Sociologists, Economists, and Democracy Brian Barry, 1988-09-15 Rationalist theories of political behavior have recently risen in status to that of a new or more accurately rediscovered paradigm in the systematic study of politics Brian Barry's short provocative book played no small part in the debate that precipitated this shift Without reservation Barry's treatise is the most lucid and most influential critique of two important competing perspectives in political analysis the sociological school of Talcott Parsons Gabriel Almond and other so called functionalists and the economic school of Anthony Downs and Mancur Olson among others Dennis J Encarnation American Journal of Sociology

Routledge Handbook of Latin American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region's experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America's challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region Power, Institutions, and Leadership in War and Peace David R. Mares, David Scott Palmer, 2012-06-15 In January 1995 fighting broke out between Ecuadorian and Peruvian military forces in a remote section of the Amazon It took more than three years and

the interplay of multiple actors and factors to achieve a definitive peace agreement thus ending what had been the region's oldest unresolved border dispute. This conflict and its resolution provide insights about other unresolved and/or disputed land and sea boundaries which involve almost every country in the Western Hemisphere. Drawing on extensive field research at the time of the dispute and during its aftermath including interviews with high ranking diplomats and military officials, *Power Institutions and Leadership in War and Peace* is the first book-length study to relate this complex border dispute and its resolution to broader theories of conflict. The findings emphasize an emerging leadership approach in which individuals are not mere captives of power and institutions. In addition, the authors illuminate an overlap in national and international arenas in shaping effective articulation, perception and selection of policy. In the new democratic Latin America that emerged in the late 1970s through the early 1990s, historical memory remains influential in shaping the context of disputes in spite of presumed U.S. post-Cold War influence. This study offers important broader perspectives on a hemisphere still rife with boundary disputes as a rising number of people and products including arms pass through these borderlands. *Visions and Realities of Party Government* Francis G. Castles, Rudolf Wildenmann, 2014-01-06 No detailed description available for *Visions and Realities of Party Government*. **Redefining Culture** John R. Baldwin, Sandra L. Faulkner, Michael L. Hecht, Sheryl L. Lindsley, 2006-08-15 Argues that culture is perhaps the most important thing to know about people if one wants to make predictions about their behavior. The goal of this volume is to present a theoretically exhaustive integration of multidisciplinary approaches. **A Companion to Contemporary Political Philosophy** Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12 This new edition of *A Companion to Contemporary Political Philosophy* has been extended significantly to include 55 chapters across two volumes written by some of today's most distinguished scholars. New contributors include some of today's most distinguished scholars among them Thomas Pogge, Charles Beitz and Michael Doyle. Provides in-depth coverage of contemporary philosophical debate in all major related disciplines such as economics, history, law, political science, international relations and sociology. Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism. Includes detailed discussions of major concepts in political philosophy including virtue, power, human rights and just war. *The Rule Of The Many* Thomas Christiano, 2018-02-06 There is no problem more crucial to contemporary political thought than the status of democracy, its role and its problems in the contemporary world. In this survey of democratic theory, Thomas Christiano introduces the reader to the principles underlying democracy and to the problems involved in applying these principles to real-life situations. Beginning with the simple democratically inspired presumption that the interests of all citizens are to be treated equally, Christiano argues that the implications of such a minimal commitment clarify the nature of democracy and what must be demanded of democratic institutions. He argues that it is the collision of this demand for equality with the fact of pluralism of interests that determines how democratic institutions ought to be designed. This strong sense of reality will be welcomed by those interested in

practical questions of transition in newly democratizing states Christiano combines a broad coverage of important positions taken by others with the exposition of his own ideas allowing his text to appeal to a wide range of readers from introductory students to experienced scholars Clear accessible and often elegant *The Rule of the Many* is a splendid introduction to democratic theory one that will take its place as both an important scholarly contribution and as an effective text *Political Sociology* Keith Faulks, 2000-03 This volume introduces the key conceptual debates and approaches in contemporary political sociology It explores the relationship between the state and civil society globalization new social movements and citizenship

Oxford Handbook of Political Behavior Russell J. Dalton, Hans-Dieter Klingemann, 2007 Assembles the world's leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics

The State Must Be Our Master of Fire Dennis Galvan, 2004-06-17 Over several centuries the Serer of the Siin region of Senegal developed a complex system of land tenure that resulted in a stable rural society productive agriculture and a well managed ecosystem Dennis Galvan tells the story of what happened when French colonial rulers and later the government of the newly independent Senegal imposed new systems of land tenure and cultivation on the Serer of Siin Galvan's book is a painstaking and skillful autopsy of ruinous Western style rational economic development policy forced upon a fragile yet self sustaining society It is also a disquieting demonstration of the general folly of such an approach and an attempt to articulate a better more sensitive and ultimately more productive model for change a model Galvan calls institutional syncretism

The Two Faces of Political Apathy Tom DeLuca, 1995 This inclusive study examines the extraordinarily high rates of political nonparticipation in the United States and the political historical institutional and philosophical roots of such widespread apathy To explain why individuals become committed to political apathy as a political role Tom DeLuca begins by defining the two faces of political apathy The first rooted in free will properly places responsibility for nonparticipation in the political process on individuals Political scientists and journalists however too often overlook a second more insidious face of apathy a condition created by institutional practices and social and cultural structures that limit participation and political awareness The public blames our most disenfranchised citizens for their own disenfranchisement Apathetic citizens blame themselves DeLuca examines classic and representative explanations of non participation by political analysts across a range of methodologies and schools of thought Focusing on their views on the concepts of political power and political participation he assesses current proposals for reform He argues that overcoming the second face of apathy requires a strategy of real political equality which includes greater equality in the availability of political resources in setting the political agenda in clarifying political issues and in developing a public sphere for more genuine democratic politics

Author note Tom DeLuca is Assistant Professor of Political Science at Fordham College at Lincoln Center He has been a long time activist on local and national issues especially nuclear arms control and his op ed pieces on politics have appeared in The New York Times New York Newsday The Nation and The Progressive
