional Literacy Ludo Verhoeven, 1994-04-14 The purpose of the volume is to open up new perspectives in the study of literacy by bringing together current research findings from linguistics psychology sociology and anthropology The book divides into five parts The first part deals with theoretical questions related to the definition and the modeling of the construct of functional literacy The second part goes into the notion of literacy development Both societal and individual aspects of literacy development are taken into account In the next two parts the actual achievement of literacy in various regions of the world is dealt with In part 3 the focus is on attaining literacy in developing societies and in part 4 on attaining literacy in industrialized societies In the final part the question is raised how functional literacy can be promoted through education Starting from a cross cultural perspective the central issue is how standards of functional literacy can be established throughout the world

City on the Ocean Sea: La Rochelle, 1530-1650 Kevin C. Robbins, 2021-10-11 This important volume presents the first comprehensive history of early modern La Rochelle a port town whose fractious residents became embroiled in the French Reformations Opening chapters situate the Rochelais within the geopolitics of an oceanic frontier where urbanites created a strong heavily armed civic government in part because they perceived themselves as isolated civilizing agents surrounded by the savage inhabitants of a lawless environment Analysis of the city's Reformation proceeds within this context of place and politics showing how various ranks of the citizenry idiosyncratically adopted the tenets of Calvinism amalgamating these salvific doctrines with traditional civic rites and values to the consternation of more orthodox pastors Juxtaposing serial sources from multiple archives Robbins shows with innovative detail how local political and religious struggles intermeshed setting the city and its Reformed congregations on a fatal collision course with the Bourbon monarchy Concluding chapters examine how great aristocratic families churchmen and Catholic magistrates joined in a local Counter Reformation remaking urban power politics from the ground up
