urban politics It also attempts to draw out the theoretical implications of cities peculiar socio economic and political processes based on a rigorous empirical investigation in which political is envisioned and fashioned This book will be useful to students researchers and teachers working in the field of urban and social science public administration urban sociology political economy and urban politics It will also be an invaluable and interesting reading for those invested in Asian studies

Cities, Change, and Conflict Nancy Kleniewski,Alexander R. Thomas,Gregory Fulkerson,2024-06-28 Cities Change and Conflict was one of the first texts to embrace the perspective of political economy as its main explanatory framework and then complement it with the rich contributions of human ecology as well as perspectives derived from critical approaches to social theory Although its primary focus is on North American cities the book contains several chapters on cities in other parts of the world including the Global North and Global South It provides both historical and contemporary accounts of the impact of globalization on urban development and urban institutions This sixth edition features a new groundbreaking chapter on the relationship between the physical environment and human settlements including the urban rural nexus This edition also expands and updates coverage of recent trends such as the establishment and evolution of gay neighborhoods the suburbanization of immigrant groups the situation of the immigrant youth known as Dreamers the reverse migration of Blacks from the North to the South and the proliferation of exurban communities Beyond examining the dynamics that shape the form and functionality of cities the text surveys the experience of urban life among different social groups including a new perspective on intersectionality as it affects people s experiences in cities It illuminates the workings of the urban economy local and federal governments and the criminal justice system while addressing policy debates and decisions that affect almost every aspect of urbanization and urban life

Immigration and the Changing Social Fabric of American Cities John MacDonald,Robert J. Sampson,2012-04-12 This volume of The ANNALS brings together a leading set of scholars to present new research on trends in the spatial forms of immigration that are transforming the American landscape the effects of the world in a city With a distinct analytic focus the volume takes a comparative approach examining recent immigration trends disaggregating by ethnicity or immigrant type wherever possible focusing on core features of the nation s social fabric e g violence legitimacy of social institutions governance economic well being and empirically going beyond the big cities of traditional concern to a host of smaller cities and towns reaching into far flung pockets of the country The lineup includes papers on both familiar cities such as New York Los Angeles Chicago and Miami as well as places as different as San Antonio Nashville Boston Dublin Hazleton Pennsylvania and St James Minnesota While the places studied and features of their social fabric may differ the social processes underlying the spatial forms of immigration are shown to be largely the same This volume will be of interest to social scientists from a broad range of disciplines who engage in research and teaching on issues related to immigration policy makers and individuals working on immigration policy research

Cities and mental health Roger C. Ho,Agnieszka Anna Olszewska-Guizzo,Adam Charles Roberts,Alessio Russo,Simone

Kühn,2023-09-07 The Fragmentation of Policing in American Cities Hung-En Sung,2001-11-30 The relationship between police and the communities and citizens they serve has long been a topic of study and controversy Sung provides a place oriented theory of policing to guide strategies for crime control and problem oriented policing He contends that community policing is a product of power relations among communities Sung also explores how police and citizens interact with each other in stratified and residentially segregated communities how services are delivered by police how citizens respond to those charged with protecting them and enforcing the law Illuminating the police neighborhood and advancing a clear hypothesis for explaining and predicting changes in police behavior this both provides a conceptual platform for public policy debate planning and evaluation of police public safety and democratic governance According to Sung place has everything to do with the success of community policing and the attitudes of both police and citizens contribute to the success or failure of police initiatives as well as the level of crime inherent in a community By focusing on the social and political forces that shape the residential patterns of American cities and the organization of police work Sung provides a theoretical framework for considering the relations between police and citizens in different neighborhoods He concludes that current modes of police community relations and crime prevention will improve only if the policies adopted encourage the transformation of marginal communities into communities where citizens feel a shared responsibility for maintaining and peace and order This unique contribution to a growing field of study provides an ecological theory of police citizen relations that begins with the inequality and segregation inherent in many American cities *The Structure of Nineteenth Century Cities* James H Johnson,Colin Pooley,2021-06-29 When this book was first published in 1982 despite considerable research on 19th Century towns in Britain and America there had been little attempt to search for links between these empirical studies and to relate them more to more general theories of 19th Century urban development The book provides an integrated series of chapters which discuss trends and research problems in the study of 19th Century cities It will be of value to researchers in urban geography social history and historical geography **Cities Beyond Borders** Nicolas Kenny,Rebecca Madgin,2016-05-23 Drawing on a body of research covering primarily Europe and the Americas but stretching also to Asia and Africa from the mid eighteenth century to the present this book explores the methodological and heuristic implications of studying cities in relation to one another Moving fluidly between comparative and transnational methods as well as across regional and national lines the contributors to this volume demonstrate the necessity of this broader view in assessing not just the fundamentals of urban life the way cities are occupied and organised on a daily basis but also the urban mindscape the way cities are imagined and represented In doing so the volume provides valuable insights into the advantages and limitations of using multiple cities to form historical inquiries **Changing Cities** Nick Buck,Ian Richard Gordon,Alan Harding,2017-03-16 A new conventional wisdom spanning academic and policy communities sees a combination of economic competitiveness social cohesion and responsive governance as essential for survival in the post 1980s world and cities as

