Focuses on the state's efforts to industrialize Myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948-88 and lately 1989 onwards through state managed outward orientation. **India and South Asia** David Ludden, 2013-11-01. A completely revised edition offering insight into the key economic, social and political developments that have shaped both the individual countries of South Asia and region as a whole. Combining factual information with a critical approach which probes the nature of culture and identity, this concise yet authoritative account paints a graphic picture of an area stretching from the Indian Ocean to the Himalayan mountains. This new edition surveys nearly 5000 years from the early settlers of prehistory to the assassination of Rajiv Gandhi and the Tamil Tiger conflicts. Particular emphasis is placed on the last 200 years while the key theme of shifting regional identities underpins its insights into the social, economic and spiritual past of the region. **Foreign Relations of the United States** United States. Department of State, 1958. **South Asia's Modern History** Michael Mann, 2014-10-24. This comprehensive history of modern South Asia explores the historical development of the Subcontinent from the beginning of the eighteenth century to the present day from local and regional as opposed to European perspectives. Michael Mann charts the role of emerging states within the Mughal Empire, the gradual British colonial expansion in the political setting of the Subcontinent and shows how the modern state formation usually associated with Western Europe can be seen in some regions of India, linking Europe and South Asia together as part of a shared world history. This book looks beyond the Subcontinent's post colonial history to consider the political, economic, social and cultural development of Pakistan and Bangladesh as well as Sri Lanka and Nepal and to examine how these developments impacted the region's citizens. South Asia's Modern History begins with a general introduction which provides a geographical, environmental and historiographical overview. This is followed by thematic chapters which discuss Empire Building and State Formation, Agriculture and Agro Economy, Silviculture and Scientific Forestry, Migration, Circulation and Diaspora, Industrialisation and Urbanisation and Knowledge Science Technology and Power, demonstrating common themes across the decades and centuries. This book will be perfect for all students of South Asian history. **Political Science Abstracts**, 2013-03-07. APAIS 1999: Australian public affairs information service , Apostles of Development David C. Engerman, 2025-05-30 The battle against global poverty that began after World War II was a major undertaking engaging economists engineers and organizations Featuring front and centre were six remarkable economists Amartya Sen Manmohan Singh Mahbub ul Haq Jagdish Bhagwati Rehman Sobhan and Lal Jayawardena all born as colonial subjects in the British Empire and studied at Cambridge University They represented a new figure on the world scene the Third World development expert and played a crucial role in global debates about poverty and development *Apostles of Development* examines their different economic doctrines and the ongoing debate surrounding economic theory in poor countries compared to rich ones The lives of these apostles reveal how development did not begin with textbooks but with real world attempts to solve very specific and pressing problems Finally the book emphasizes that development was a Global South project first and foremost aiming to improve the conditions of the world's poorest countries It challenges the conventional wisdom that sees development only as a tool of rich countries to dominate or as proof of their humanitarian spirit It argues that development succeeds not when it follows ideological prescriptions but when it looks for what works The fading of grand visions shaped by ideological concerns has been one of the lasting effects of the end of the Cold War The book argues that the best way forward is determined modesty focusing on practical matters such as addressing gross inequality and insisting that development means more than

