Sociobiology And Human Nature An Interdisciplinary Critique And Defense

Carsten Strathausen

Sociobiology And Human Nature An Interdisciplinary Critique And Defense:

Sociobiology and Human Nature Michael S. Gregory, 1978-10-01 **Sociobiology and Human Nature** Michael S. Gregory, Anita Silvers, Diane Sutch, 1992 **Sociobiology and Human Nature** Anita Silvers, Diane Sutch, NEXA, the Science-Humanities Convergence Program, 1978 Advanced Views in Primate Biology A. B. Chiarelli, R. S. Corruccini, 2012-12-06 **Noam Chomsky: On Power, Knowledge and Human Nature** P. Wilkin, 1997-04-30 Noam Chomsky is among the most influential contemporary thinkers Peter Wilkin looks in particular at the philosophical basis of his social and political thought especially his ideal about power knowledge and human nature He shows how Chomsky's ideas can help to defend naturalism as in social and political thought Chomsky's critical writings of social inquiry and his normative ideas on libertarian socialism and human emancipation are interpreted as synthesising a number of important ideas and approaches at a time when these ideas have fallen out of favour Canguilhem and Continental Philosophy of Biology Giuseppe Bianco, Charles T. Wolfe, Gertrudis Van de Vijver, 2023-02-01 This edited volume presents papers on this alternative philosophy of biology that could be called continental philosophy of biology and the variety of positions and solutions that it has spawned In doing so it contributes to debates in the history and philosophy of science and the history of philosophy of science as well as to the craving for history and or theory in the theoretical biological disciplines In addition however it also provides inspiration for a broader image of philosophy of biology in which these traditional issues may have a place The volume devotes specific attention to the work of Georges Canguilhem which is central to this alternative tradition of continental philosophy of biology This is the first collection on Georges Canguilhem and the Continental tradition in philosophy of biology The book should be of interest to philosophers of biology continental philosophers historians of biology and those interested in broader traditions in philosophy of science *Kant and the Human Sciences* A. Cohen, 2009-10-22 This book provides the first sustained attempt to extract from Kant's writings on biology anthropology and history an account of the human sciences their underlying unity their presuppositions as well as their methodology that is to say Kant's philosophical and epistemological foundation of the human sciences **Reductionism and Cultural Being** J.W. Smith, 2012-12-06 **Ethnos Oblige** Baniyelme D. Zoogah, 2022-02-28 *Ethnos Oblige* Theory and Evidence presents revelatory findings on the drivers of ethnic identity and related contingencies as well as suggestions for organizational implications for employee relations organization behavior institutional entrepreneurship and overall business strategy **Bioaesthetics** Carsten Strathausen, 2017-10-15 In recent years bioaesthetics has used the latest discoveries in evolutionary studies and neuroscience to provide new ways of looking at art and aesthetics Carsten Strathausen's remarkable exploration of this emerging field is the first comprehensive account of its ideas as well as a timely critique of its limitations Strathausen familiarizes readers with the basics of bioaesthetics grounding them in its philosophical underpinnings while articulating its key components Importantly he delves into the longstanding problem of the two cultures

that separate the arts and the sciences Seeking to make bioaesthetics a more robust way of thinking Strathausen then critiques it for failing to account for science's historical and cultural assumptions At its worst he says biologism reduces artworks to mere automatons that rubber stamp pre-established scientific truths Written with a sensitive understanding of science's strengths and willing to refute its best arguments Bioaesthetics helps readers separate the sensible from the specious At a time when humanities departments are shrinking and when STEM education is on the rise Bioaesthetics makes vital points about the limitations of science while lodging a robust defense of the importance of the humanities

Annals of Theoretical Psychology Joseph R. Royce, Leendert P. Mos, 2013-11-11 As such things happen several manuscripts in the present volume were under review prior to the ones that appeared in Volume I of the Annals A major difficulty encountered in the preparation of these volumes apart from working up to three years in advance of publication is eliciting appropriate commentary If this format is to succeed the commentary must be both engaging to the reader and satisfying to the author It is not yet clear how successful we have been in this regard and indeed we do not feel bound to publish commentary with each manuscript that is accepted for publication Nevertheless we do invite readers commentaries on published materials The contributions by Jan Smedslund and Benjamin Wolman in this volume have been through an inordinately long publication lag We have been in receipt of both manuscripts since early in 1981 and Dr Smedslund especially has since clarified and advanced his views elsewhere in print K B Madsen and Joseph Rychlak submitted their manuscripts in the fall of 1981 while Michael Hyland and J Philippe Rushton had first drafts of their manuscripts accepted for publication in the fall of 1982 We are grateful to our contributors for their expressed commitment to the Annals and assure potential contributors that the delay in publication is a mere matter of getting the series off the ground

Brill's Companion to the Philosophy of Biology Andrea Borghini, Elena Casetta, 2019-12-16 In this volume Andrea Borghini and Elena Casetta introduce a wide spectrum of key philosophical problems related to life sciences in a neat framework and an accessible style with a special emphasis on metaphysical issues The volume is divided into three parts The first addresses the two main questions stemming from life sciences what is life and what is the correct understanding of the theory of evolution The second part looks at metaphysical questions concerning biological entities environments species organisms and biological individuals The third part focuses on theoretical questions of particular ethical and political significance sex and gender the biotechnological revolution and the evolution of behavior and culture Each chapter is followed by a list of further readings