crucial to achieving these goals This interdisciplinary text provides the first critical examination of these ideas drawing on the UK Cities research programme and other recent research It combines analysis of the competitiveness cohesion governance problematic with examination of the major processes underlying key sectors of the urban economy physical development social relations neighbourhoods and urban policy

Unruly Cities? Chris Brook, Gerry Mooney, Steve Pile, 2006-02-01 The text argues that cities are open to many forms of order and disorder both from within the city and outside They represent cities potentials as well as their problems It challenges the assumption that cities are threatened by disorder from below and that they might be ruled by order imposed from above *Smart cities* Netexplo, **European Cities and Towns** Peter Clark, 2009-01-30 Since the Middle Ages Europe has been one of the most urbanized continents on the planet and Europe s cities have firmly stamped their imprint on the continent s economic social political and cultural life This study of European cities and towns from the fall of the Roman Empire to the present day looks both at regional trends from across Europe and also at the widely differing fortunes of individual communities on the roller coaster of European urbanization Taking a wide angled view of the continent that embraces northern and eastern Europe as well as the city systems of the Mediterranean and western Europe it addresses important debates ranging from the nature of urban survival in the post Roman era to the position of the European city in a globalizing world The book is divided into three parts dealing with the middle ages the early modern period and the nineteenth and twentieth centuries with each part containing chapters on urban trends the urban economy social developments cultural life and landscape and governance Throughout the book addresses key questions such as the role of migration including that of women and ethnic minorities the functioning of competition and emulation between cities as well as issues of inter urban cooperation the different ways civic leaders have sought to promote urban identity and visibility the significance of urban autonomy in enabling cities to protect their interests against the state and not least why European cities and towns over the period have been such pressure cookers for new ideas and creativity whether economic political or cultural

Transforming Cities Nick Jewson, Susanne Macgregor, 2018-05-11 Transforming Cities examines the profound changes that have characterised cities of the advanced capitalist societies in the final decades of the twentieth century It analyses ways in which relationships of contest conflict and co operation are realised in and through the social and spatial forms of contemporary urban life This book focuses on the impact of economic restructuring and changing forms of urban deprivation and social exclusion It contends that these processes are creating new patterns of social division and new forms of regulation and control

[Encyclopedia of Race and Crime](#) Helen Taylor Greene, Shaun L. Gabbidon, 2009-04-14 The organization of the reader s guide especially the groupings of landmark cases race riots and criminology theories is impressive Other related titles lack the breadth detail and accessibility of this work Recommended for all libraries essential for comprehensive social studies collections Library Journal As seen almost daily on local and national news race historically and presently figures prominently in crime and justice reporting within the United

