

MACROSOCIOLOGY

Macrosociology is a sub-field of sociology. "Macro" means "large"; thus, the term describes the analysis of large-scale social phenomena.

DEFINITION

"Macrosociology deals with large-scale, long-term social processes, phenomena, and structures, such as social change, stratification, or the capitalist world economy" (Boatca, 2007).

COMMON CONCERNS

- ① Economies
- ② Social change
- ③ Globalized cultures
- ④ Multinational groups
- ⑤ Political organizations
- ⑥ Religions

Societal Dynamics Exploring Macrosociology Study Guide

George Ritzer, Jeffrey Stepnisky

Sociological Theory George Ritzer,Jeffrey Stepnisky,2017-01-05 Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Tenth Edition of Sociological Theory by George Ritzer and Jeffrey Stepnisky gives readers a comprehensive overview of the major theorists and schools of sociological thought from sociology's origins through the early 21st century Key theories are integrated with biographical sketches of theorists and are placed in their historical and intellectual context This text helps students better understand the original works of classical and modern theorists and enables them to compare and contrast the latest substantive concepts New to this Edition Chapter 1 now includes a discussion of colonialism as one of the

forces that shaped modern society The Historical Sketch chapters contain new material on the historical significance of early women founders and on the contributions of W E B Du Bois Chapters on Marx Durkheim Weber and Simmel now conclude with sections on contemporary applications of ideas from these 19th century thinkers A new chapter focuses theories of race racism and colonialism as well as theories about indigenous peoples and theories from the Global South that challenge the work of scholars from Europe and North America The concluding chapter has a new section on theories of prosumption one of the newest developments in consumer theory New material on colonization women classical theorists and race theory as well as new timelines added to history chapters

Deviance and Social Control: A Sociological Perspective Michelle Inderbitzin, Kristin A. Bates, Randy R. Gailey, 2013 A target blank href <http://www.sagepub.com/inderbitzin>  width 75 height 20 A *Deviance and Social Control: A Sociological Perspective* serves as a guide to students delving into the fascinating world of deviance for the first time offering clear overviews of issues and perspectives in the field as well as introductions to classic and current academic literature The unique text reader format provides the best

Handbook of the Sociology of Emotions: Volume II Jan E. Stets, Jonathan H. Turner, 2014-08-18 Handbook of the Sociology of Emotions Volume II presents all new chapters in the ever developing area of the sociology of emotions The volume is divided into two sections Theoretical Perspectives and Social Arenas of Emotions It reviews major sociological theories on emotions which include evolutionary theory identity theory affect control theory social exchange theory ritual theory and cultural theory among others Social arenas where emotions are examined include but are not limited to the economy and the workplace the family mental health crime sports technology social movements and the field of science All the chapters review the major theories and research in the area and each chapter ends with some discussion of directions for future research The Sociology of Emotions is a fast growing and vital field in the broad discipline of Sociology This volume II follows the Handbook of the Sociology of Emotions which was first published in 2006 In 2008 this first handbook received the Outstanding Recent Contribution in the Emotions Section of the American Sociological Association With contributions from leading scholars from different areas in the discipline such as neurosociology culture economics mental health gender social movements discussing state of art theory and research on emotions in sociology this volume will generate wider appeal to the sociological community

The Sociology of Science Robert K. Merton, 1973 The exploration of the social conditions that facilitate or retard the search for scientific knowledge has been the major theme of Robert K Merton's work for forty years This collection of papers is a fascinating overview of this sustained inquiry There are very few other books in sociology with such meticulous scholarship or so elegant a style This collection of papers is and is likely to remain for a long time one of the most important books in sociology Joseph Ben David New York Times Book Review The novelty of the approach the erudition and elegance and the unusual breadth of vision make this volume one of the most important contributions to sociology in general and to the sociology of science in particular

Merton's *Sociology of Science* is a magisterial summary of the field. Yehuda Elkana, *American Journal of Sociology*. Merton's work provides a rich feast for any scientist concerned for a genuine understanding of his own professional self. And Merton's industry, integrity and humility are permanent witnesses to that ethos which he has done so much to define and support. J. R. Ravetz, *American Scientist*. The essays not only exhibit a diverse and penetrating analysis and a deal of historical and contemporary examples with concrete numerical data but also make genuinely good reading because of the wit, the liveliness and the rich learning with which Merton writes. Philip Morrison, *Scientific American*. Merton's impact on sociology as a whole has been large and his impact on the sociology of science has been so momentous that the title of the book is apt because Merton's writings represent modern sociology of science more than any other single writer. Richard McClintock, *Contemporary Sociology*.

Interkulturelles Marketing Claudia Mennicken, 2013-09-03 Claudia Mennicken entwickelt einen konzeptionellen Bezugsrahmen für ein interkulturelles Marketingmanagement und konstruiert eine Kulturkonzeption, die die Wirkungszusammenhänge zwischen Kultur, Konsumverhalten und Marketing systematisch erfasst.

The Handbook of Political Economy of Communications Janet Wasko, Graham Murdock, Helena Sousa, 2014-03-03 Over the last decade political economy has grown rapidly as a specialist area of research and teaching within communications and media studies and is now established as a core element in university programmes around the world. The Handbook of Political Economy of Communications offers students and scholars a comprehensive, authoritative, up-to-date and accessible overview of key areas and debates. Combines overviews of core ideas with new case study materials and the best of contemporary theorization and research. Written by many of the best known authors in the field. Includes an international line-up of contributors drawn from the key markets of North and Latin America, Europe, Australasia and the Far East.

Sociology of Crisis Myrto Tsilimpounidi, 2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow, globalisation. In the European context, crisis is seen as a threat to the stability of the region rather than a local or national concern. Post-2008 crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit. In this book, Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss, deprivation and increased vectors of marginalisation. Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the level of the European Union, *Sociology of Crisis* takes an approach that is firmly located within a critical sociological appeal to reflexivity. A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level, this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology, social policy, geography, urban studies and research methods, social science.

Handbook of the Sociology of Emotions Jan Stets, Jonathan H. Turner, 2007-02-25 For almost thirty years sociologists have increasingly theorized about and

conducted research on human emotions Surprisingly it was not until the 1970s that the sociology of emotions emerged as a coherent field of inquiry What makes this late date surprising is that it is now obvious that human behavior interaction and organization are driven by emotions It was an immense oversight for emotions to be de emphasized in sociological theorizing and research for most of its 175 year history Since the 1970s however the study of emotions has accelerated and is now at the forefront of sociological analysis This book is designed to bring the reader up to date on the theory and research traditions that have proliferated in the analysis of human emotions Key figures who have carried the sociology of emotions to its current level of prominence review their own work and the work of others who have made contributions to a particular approach to the study of emotions The outcome is a comprehensive book that serves as a primer on the cutting edge of sociological work in what is obviously a key dynamic in human affairs The first section of the book addresses the range of emotions and how they can be classified the neurological underpinnings of emotions and the effect of gender on emotions The second section reviews the prominent sociological theories of emotions including theories emphasizing power and status rituals identity and self psychoanalytic dynamics exchange expectation states and evolution While there is little integration among these theories this state of affairs will not last forever The third section addresses theory and research on specific emotions such as love jealousy and envy empathy sympathy anger grief and the moral emotions While this list does not exhaust the range of human feeling they are central emotions that drive human behavior interaction and social organization The last section explores how the study of emotions has added new insight into other subfields within sociology such as the study of the workplace health and social movements These chapters illustrate how the sociology of emotions can provide new research and theory for the large numbers of specialties within sociology Although no book can completely cover a field even a relatively new one like the sociology of emotions this Handbook of the Sociology of Emotions comes close to being comprehensive The reader will come away with a greater appreciation for how far the sociology of emotions has developed and prospered over the last thirty years

Reader's Guide to the History of Science Arne Hessenbruch, 2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn

Encyclopedia of Social Theory George Ritzer, 2004-08-11 Click Additional Materials for downloadable samples The Encyclopedia of Social Theory is an indispensable reference source for anyone interested in the roots of contemporary social theory It examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses Theories covered include Critical Theory Enlightenment Ethnomethodology Exchange Theory Feminism Marxist Theory Multiculturalism Phenomenology Postmodernism Rational Choice Structural Fundamentalism Led

by internationally renowned scholar George Ritzer the Encyclopedia of Social Theory draws together a team of more than 200 international scholars covering the developments achievements and prospects of social theory from its inception in the 18th century to the present Understanding that social theory can both explain and alter the social world this two volume set serves as not only a foundation for learning but also an inspiration for creative and reflexive engagement with the rich range of ideas it contains Key Themes American Social Theory British Social Theory Comparative and Historical Theory Cultural Theory Economic Sociology Feminist Theory French Social Theory German Social Theory Macrosociological Theories Marxist and Neo Marxist Approaches Method and Metatheory Network and Exchange Theories Other Multiple National Traditions Politics and Government Postmodern Theory Psychoanalytic Theory Schools and Theoretical Approaches Symbolic Interaction and Microsociology Theorists Topics and Concepts in Social Theory Key Features More than 300 entries from fourteen countries Master Bibliography Reader s Guide Extensive biographical coverage of major theorists Extensive cross referencing
