The Institutional Framework of Russian Serfdom Tracy Dennison, 2011-04-28 Russian rural history has long been based on a Peasant Myth originating with nineteenth century Romantics and still accepted by many historians today In this book Tracy Dennison shows how Russian society looked from below and finds nothing like the collective redistributive and market averse behaviour often attributed to Russian peasants On the contrary the Russian rural population was as integrated into regional and even national markets as many of its west European counterparts Serfdom was a loose garment that enabled different landlords to shape economic institutions especially property rights in widely diverse ways Highly coercive and backward regimes on some landlords estates existed side by side with surprisingly liberal approximations to a rule of law This book paints a vivid and colourful picture of the everyday reality of rural Russia before the 1861 abolition of serfdom

Power(s), Serve the State Michael J. Braddick, Juan Carlos Garavaglia, Christian Lamouroux, 2016-06-22 The companion volume to *Latin American Bureaucracy State and the State Building Process 1780 1860* 2013 this book examines the organization and the consolidation of various groups including judicial officers and tax agents administrative clerks and soldiers and merchants and money lenders acting to create or reacting to ruin in the case of the collective resistance to taxes newly emergent forms of social and political power Chapters range across Latin America and the United States Spain Modern England Russia India and the Far East and the longue dur e of Eurasian history 12th 19th centuries They reveal that beyond the general impact of kinship networks different processes resulted in the consolidation of a new authority based on specialized knowledge and professionalization The importance attached to the role played by these new servants by imperial royal or feudal courts led to new forms of recruitment new procedures of evaluation and the regularization of daily work It also led to the establishment of new hierarchies and to the reinforcement of the identity of these various groups who were aggregating to defend shared interests develop alliances create methods of intervention and define fields of expertise In this respect the concept of State is revisited here as a diverse and locally varied process grounded on differing historical experiences but which produced similar public officers who saw themselves as powerful servants managing a part of the public authority

Jews and Ukrainians in Russia's Literary Borderlands Amelia Glaser, 2012-02-22 Studies of Eastern European literature have largely confined themselves to a single language culture or nationality In this highly original book Glaser shows how writers working in Russian Ukrainian and Yiddish during much of the nineteenth century and the early part of the twentieth century were in intense conversation with one another The marketplace was both the literal locale at which members of these different societies and cultures interacted with one another and a rich subject for representation in their art It is commonplace to note the influence of Gogol on Russian literature but Glaser shows him to have been a profound influence on Ukrainian and Yiddish literature as well And she shows how Gogol must be understood not only within the context of his adopted city of St Petersburg but also that of his native Ukraine As Ukrainian and Yiddish literatures developed over this period they were shaped by their geographical and cultural position on the margins of the Russian Empire As distinctive as these writers may seem from one another they are further illuminated by an appreciation of their common relationship to Russia Glaser's book paints a far more complicated portrait than scholars have traditionally allowed of Jewish particularly

Planting Parliaments in Eurasia, 1850-1950 Ivan Sablin, Egas Moniz Bandeira, 2021-05-30 Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision making in Eurasia Breaching the divide between different area studies the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe including the former Russian Ottoman Qing and Japanese Empires as well as their successor states In particular it explores the appeals to concepts of parliamentarism deliberative decision making and constitutionalism historical practices related to parliamentarism and political mythologies across Eurasia It focuses on the historical and reestablished institutions of decision making which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts Thereby the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780367691271> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 licence *Secular Cycles* Peter Turchin, Sergey A.