States in the areas of hate crimes racial profiling sentencing disparities wrongful convictions felon disenfranchisement political prisoners juveniles and the death penalty and culturally specific delinquency prevention programs The Encyclopedia of Race and Crime covers issues in both historical and contemporary context with information on race and ethnicity and their impact on crime and the administration of justice These two volumes offer a greater appreciation for the similar historical experiences of varied racial and ethnic groups and illustrate how race and ethnicity has mattered and continues to matter in the administration of American criminal justice Key Features Covers a number of broad thematic areas basic concepts and theories of criminal justice the police courts and corrections juvenile justice public policy the media organizations specific groups and populations and specific cases and biographies Addresses such topics as gender hate bias crimes immigrant experiences international and cross cultural issues race and gangs and race and law Presents experiences of all major racial and ethnic groups in the U S including Asians Blacks Latinos Native Americans and Ethnic Whites as well as religious minorities such as Muslims Includes coverage of recent incidents like the alleged rape of a black female North Carolina Central University student by white male members of the Duke University Lacrosse Team the Jena 6 incident the Tulia Texas drug arrests the Rodney King beating the O J Simpson trials in the 1990s and more recent racial profiling incidents Two appendices provide information on locating and interpreting statistical data on race and crime as well as detailed instructions on how to access statistical data on the web for such specific areas as arrests drugs gang membership hate crimes homicide trends juvenile justice prison populations racial profiling the death penalty and victimization Because the topic of race and crime is of wide interest and relevance entries in this Encyclopedia are written in an accessible style to appeal to a broad audience making it a welcome addition to academic and public libraries alike Contention and Trust in Cities and States Michael Hanagan, Chris Tilly, 2011-04-15 The catalyst for this book is the fact that noted sociologist Charles Tilly upon his death in 2008 left one completed chapter of an unfinished manuscript entitled Cities States and Trust Networks examining the relationships between cities and nation states over the sweep of history and in particular the role of trust networks in mediating this relationship Though this was the catalyst the book serves a broader purpose to survey recent frontier work on cities nation states and the relations between the two in historical and contemporary perspective Essays in the book will address four main themes city state relations trust networks and commitment democracy and inequality and the importance of historical legacies in shaping state structures practices and capacities They will be global in scope with research on the United States Latin America Europe Asia and Africa a number of the pieces will be comparative They will also be interdisciplinary including works of geography history political science sociology urban planning The book addresses several confluent needs of readers One is to simply update themes addressed in earlier edited work such as Bringing the State Back In 1985 A second is to bring together current thinking about cities on the one hand and nation states on the other literatures that are often segregated from each other A third is to perform those two purposes in a way that is global in scope and

combines both historical and current analyses to pull together insights from the full range of human experience **State Power in Ancient China and Rome** Walter Scheidel, 2014-12-01 Two thousand years ago the Qin Han and Roman empires were the largest political entities of the ancient world developing simultaneously yet independently at opposite ends of Eurasia Although their territories constituted only a small percentage of the global land mass these two Eurasian polities controlled up to half of the world population and endured longer than most pre modern imperial states Similarly their eventual collapse occurred during the same time The parallel nature of the Qin Han and Roman empires has rarely been studied comparatively Yet here is a collection of pioneering case studies compiled by Walter Scheidel that sheds new light on the prominent aspects of imperial state formation This essential new volume builds on the foundation of Scheidel's Rome and China 2009 and opens up a comparative dialogue among distinguished scholars They provide unique insights into the complexities of imperial rule including the relationship between rulers and elite groups the funding of state agents the determinants of urban development and the rise of bureaucracies By bringing together experts in each civilization State Power in Ancient China and Rome provides a unique forum to explore social evolution helping us further understand government and power relations in the ancient world **Informal Cities** Charlotte Vorms, Brodwyn Fischer, 2025-09-04 An empirically rich reconstruction of how informality became an intrinsic part of urban life across three continents Over a quarter of the world's urban population lives in informal settlements While informality as a concept has been widely debated we still know very little about the phenomenon's urban history or how that history has shaped the evolution of world cities Spotlighting the historical processes that have created and sustained urban informality for more than a century editors Charlotte Vorms and Brodwyn Fischer and this volume's contributors reveal informality as an intrinsic feature of urbanity shaping not only cities across the globe but also deeper processes of state formation socioeconomic stratification and political struggle The volume brings together case studies spanning more than a hundred years drawn from Latin America Brazil Chile Venezuela and Mexico Northern Africa Morocco and Algeria and Latin Europe France Spain and Italy Together they show that informality is neither a contemporary crisis nor a predicament unique to the Global South Topics include the origins of informal settlements and their relationship with law and institutional power grassroots efforts to legitimize shantytown communities mass social movements for rights to the city the role that shantytown removal campaigns played in populist politics fascism and colonialism and the ways that informality perpetuated racial and ethnic inequalities Informal Cities is an indispensable guide to the complex and fraught terrain of urban informality in its many historical guises
