of campaign discourse and he charts the relationship between presidential candidates projection of civic virtue and the political arrangements that dictate the course of the campaign itself Steven Goldzwig and Patricia Sullivan examine what happens to discourse when the divide between the haves and have nots translates into a local community disconnected from virtual politics The nature types and impact of the growing use of hate speech in contemporary politics is explored by Rita Whillock while Robert Denton investigates television as an instrument of governing and its impact on the nature of democracy Gary Woodward looks at the ethics of political journalism and Lynda Lee Kaid analyzes the ethical issues raised by political advertising in all forms Clifford Jones looks at the impact of campaign finance rules on campaign communication strategy Gary Selnow explores the ethics of politics on the Internet and Robert Denton concludes by examining the relationship between constitutional authority and public morality An important text for students as well as scholars investigating contemporary American politics Electronic Whistle-Stops Gary W. Selnow, 1998-03-25 Fifty years ago the political whistle stop tour was thus named because trains blew their whistles twice when making unscheduled stops in backwater towns Like its distant cousin the electronic whistle stop brings the candidate s message directly to the people but with one outstanding difference the new whistle stop offers politicians an accuracy efficiency and success at voter persuasion unimaginable to by earlier whistle stoppers such as Harry Truman As Selnow shows American political campaigns have an extraordinary affinity for electronic devices They have seized upon electronic bulletin boards home pages and electronic libraries Since political campaigns are communication campaigns Selnow concludes that candidates who successfully inform persuade enlighten and even confuse voters will win votes Selnow also examines the debate between those who argue that new technologies have improved efficiency and those who believe that the innovations have affected society in other ways Scholars and students of American political communication must read this book the lively style will also make it exciting reading for anyone interested in this new political tool **Surgeon General's Report by the Scientific Advisory Committee on Television and Social Behavior** United States.
