Perspectives on Sociological Theories, Methodological Debates and Organizational Sociology Medani P.

Bhandari, 2023-04-13 This book stands as the full body of scholarly work on western theories of social sciences. The book contains three chapters. The first part gives the overall scenario of theories, the second part provides the pathway to research destination, the research method, and the third and final part is the destination of the substantive field of study and the roles of international organizations on social, political, economic, environmental, regimes, creation as well as to other social and development functions of international organizations. Sociology examines the social actors' activities in society and social problems. Western Scholars have developed many social theories which address the underlying causes such as social conflicts and inequalities, and many formal and informal social organizations are involved to minimize the challenges of inequalities. The study of social organizations is a relatively new phenomenon in sociology. Broadly its historical root can be traced from Greek civilization, Plato, Aristotle, and it has mostly flourished since the Enlightenment Era. However, empirical studies show that the scientific study of organizations began only from the 19th and 20th century. Among the scholars of these centuries, the contributions of Karl Marx, Ferdinand Tönnies, Emile Durkheim, Ludwig Gumplowicz, Vilfredo Pareto, Max Weber, and Talcott Parsons are considered as pillars of sociology. This book intends to answer the broad and major questions of theories, methods, and the international organization studies in social sciences, particularly in sociology, and to provide the basic concepts of social theories, application of methods in research, qualitative and elaborate the factual reality, why study of international organization is also subject of sociological study. The book presents the perspectives of organizational sociology in a way that scholarly readers can see the linkages, political sciences, sociology, and slightly economic in addressing the roles and issues of the international organizations.

Female Genital Mutilation and Social Media Christina Julios, 2018-09-26 This book explores the phenomenon of anti-female genital mutilation (FGM) social media activism. Against a backdrop of over 200 million girls and women worldwide affected by FGM, this volume examines key global online campaigns to end the practice involving leading virtual platforms such as Twitter, Facebook, and YouTube. Drawing from twenty-one fieldwork interviews with anti-FGM activists, frontline practitioners, and survivors, the volume investigates opportunities and challenges inherent to cyberspace. These include online FGM bans as well as practices such as cyber misogyny and clicktivism. Global campaigns featured include the UN's International Day of Zero Tolerance for FGM, the WHO's Sexual and Reproductive Health Programme, The Girl Generation, The Guardian's End FGM Global Media Campaign, and the Massai Cricket Warriors. Furthermore, ten case studies document prominent anti-FGM campaigners. Firstly, five African-led narratives from celebrated activists: Efua Dorkenoo OBE, Waris Dirie, Ayaan Hirsi Ali, Jaha Mapenzi, Dukureh, and Leyla Hussein. Second, five accounts from FGM survivors interviewed for the book: Mama Sylla, Masooma Rana, Alvi Farzana, Doctor Fatou Baldeh, and Mariya Taher. By exploring anti-FGM online activism, this book fills a gap in the literature which has largely overlooked FGM's presence in

cyberspace as a virtual social movement Female Genital Mutilation and Social Media will be of interest to activists survivors frontline professionals students academics and the wider public

Cults, New Religions and Religious Creativity

(Routledge Revivals) Geoffrey Nelson, 2011-03-31 The twentieth century has been marked by an unprecedented outburst of religious activity on a world wide scale and in particular by a mushrooming of numerous religious movements This work first published in 1987 takes a fresh approach to the understanding of this phenomenon an approach which takes into account new concepts of human nature and of religion

Sustainability and company performance Lujie Chen, 2015-09-03 This dissertation approaches the question of sustainability and its influence on company performance with special focus on the manufacturing industry In the contemporary production environment manufacturing operations must take into account not only profit but also environmental and social performance in order to ensure the long term development of the company Companies have to decide whether they should allocate resources to environmental and social practices in order to improve their competitive advantage Consequently in decision making processes concerning operations it is important for companies to understand how to coordinate profit people and planet The objective of this dissertation was to investigate the current situation regarding manufacturers sustainable initiatives and to explore the relationship between these sustainable practices and companies performance including financial performance operational performance innovation performance environmental performance and social performance First of all a structured literature review was conducted to identify sustainable factors considered to be important in the decision making of manufacturing operations The findings were synthesized into a conceptual model which was then adopted as the basis for designing the survey instrument used in this dissertation Drawing on Global Reporting Initiative GRI reports empirical research was performed to explore the relationship between environmental management practices and company performance Interestingly the findings showed that many environmental management practices had a strong positive impact on innovation performance Sustainability disclosures and financial performance were further analyzed using extended data from the GRI reports The results also showed that several sustainability performance indicators such as product responsibility human rights and society displayed a significant and positive correlation with return on equity in the sample companies In order to further explore the research area and to verify these findings a triangulation approach was adopted and new data were collected via a survey conducted among middle and large sample companies in the Swedish manufacturing industry The results indicated that the sustainable improvement practices had a positive impact on company performance Some environmental and social improvement practices had a direct and positive correlation with product and process innovation Furthermore findings suggested that better cooperation with suppliers on environmental work could help to strengthen the organizational green capabilities of the focal companies When considering the company s general approach to implementing sustainable practices some interesting findings emerged There were limited significant differences in sustainable practices when comparing different manufacturing sectors and different

countries and regions However the results showed that Swedish manufacturing companies often place higher priority on implementing economic and environmental sustainability practices than on social ones This dissertation contributes to the literature on manufacturing sustainability The study expands the understanding of how environmental social or economic perspectives as a triple bottom line can influence company performance and to a certain extent the supply chain Identifying and understanding such relationships gives companies the opportunity to integrate sustainability into their manufacturing operations strategy in order to sustain their manufacturing operations over the long term

Critical Social Work June Allan, Linda Briskman, 2020-07-16 Another important contribution to the growing literature on critical social work It is on the cutting edge of thinking about social work and its goal of social change Kate van Heugten Social Work Review Critical Social Work starts from the premise that a central goal of social work practice is social change to redress social inequality Taking a critical theoretical approach the authors explore the links between personal and social change They confront the challenges for critical social work in the context of pressures to separate the personal from the political and in responding to the impact of changes in the socio political statutory and global contexts of practice Critical Social Work has been thoroughly revised to take into account recent social economic and political developments Coverage of theoretical frameworks has been substantially expanded and reflects current concerns such as evidence based practice and human rights The causes of people's marginalisation and oppression are examined in relation to class race ethnicity gender and other forms of social inequality Case study chapters in the earlier edition on working with immigrants Indigenous people women men families people with psychiatric disabilities and those experiencing loss and grief have been updated and revised The second edition includes new case study chapters on disability older people children rurality and violence and abuse Critical Social Work is an essential resource to inform progressive social work practice
