Sharkey,2012-08-31 Sociology and Catholic Social Teaching Contemporary Theory and Research contains essays by key scholars in the territory where Catholic social thought and secular sociology meet and offers a much needed alternative to the relativism and individualism that so often characterize social scientific analysis today Contributors to this volume argue that Catholic social teaching as articulated so powerfully today in recent papal encyclicals and major summations such as the Compendium of the Social Doctrine of the Church offers a powerful moral framework for addressing today s pressing social problems This is especially true since many

of its tenets find solid support in social scientific research on the nature of the person and the workings of culture and social institutions Sponsored by the Society of Catholic Social Scientists and including work by sociologists from both the Society and the Pontifical Academy of Social Sciences this volume is offered in the spirit of Pope John Paul II's exhortation to draw from contemporary social science whatever can help the Church better understand contemporary social issues and trends and thus better serve humanity Specific articles address such topics as the Church as a virtual nation in the international arena changing cultural norms regarding deviance the historical and contemporary relationship between Catholicism and mainstream academic sociology empirical support for a natural law perspective on family relations the social psychology of happiness and moral behavior among emerging adults the sociology of knowledge from a distinctively Catholic perspective and how the principles of subsidiarity and solidarity can be used to analyze and evaluate the functioning of institutions like the family education and the state Each author also offers some autobiographical reflections on how they relate sociology and their life of Faith This anthology will interest scholars in both sociology and Catholic social thought as well as advanced undergraduate and graduate students in these areas

the so called classics of the field from the 19th and 20th centuries whilst challenging readers to apply a critical lens Instead of representing scholars and their works as virtually timeless each contributor provides sufficient background on the classic work in question so that readers not only understand its novelty and place in its own time but are able to arrive at a critical understanding of whether its approach to studying religion continues to be useful to them today Scholars discussed include Muller Durkheim Freud and Eliade Fieldnotes in the Critical Study of Religion Revisiting Classical Theorists therefore offers a novel way into writing both a history and ethnography of the discipline helping readers to see how it has changed and inviting them to consider what if anything endures and thereby unites these diverse authors into a common field
