Society As Power:

The Balance of Power in Society Frank Tannenbaum, 1969 *Civil Society, Peace, and Power* David Cortright, Melanie Greenberg, Laurel Stone, 2016-10-12 Civil society plays an increasingly powerful role in the global landscape emerging as key actors in preventing and managing conflict and building more peaceful and sustainable societies The multiple case studies featured in this volume illustrate the growth of civil society involvement in national regional and international peacebuilding policy The focus is on multi stakeholder systems based approaches to peacebuilding and human security that involve diverse civil society groups NGOs religious organizations media etc government agencies intergovernmental organizations and security forces This unique comprehensive approach encompasses diverse stakeholders seeking to understand the drivers of conflict and the possibilities for working together to build peace The book illustrates how the involvement of civil society can result in better informed more inclusive more accountable government decision making and more effective peacebuilding policies Importantly a number of the case studies provide a gender perspective on peacebuilding and civil society issues voicing and giving attention to women s perspectives without being focused only on gender issues Further authors from the Global South offer the perspectives of those directly immersed in ongoing struggles for justice and peace *Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960* Admire Mseba, 2024-11-12 A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power In contrast those sympathetic to the land reform program saw it as fundamental to the righting of colonialism s historical wrongs Yet rural displacements at the hands of state actors or of those closely connected to them continue As in the past the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it These explanations share one thing in common each understands the country s perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state This book refocuses attention on how regimes of power rooted in kinship gender generation and status have individually and in combination informed access to land in precolonial northeastern Zimbabwe It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe Further the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land This oversight has real consequences on our understandings of landed inequalities and how they are addressed When Zimbabwe s postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book

which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies creative efforts to limit the authority of their leaders