just economic growth Given the salience of questions of economic inequality and the constant visibility of the promises and problems of economic development in the world today this is a timely and important read *South Asia's Turn* Gladys Lopez-Acevedo, Denis Medvedev, Vincent Palmade, 2017-05-23 South Asia has a huge need to create more and better jobs for a growing population especially in the manufacturing industries where it is underperforming as compared to East Asia The report examines three critical and relatively understudied drivers of competitiveness Economies of agglomeration firms and workers accrue benefits from locating close together in cities or clusters through urbanization and localization Participation in global value chains stronger competitive pressures weed out least productive firms while others improve by gaining access to new knowledge and better inputs Firm capabilities in order to operate close to what would be considered optimum efficiency levels given the prevailing factor prices and thus employ South Asia's abundant labor The report shows that South Asia has great untapped competitiveness potential Realizing this potential would require the governments in the region to pursue second generation trade policy reforms for firms to better contribute to and benefit from global value chains e.g. facilitating imports for exporters to facilitate the development of industrial clusters in secondary cities cheaper and less congested than the metros as well as to deploy policies to improve the capabilities of firms South Asia in the Era of Globalization Mita Bhattacharya, 2004 The South Asian economies constitute the largest and most densely populated region of the world With an estimated 1.4 billion plus people this is a larger market area than China This volume addresses South Asia's opening up and attempts to integrate into the global economy The volume is unique among existing offerings on South Asia in that it covers the dynamics of structural adjustments due to globalisation focusing on the development and welfare aspects of the region The contributions by a broad range of international experts from the disciplines of banking and finance economics management and political science are informed by three central themes The three themes are industry reforms and market adjustment economic performance and the effects on globalisation on specific industries and economic development poverty and welfare issues The volume adopts a broad interdisciplinary approach to these issues and will appeal to readers from across the business disciplines **Library of Congress Catalogs** Library of Congress, 1960 Modern South Asia Sugata Bose, Professor of History and Diplomacy Director Center of South Asian and Indian Ocean Studies Sugata Bose, Associate Professor History Ayesha Jalal, Ayesha Jalal, 2004-07-31 The South Asian subcontinent is home to nearly a billion people and has been the site of fierce historical contestation It is a panoply of languages and religions with a rich and complex history and culture Drawing on the newest and most sophisticated historical research and scholarship in the field *Modern South Asia* is written in an accessible style for all those with an intellectual curiosity about the region After sketching the pre-modern history of the subcontinent the book concentrates on the last three centuries from c. 1700 to the present Jointly written by two leading Indian and Pakistani historians it offers a rare depth of historical understanding of the politics cultures and economies that shape the lives of more than a fifth of humanity In this comprehensive study the authors debate

and challenge the striking developments in contemporary South Asian history and historical writing The book provides new insights into the structure and ideology of the British raj the meaning of subaltern resistance the refashioning of social relations along lines of caste class community and gender the different strands of anti colonial nationalism and the dynamics of decolonization This book is a work of synthesis and interpretation covering the entire spectrum of modern South Asian history social economic and political The authors offer an understanding of this strategically and economically vital part of the world

**Comrades against Imperialism** Michele L. Louro, 2018-03-01 In this book Michele L Louro compiles the debates introduces the personalities and reveals the ideas that seeded Jawaharlal Nehru's political vision for India and the wider world Set between the world wars this book argues that Nehru's politics reached beyond India in order to fulfill a greater vision of internationalism that was rooted in his experiences with anti imperialist and anti fascist mobilizations in the 1920s and 1930s Using archival sources from India the United States the United Kingdom the Netherlands Germany and Russia the author offers a compelling study of Nehru's internationalism as well as contributes a necessary interwar history of institutions and networks that were confronting imperialist capitalist and fascist hegemony in the twentieth century world Louro provides readers with a global intellectual history of anti imperialism and Nehru's appropriation of it while also establishing a history of a typically overlooked period

**East Central Europe and the former Soviet Union** Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region

**South Asia in World History** Marc Jason Gilbert, 2017-03-10 This book explores how world historical processes from changes in environment to the movement of peoples and ideas have shaped and continue to shape the history of South Asia and its place in the wider world As the region has continually proved able to draw inspiration from its traditional patterns of life to innovate in the face of rapid change has been severely tested over the centuries by forces as varied as colonialism to religious fundamentalism so too has it influenced the wider world

**A Brief History of Now** Diego Olstein, 2021-10-12 Exploring the rise and fall of global power from the mid nineteenth century this book tracks the long and interrelated trajectories of the most serious challenges facing the world today Although at first the urgency of the coronavirus outbreak in 2020 seemed to take precedence over other global problems such as socioeconomic inequality and climate change it has ultimately exacerbated these issues and created opportunities to address them boldly and innovatively A Brief History of Now provides a bird's eye view of world hegemony economic globalization and political regimes as they have evolved and developed over the last two hundred years providing context and insights into the forces which have shaped the Western world Presented in an accessible and engaging narrative the book addresses key contemporary challenges and explores the repercussions of a technological revolution the potential instability of democracy

over the coming years and the urgent struggle to tackle climate change With his book Diego Olstein helps to answer pressing questions about our world today and provides a roadmap for analysing future trajectories
