Social Issues for Carers Richard Webb, David Tossell, 1999 The new edition of this textbook addresses many of the key issues concerning social care and social work The authors focus on social inequality within British society looking in particular at the controversies surrounding the social issues of discrimination against certain individuals and discusses positive ways of combating the marginalization and oppression of some social groups Each topic is investigated from the point of view of their role in the wider context of society as a whole Anti-Oppressive Practice Jane Dalrymple, Beverley Burke, 2006-12-16 Praise for the new edition This revised text should be read by all practitioners in health and social care settings who supports people with complex needs and who aim to promote anti oppressive and person centred practice A variety of activities is presented in each chapter to stimulate readers to reflect on the cases and concepts under discussion This text represents a valuable companion for professionals involved in learning disability practice Learning Disability Practice This new edition proves to be a substantial updating of the 1995 edition The coverage is analytical and clearly related to anti oppressive practice It is important to persuade students of the necessity of action to put their values into practice this book is a real boon and should be required reading up and down the country Mark Baldwin University of Bath In the new edition of this bestselling text the authors challenge the notion that anti oppressive practice has lost its potency or become commodified into a professional response to inequalities Retaining a commitment to the principles and values of anti oppressive practice discussion about contemporary practice is guided by a critical understanding of personal values and the context of practice Some key questions are explored How is anti oppressive practice relevant in contemporary practice How can the law be used as an empowering tool How can the law be used to develop and inform anti oppressive practice The second edition is substantially revised and updated to take account of policy and legislative changes with a new chapter addressing critical practice in social work as well as additional activities chapter summaries and further reading at the end of each chapter The authors draw on their own experiences and those of practitioners service users and carers to understand issues of power and oppression demonstrating how the law can be used to inform the development of critical anti oppressive practice The book therefore points the way to practice that is both empowering to service users and ultimately liberating for practitioners Anti Oppressive Practice is an essential text for students practitioners lecturers service users and carers

Social Work Practice in Pediatric Palliative and End-of-Life Care Barbara Jones, 2016-01-22 As an essential and emerging practice, pediatric palliative care seeks to prevent and relieve suffering for children with life-threatening conditions. Palliative care teams are composed of providers of various disciplines, including social workers, who collaborate to address the medical, social, emotional, and spiritual needs of the child and their families. Social workers are especially accustomed to interdisciplinary care and may counsel, provide resources, facilitate communication, and promote person and family-centered practices that are the basis of effective pediatric palliative care. This book presents practice strategies, experiential knowledge, and research related to practicing in collaborative teams, ICU settings, and hospice. It also presents research that is informed by the perceptions and perspectives of bereaved parents, parents who have suffered a stillbirth, and parent caregivers of children with life-limiting illness. This book highlights the unique role social workers play within care teams and in relationship with children who have life-limiting illness and their families. This book was originally published as a special issue of the *Journal of Social Work in End of Life Palliative Care*.