Rhetoric and Incommensurability Randy Allen Harris, 2005-09-19 Rhetoric and Incommensurability examines the complex relationships among rhetoric philosophy and science as they converge on the question of incommensurability the notion jointly though not collaboratively introduced to science studies in 1962 by Thomas Kuhn and Paul Feyerabend The incommensurability thesis represents the most profound problem facing argumentation and dialogue in science surely but in any symbolic encounter any attempt to cooperate find common ground get along make better knowledge and build better societies This volume

brings rhetoric the chief discipline that studies argumentation and dialogue to bear on that problem finding it much more tractable than have most philosophical accounts *Humanist Realism for Sociologists* Terry Leahy, 2017-01-20 Recent critiques treat humanism as a mistaken value framework Indeed the concept of human nature is in fact essential for sociology but is often being denied at the same time as it appears without acknowledgement While classic authors can show us how to connect an ethics with a concept of human nature current humanists must tackle the sociobiological view of human nature and interrogate humanism in the light of the ecological crisis *Humanist Realism for Sociologists* both explains and explores some of the main arguments surrounding humanism put forward by classic social theorists such as Aristotle Marx and Weber as well as more contemporary authors such as Braidotti Oakley Weedon Firestone Connell Flyvbjerg Foucault and Bourdieu A must have tool for understanding how value perspectives cannot be eliminated from the social sciences this book is essential for undergraduates postgraduates and postdoctoral researchers interested in the fields of sociology anthropology women s studies social work human geography political philosophy and ecology *Evolving Ethics* Steven Mascaro, Kevin Korb, Ann Nicholson, Owen Woodberry, 2015-11-30 This book describes the application of Artificial Life simulation to evolutionary scenarios of wide ethical interest including the evolution of altruism rape and abortion providing a new meaning to experimental philosophy The authors also apply evolutionary ALife techniques to explore contentious issues within evolutionary theory itself such as the evolution of aging They justify these uses of simulation in science and philosophy both in general and in their specific applications here *Evolving Ethics* will be of interest to researchers enthusiasts students and interested lay readers in the fields of Artificial Life philosophy of science ethics agent and individual based modeling in ecology and the social sciences computer simulation evolutionary biology evolutionary psychology and the social sciences

Nature Animated M. Ruse, 2012-12-06 These remarks preface two volumes consisting of the proceedings of the Third International Conference on the History and Philosophy of Science of the International Union of History and Philosophy of Science The conference was held under the auspices of the Union The Social Sciences and Humanities Research Council of Canada and the Canadian Society for History and Philosophy of Science The meetings took place in Montreal Canada 25 29 August 1980 with Concordia University as host institution The program of the conference was arranged by a Joint Commission of the International Union of History and Philosophy of Science consisting of Robert E Butts Canada John Murdoch U S A Vladimir Kirsanov U S S R and Paul Weingartner Austria The Local Arrangements Committee consisted of Stanley G French Chair Concordia Michel Paradis treasurer McGill Fran ois Duchesneau Universite de Montreal Robert Nadeau Universite du Quebec it Montreal and William Shea McGill University Both committees are indebted to Dr G R Paterson then President of the Canadian Society for History and Philosophy of Science who shared his expertise in many ways Dr French and his staff worked diligently and efficiently on behalf of all participants The city of Montreal was as always the subtle mixture of extravagance charm warmth and excitement that retains her status as the jewel of Canadian cities The

funding of major international conferences is always a problem

Our Social World: Condensed Jeanne H.

Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2019-07-09 Our Social World Condensed by Jeanne H Ballantine Keith A Roberts and Kathleen Odell Korgen inspires you to develop your sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis The award winning author team organizes the text around the Social World model a conceptual framework that demonstrates the relationships among individuals the micro level organizations institutions and subcultures the meso level and societies and global structures the macro level The use of the Social World Model across chapters represented in a visual diagram in the chapter openers helps you to develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects The Condensed version is adapted from Our Social World Introduction to Sociology The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by removing selected boxes editing the main narrative and combining four chapters into two Family Education and Politics Economics Evolution and Literary Theory Joseph Carroll, 1995 Over the past two decades poststructuralism in its myriad forms has come to dominate literary criticism to the exclusion of virtually any other point of view Few scholars have escaped the coercive authority of its programmatic radicalism In Evolution and Literary Theory Joseph Carroll vigorously attacks the foundational principles of poststructuralism and offers in their stead a bold new theory that situates literary criticism within the matrix of evolutionary theory A *Companion to American Environmental History* Douglas Cazaux Sackman, 2010-02-12 A Companion to American Environmental History gatherstogether a comprehensive collection of over 30 essays that examinethe evolving and diverse field of American environmental history Provides a complete historiography of American environmentalhistory Brings the field up to date to reflect the latest trends andencourages new directions for the field Includes the work of path breaking environmental historians from the founders of the field to contributions frominnovative young scholars Takes stock of the discipline through five topically themedparts with essays ranging from American Indian EnvironmentalRelations to Cities and Suburbs Anthropological Realities Jeanne Guillemin, The perspective of social anthropology is broadening to include the changing realities of both traditional and modern people Anthropologists such as Oscar Lewis Marvin Harris Margaret Mead Frederick Barth and others represented in this volume apply comparative analysis to a wide spectrum of human groups from urban villages to nomadic tribesmen Anthropological Realities offers an up to date introduction to the standard areas of language ritual politics and economics In addition special focus is given to the most current trends in field research Essays on urbanization Third World development ethnicity and professional ethics provide complte coverage of anthropology today Jeanne Guillemin is associate professor of Sociology and Anthropology Boston College
