Society Online The Internet In Context:

Society Online Philip N. Howard, Steve Jones, 2004 Within the developed world much of society experiences political economic and cultural life through a set of communication technologies barely older than many citizens Society Online The Internet in Context examines how new media technologies have not simply diffused across society but how they have rapidly and deeply become embedded in our organizations and institutions Society Online is not exclusively devoted to a particular technology or specifically the Internet but to a range of technologies and technological possibilities labeled new media Rather than trying to cover every possible topic relating to new communication technologies this unique text is organized by how these new technologies mediate the community political economic personal and global spheres of our social lives Editors Philip N Howard and Steve Jones explore the multiple research methods that are required to understand the embeddedness of new media Society Online discusses the findings of the Pew Internet and American Life Project and is the first book to bring together leading social scientists to provide the most comprehensive and far reaching Internet research data sets and to contextualize Internet use in modern life The book features contributions by leading scholars from across the social sciences using a range of research techniques including systematic content analysis comparative methods quasi experimental methods probit ordinary least squares and logistic regression analysis small focus groups historical archival and survey methods ethnographic and auto ethnographic work and comparative analyses of policy traditions to probe analyze and understand the Internet in the context of everyday life Society Online is designed for undergraduate and graduate students taking media studies courses in the areas of Communication Sociology Political Science Anthropology Cultural Studies Information Sciences and American Studies For more information about Society Online please visit www.societyonline.net Online Society in China David Kurt Herold, Peter Marolt, 2011-03-25 This book discusses the rich and varied culture of China's online society and its impact on offline China It argues that the Internet in China is a separate space and is more than merely a technological or media extension of offline Chinese society Society

Competitive Political Regime and Internet Control Liu Yangyue, 2014-06-02 Why are policies of internet control adopted in a democratic state while internet freedom is guaranteed in a more authoritarian context In this work on the comparative politics of internet control it is argued that regime type per se is not the direct determinant of the internet control outcome Instead the book proposes an alternative model that addresses the intensity of online transgressiveness and the capacity of online civil society While online transgressiveness propels governments to seek internet control strategies online civil society represents an inhibiting force the cohesiveness of which determines the extent to which societal resistance against internet censorship might succeed Through detailed studies of Malaysia Thailand and Indonesia *Competitive Political Regime and Internet Control* shows that

online transgressiveness and civil society capacity collectively shape the outcomes of internet control In this way the book provides a new framework for understanding the practice of internet control which has become a hot topic in the study of internet politics and regime types more generally It also speaks to the broad literature on Southeast Asian politics as well as that on democratization
