On Social Structure and Science Robert K. Merton, 1996-09-15 Robert K Merton is unarguably one of the most influential sociologists of his time A figure whose wide ranging theoretical and methodological contributions have become fundamental to the field Merton is best known for introducing such concepts and procedures as unanticipated consequences self fulfilling prophecies focused group interviews middle range theory opportunity structure and analytic paradigms This definitive compilation encompasses the breadth and brilliance of his works from the earliest to the most recent Merton's foundational writings on social structure and process on the sociology of science and knowledge and on the discipline and trajectory of sociology itself are all powerfully represented as are his autobiographical insights in a fascinating coda Anchored by Piotr Sztompka's contextualizing introduction Merton's vast oeuvre emerges as a dynamic and profoundly coherent system of thought a constant source of vitality and renewal for present and future sociology

Agency and Structure (RLE Social Theory) Piotr Sztompka, 2014-08-21 A striking feature of the human condition is its dual contradictory inherently split character on the one hand autonomy and freedom on the other constraint and dependence on social structure This volume addresses this central problem of the linkage between human action and social structure in sociological and social science theory Contributions cover several different approaches to the agency structure problematic and represent the work of a number of leading international sociologists Their efforts point to a reorientation of social theory both on philosophical and methodological levels

in the social structure of right and wrong *Emotion, Social Theory, and Social Structure* J. M. Barbalet, 2001-09-06
Emotion Social Theory and Social Structure takes sociology in a new direction It examines key aspects of social structure by using a fresh understanding of emotions categories Through that synthesis emerge new perspectives on rationality class structure social action conformity basic rights and social change As well as giving an innovative view of social processes J M Barbalet s study also reveals unappreciated aspects of emotions by considering fear resentment vengefulness shame and confidence in the context of social structure While much has been written on the social consequences of excessive or pathological emotions this book demonstrates the centrality of emotions to routine operations of social interaction Dr Barbalet also re evaluates the nature of social theory for once the importance of emotions to social processes becomes clear the intellectual constitution of sociology and therefore its history must be rethought **Social Theory and Social**

Layder, 2014-08-21 A central problem in contemporary social theory is that of providing an account of social interaction that does justice both to the self monitoring capacities of the individuals involved and to the society that frames the interaction This book attempts to resolve this problem arguing for an objectivist or structuralist account which does not undervalue the importance of the indexical and negotiated aspects of interaction and which takes seriously the Marxist rationalist critique of empiricism and humanism and the associated idea that society should be treated as a supra individual preconstituted and constraining object of scientific analysis First Dr Layder pinpoints certain of the strengths and weaknesses of various schools of thought social psychology scrutinized in both its sociological and psychological forms sociology the Marxist rationalist approach Whilst rejecting the mechanistic or naively deterministic theories which are often associated with an objectivist stance he argues that the productive activities of situated actors must be understood as existing in an articulated relationship with and within sets of preconstituted contextual constraints This thesis is illustrated conceptually by the development of a framework which distinguishes two types and levels of social structure with different modes of production and reproduction and empirically by an analysis of aspects of interaction in the occupation of acting Social Theory and Social Structure

R.K. Merton, 1960 **Social Theory of Modern Societies** David Held, John Brookshire Thompson, John B.

Thompson, 1989-12-07 This book offers a comprehensive appraisal of the work of Anthony Giddens who is known worldwide as one of the leading figures in social theory and the social sciences During the last decade Giddens has published a series of substantial volumes which have defined a distinctive and original theoretical approach The twin focal points of his approach are the theory of structuration and the analysis of modernity Giddens s writings on these and related themes are widely recognized as among the most important contributions to theoretical debate in the social sciences Social Theory of Modern Societies is the first volume to provide a systematic and critical assessment of Giddens s contributions The volume includes

eleven critical essays all of which were specially commissioned for this volume by authors who are well known in their own fields Zygmunt Bauman Richard J Bernstein Derek Gregory Nicky Gregson David Held Bob Jessop Linda Murgatroyd Peter Saunders Martin Shaw John B Thompson and Erik Olin Wright In a long concluding chapter Anthony Giddens responds to the criticisms raised by these and other authors clarifying and elaborating his current views The result is a unique and engaging book which gives both a critical evaluation of Giddens's work and a guide to some of the theoretical issues which are at the forefront of the social sciences today It will be of interest to students and academics in sociology politics and geography and to students in the social sciences and humanities generally The Structure of Social Theory Anthony King, 2004-08-02

Drawing on the work of Gadamer the book demonstrates that a sociology which focuses on social relations does not imply a return to idealism nor a retreat into individualism nor a rejection of critique Rather a hermeneutic sociology which prioritises human social relations is the only coherent paradigm which is available today The author argues that sociologists studying the dramatic social transformations which are currently occurring should focus on social relations between humans they should not attempt to understand contemporary changes in terms of structure and agency **Robert K Merton &**

Contemp Robert King Merton, Carlo Mongardini, Simonetta Tabboni, This volume offers scholars of sociology and allied areas the fruits of an international conference on the contributions of the eminent Robert K Merton The assessment as good in content as well as in participants took place in Amalfi Italy with the participation of Merton himself and under the auspices of the Italian Sociology Association Handbook of Sociological Theory Jonathan H. experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory
