Society Must Be Defended Michel Foucault, 2020-08-06 Society Must Be Defended is taken from a series of lectures given by Foucault at the College de France in 1975-76 Using war to analyse power relations he contends that politics is ultimately a continuation of battlefield violence and that ingrained ideas of sovereignty and individual rights are attempts to refute the fact that all power relations are based on domination Coloured with brilliant historical examples Foucault draws from many periods in both England and France with wonderful digressions into subjects as diverse as classical French tragedy and the gothic novel

**"Society Must Be Defended"** Michel Foucault, 2004-03-27 This text is a full transcript of the lectures given by Michel Foucault at the College de France in 1975-76 The main theme of the lectures is the contention that war can be used to analyze power relations Foucault contends that politics is a continuation of war by other means Thus any constitutional theory of sovereignty and right is an attempt to refute the fact that power relations are based upon a relationship of conflict violence and domination

**Cosmopolitan Government in Europe** Owen Parker, 2013-04-26 The invocation of the market has been omnipresent in media discussions of crisis Europe On the one hand the market is presented as that to which EU member states must collectively respond It is the very purpose of a post national government and that which dictates individual and collective identities The expansion of market is that which guarantees and constitutes peace in Europe On the other hand the market is that which government must seek to tame It is the servant of government and ought not be permitted to undermine collective identities and solidarities associated with the juridical imaginary of social contract and sovereign nation state It is from this perspective the expansion of the social institutions of nation state into the post national arena that will constitute a lasting peace in Europe Cosmopolitan Government in Europe uses a Foucauldian lens to consider the ethics of the scholarly and institutional discourses associated with these apparently divergent market and legal cosmopolitan visions of Europe It reflects on attempts to reconcile or move beyond these discourses particularly through the invocation of more pluralist modes of governance but claims that such moves have been largely unsuccessful in both practice and theory It argues that the very ambiguity in the relationship between the ideal subjects that these market and legal visions promote respectively post national entrepreneur and citizen is that which permits a space for resistance and politics Thus the book argues for a pragmatic politics which is cognizant of the violent potential inherent in any cosmopolitan attempt to govern Europe while recognising the contemporary dangers associated with the dominance of a market cosmopolitan Europe This work is an important and timely intervention in contemporary debates about democratic Europe and its shortcomings and will be of great interest to scholars of international political theory European studies and international political economy

Godley, 2018-02-01 Anthology of recent cutting edge work in psychoanalysis and philosophy on the concept of inheritance In contrast to the way inheritance is understood in scientific discourse and culture more broadly inheritance in psychoanalysis is a paradox Although it's impossible strictly speaking for the unconscious to be inherited this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice The collection enacts a critical traversal of inheritance for psychoanalysis from the most basic assumptions of natural or biological inheritance such as innateness heredity evolution and ontogenesis to analysis of the ways cultural traditions can be challenged and transformed and finally to the reinvention of psychoanalytic practice in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond Featuring strong interdisciplinary analysis rooted in both

psychoanalysis and philosophy this volume further engages science politics and cultural studies and addresses contemporary political challenges such as autism and transgenderism
