Social Security In Transition

Social Security In Transition:

Reforming Social Security Charles P. Blahous, 2000-08-30 Blahous contends that Social Security is ill equipped to withstand the effects of an aging population and will impose excessive tax burdens upon future Americans unless its course is changed Far from a doomsday tract however the book provides instances of proposals that would satisfactorily avert this course if only the political will is mustered to implement them Blahous argues for the program developed by the National Commission on Retirement Policy but also offers positive descriptions of plausible alternatives as well as unsparing criticism of those who would cook the books in defense of either current law or high cost alternatives Reforming Social Security is sure to disturb ideologues from all parts of the political spectrum because of its frank willingness to expose the costs of different approaches as well as the self interest so often pursued by interest groups political actors and Social Security experts An important analysis for the general public as well as policy makers and others concerned with social security issues

Transformation of Pension Systems in Central and Eastern Europe Winfried Schmohl, Sabine Horstmann, 2002-06-26 Given the highly specialised subject matter which so easily degenerates into rather tedious calculations this book is really amazingly interesting and competently executed The late Mark Blaug formerly of the University of London and University of Buckingham UK **Social Security Reform Options** United States. current system to one based on mandatory saving in individual accounts

Welfare States in Transition Gøsta

Esping-Andersen,1996-05-21 This wide ranging comparative analysis of contemporary and future changes in welfare states looks at the different trajectories of the welfare states of Europe North America the Antipodes and the emerging scenarios in Latin America East Asia and Central and Eastern Europe Leading experts on each of these regions examine the current structures of social protection consider the causes of the current welfare state crisis and highlight evolving trends for welfare policy Different welfare states are shown to manifest different forms of crisis Among the symptoms of crisis Welfare States in Transition suggests that the effect of population ageing is exaggerated and an at least equally fundamental challenge lies in the revolution of the modern family and the changing economic role of women The contributors are sceptical about the neo liberal formula for reform not only because it increases inequality but also because it does not address the growing need for an active social investment policy to ensure against entrapment in poverty or low paid jobs
