**Addiction Treatment** Daniel Hood,2017-09-08 Addiction Treatment is an ethnography that compares two types of residential drug free treatment programs religious faith based programs and science based secular programs Although these programs have originated from significantly different ideological bases in examining the day to day operations of each Daniel E Hood concludes that they are far more alike than they are different Drug free treatment today whether in secular or religious form is little more than a remnant of the temperance movement It is a warning to stop using drugs At its best treatment provides practical advice and support for complete abstinence At its worst it demeans users for a form of behavior that is not well understood and threatens death if they do not stop Hood argues that there is no universal agreement on what addiction is and that drug abuse is little more than a catch all term of no specific meaning used to condemn behavior that is socially unacceptable Through extensive participatory observations intimate life history interviews and informal conversations with residents and staff Hood shows how both programs use the same basic techniques of ideological persuasion mutual witnessing methods of social control discourse deprivation and the same proposed zero tolerance abstinent lifestyle Christian living vs Right living as they endeavor to transform clients from addicts to citizens or from sinners to disciples

**Dominicans in New York City** Milagros Ricourt,2015-12-22 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

Exploring Social Change Charles L. Harper, Kevin T. Leicht,2015-08-13 For one semester junior senior and beginning level graduate courses in Social Change An introduction to social change that highlights theories on key topics including social change innovation social movements and revolutions Exploring Social Change America and the World 6e is a comprehensive introduction to social change The last part of the book shifts explicitly to the global level to analyze population and environmental issues and globalization Within this framework the book discusses topics about change and its problems familiar in sociology and social science

Polite Politics Denny Ho Kwok-leung,2020-08-26 This title was first published in 2000 This book contributes to social movement theory and to an understanding of Hong Kong politics through analysis of an urban housing protest movement The theoretical approach adopted is a multi level one and seeks to show the influence of the political context the resources available to the groups concerned the actors interpretations of their situation and their strategy preferences This approach fills a gap in social movement theory because most theoretical frameworks focus on a single level of analysis The book also aims to help researchers in the field to re examine the current development of social movement theories and to learn the specific trajectory of urban social movements in Hong Kong

**Racism Matters** William D. Wright,1998-09-24 This work offers a new discussion of racism in America that focuses on how White people have been affected by their own racism and how it impacts upon relations between Blacks and Whites This study draws attention to how racism is distinctly different from race and it shows how since the late 17th century most Whites have been afflicted by their own racism as evidenced by

considerable delusional thinking dehumanization alienation from America and psychological and social pathology White people have created and maintained a White racist America which is the antithesis of liberty equality justice and freedom Black people continue to be the primary victims of this culture Although racism in America has changed since the 1950s and 1960s from a blatant and violent White racist America to a less violent and more subtle White racist America racism still severely hampers the ability of most Blacks to develop and be free The continuing racist context in which Blacks live requires that they organize and use effective group power or Black Power to help themselves One obstacle to Black achievement is the use of intelligence tests which are wholly unscientific and represent a manifestation of subtle White racism A challenge to the writing on race in this country this work focuses on the victims and not the perpetrators **Sociological Abstracts** Leo P. Chall,1996

Exploring Social Change Kevin Leicht,Charles Harper,2018-08-15 Exploring Social Change provides a compelling analysis of theories that explain social change innovation social movements and revolution and concludes with reflections about how individuals do and should live in an uncertain and rapidly changing world Written in a personal and clear manner the authors provide definitions of key terms and analysis of theories and ideas from the study of social change The seventh edition includes updated examples reflecting the social changes that have occurred in the world around us including new discussions on the environmental and social landscapes as well as updated methods and discussions that reflect that changing field of social change study **In Conflict and Order** D. Stanley Eitzen,1998

**Collective Memory Narratives in Contemporary Culture** Antonella Pococco,Estrella Gualda,Emiliana Mangone,2023-11-27 Starting from the central importance of memory in contemporary societies this book encourages a transdisciplinary reflection on how the presentification of the past is never a simple reenactment but corresponds to the interaction between memory and cultural sensitiveness present beliefs and needs expectations and forecasts for the future It studies cultural re construction through collective stories including academic debates media narratives collective mobilizations state narratives of history architectural reconstructions and artistic expressions It looks at how technological innovations have profoundly changed the practices of conservation and dissemination of collective memory with particular reference to cultural digitization Finally it shows that the relevance and selection of events the organization of connections and cross references between past present and future as well as the importance of diversified collective imaginaries are the keys to narrative constructions of memory that prove to be sensitive and decisive for its continuity and its intergenerational transmission This interdisciplinary collection is for students and scholars of the social sciences cultural studies and the humanities interested in memory studies

*Crafting Qualitative Research: Working in the Postpositivist Traditions* Pushkala Prasad,2015-02-24 Courses in management research have traditionally focused on quantitative techniques and no available text adequately covers the many different perspectives within the qualitative model or shows which qualitative techniques work best in different settings Crafting Qualitative Research fills this need In clear and readable prose this comprehensive text offers a detailed

guide to the rich diversity of qualitative research traditions with examples and applications specifically designed for the field of management Each of the book's four main sections includes a descriptive tree diagram that lays out the historical origins of that section's traditions Each chapter is devoted to a specific methodology and includes historical origins and development techniques and applications current controversies and emerging issues and a summary box highlighting that method's utility With its detailed and easy to understand coverage this will be the text of choice for any instructor who wants to include the qualitative approach in a research methods course as well as a useful resource for anyone doing research in the post positivist traditions
