*Social Development and Education* Michael Vincent O'Shea, 1909      **Education and Social Development** Donald K. Adams, 1967      *Making Sense of Social Development* Dorothy Faulkner, Karen Littleton, Martin Woodhead, 2014-07-22 This book explores children's social relationships in and out of the classroom. Chapters focus on the growing importance of children's friendships and how these influence social participation and development later on in life. Issues such as peer rejection, bullying and adolescent development are analysed from both psychological and sociological perspectives. The book concludes with a re-examination of cultural concepts of childhood, child development and the nature of children's autonomy.

*Social Development and Education (Classic Reprint)* M. V. O'Shea, 2018-01-12 Excerpt from *Social Development and Education*. With a view to clarifying the discussion throughout and to economizing the time and energy of the general reader as well as the student, a marginal analysis and a detailed analytical index of the entire material have been made. Also the more important principles developed in the text have been summarized at the end of each chapter. Special attention is called to the Exercises and Problems given in the last two chapters. These relate to the various subjects considered in the book and they are designed to stimulate the student to test the principles developed and to extend their application in every direction. They are intended further to suggest many phases of social development and education which have hardly been even touched upon in this volume. The lists given on each chapter have been chosen from a large number which have arisen in discussing the different topics with organizations of parents and teachers and classes of university students. Only those exercises and problems have been selected which upon trial have proven to incite observation and effective reaction on the part of students as well as those interested in the practical care and culture of childhood and youth. The author has found them to be of considerable service in arousing the interest of the reader and in making real and vital the conclusions reached in the text.
